

2 Arrested In Calgary Break In After Online Shopper Spots

In American history, four U.S. Presidents have been murdered at the hands of an assassin. In each case the assassinations changed the course of American history. But most historians have overlooked or downplayed the many threats modern presidents have faced, and survived. Author Mel Ayton sets the record straight in his new book Hunting the President: Threats, Plots and Assassination Attempts—From FDR to Obama, telling the sensational story of largely forgotten—or never-before revealed—malicious attempts to slay America’s leaders. Supported by court records, newspaper archives, government reports, FBI files, and transcripts of interviews from presidential libraries, Hunting the President reveals: How an armed, would-be assassin stalked President Roosevelt and spent ten days waiting across the street from the White House for his chance to shoot him How the Secret Service foiled a plot by a Cuban immigrant who told coworkers he was going to shoot LBJ from a window overlooking the president’s motorcade route How a deranged man broke into Reagan’s California home and attempted to strangle the former president before he was subdued by Secret Service agents. In early 1992 a mentally deranged man stalking Bush turned up at the wrong presidential venue for his planned assassination attempt The relationships presidents held with their protectors and the effect it had on the Secret Service’s mission Hunting the President opens the vault of stories about how many of our recent Presidents have come within a hair’s breadth of assassination, leaving America’s fate in the balance. Most of these stories have remained buried—until now.

*Moral Panics Over Contemporary Children and Youth*Ashgate Publishing, Ltd.

This is the first book to discuss in detail how rap music is put together musically and how it contributes to the formation of cultural identities for both artists and audiences. It also argues that current skeptical attitudes toward music analysis in popular music studies are misplaced and need to be reconsidered if cultural studies are to treat seriously the social force of rap music, popular musics, and music in general. Drawing extensively on recent scholarship in popular music studies, cultural theory, communications, critical theory, and musicology, Krims redefines 'music theory' as meaning simply 'theory about music', in which musical poetics (the study of how musical sound is deployed) may play a crucial role when its claims are contextualized and demystified. Theorizing local and global geographies of rap, Krims discusses at length the music of Ice Cube, the Goodie MoB, KRS-One, Dutch group the Spookrijders, and Canadian Cree rapper Bannock.

The Birth of the Province

Volume 2 of this engrossing 11-volume journalistic history, Alberta in the 20th Century, covers the critical decade of provincehood (in 1905) and growth on a scale not again equalled until the 1970s. Among the momentous events of the decade were the long and often bitter debate in the Commons over the Alberta Act, the massive influx of settlers onto the Alberta prairies, the transformation of Calgary and Edmonton from towns into cities, and the fight between them over the location of the capital and the university, a conflict that would rend the province well into the future. The engrossing story is illustrated with 435 photographs, paintings, maps, old advertisements, and copies of letters written by participants in the events. 9.25x12.25". Published by United Western Communications Ltd., 17327-106 A Avenue, Edmonton, Alberta, Canada T5S 1M7. Annotation copyright by Book News, Inc., Portland, OR

In this fully updated and revised new edition of his landmark study of violence in and around contemporary sport, Kevin Young offers a comprehensive sociological analysis of an issue of central importance within sport studies. The book explores organised and spontaneous violence, both on the field and off, and calls for a much broader definition of 'sports-related violence', to include issues as diverse as criminal behaviour by players, abuse within sport and exploitative labour practices. Offering a sophisticated theoretical framework for understanding violence in a sporting context and including new case studies and updated empirical data - from professional soccer in Europe to ice hockey in North America - the book establishes a benchmark for the study of violence within sport and wider society. Through close examination of often contradictory trends, from anti-violence initiatives in professional sports leagues to the role of the media in encouraging hyper-aggression, the book throws new light on our understanding of the socially-embedded character of sport and its fundamental ties to history, culture, politics, social class, gender and the law. This new edition also recognises burgeoning new literatures, such as research examining concussion and the link between sport and mental illness and includes student-friendly pedagogical aids, such as critical thinking questions at the end of each chapter. Sport, Violence and Society is a vital read for anyone studying or working in the areas of the Sociology of Sport, Sport Psychology, Ethics and Philosophy of Sport, Sport and Politics, Sports History, and Sport and the Media.

This is a collection of biographical essays on the twelve premiers who led the province of Alberta during the twentieth century.

Sport, Violence and Society

Now available in paperback, this vital handbook marks the development of sports studies as a major new discipline within the social sciences. Edited by the leading sociologist of sport, Eric Dunning, and Jay Coakley, author of the best selling textbook on sport in the USA, it both reflects and richly endorses this new found status. Key aspects of the Handbook include: an inventory of the principal achievements in the field; a guide to the chief conflicts and difficulties in the theory and research process; a rallying point for researchers who are established or new to the field, which sets the agenda for future developments; a resource book for teachers who wish to establish new curricula and develop courses and programmes in the area of sports studies. With an international and inter-disciplinary team of contributors the Handbook of Sports Studies is comprehensive in scope, relevant in content and far-reaching in its discussion of future prospect.

This volume is a collective production by Carleton University's anthropology caucus, for use in introductory courses in cultural anthropology. It is an alternative to available textbooks which the caucus feels are mainly American in orientation, and not respectful of third and fourth world peoples.

The "fascinating" #1 New York Times bestseller that awakened the world to the destruction of American Indians in the nineteenth-century West (The Wall Street Journal). First published in 1970, Bury My Heart at Wounded Knee generated shockwaves with its frank and heartbreaking depiction of the systematic annihilation of American Indian tribes across the western frontier. In this nonfiction account, Dee Brown focuses on the betrayals, battles, and massacres suffered by American Indians between 1860 and 1890. He tells of the many tribes and their renowned chiefs—from Geronimo to Red Cloud, Sitting Bull to Crazy Horse—who struggled to combat the destruction of their people and culture. Forcefully written and meticulously researched, Bury My Heart at Wounded Knee inspired a generation to take a second look at how the West was won. This ebook features an illustrated biography of Dee Brown including rare photos from the author’s personal collection.

Interwar Halifax was a city in flux, a place where citizens debated adopting new ideas and technologies but agreed on one thing -- modernity was corrupting public morality and unleashing untold social problems on their fair city. To create a bulwark against further social dislocation, citizens, policy makers, and officials modernized the city ' s machinery of order -- courts, prisons, and the police force -- and placed greater emphasis on crime control. These tough-on-crime measures, Boudreau argues, did not resolve problems but rather singled out ethnic minorities, working-class men, and female and juvenile offenders as problem figures in the eternal quest for order.

The story of African Americans in Kentucky is as diverse and vibrant as the state's general history. The work of more than 150 writers, The Kentucky African American Encyclopedia is an essential guide to the black experience in the Commonwealth. The encyclopedia includes biographical sketches of politicians and community leaders as well as pioneers in art, science, and industry. Kentucky's impact on the national scene is registered in an array of notable figures, such as writers William Wells Brown and bell hooks, reformers Bessie Lucas Allen and Shelby Lanier Jr., sports icons Muhammad Ali and Isaac Murphy, civil rights leaders Whitney Young Jr. and Georgia Powers, and entertainers Ernest Hogan, Helen Humes, and the Nappy Roots. Featuring entries on the individuals, events, places, organizations, movements, and institutions that have shaped the state's history since its origins, the volume also includes topical essays on the civil rights movement, Eastern Kentucky coalfields, business, education, and women. For researchers, students, and all who cherish local history, The Kentucky African American Encyclopedia is an indispensable reference that highlights the diversity of the state's culture and history.

"Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as vol. 26, no. 7, supplement.

Few people have had a greater impact on the lives of Canadians than the late Supreme Court judge Justice Emmett Hall. At the forefront of several important judgements in the 1960s and 70s ? such as Truscott and Calder ? Hall is perhaps best known for his role in the adoption of universal health care at the federal level in 1968. Based on extensive interviews with Hall and people who knew him, Frederick Vaughan's Aggressive in Pursuit tells Hall's remarkable story. Born in Quebec in 1898 and raised in Saskatchewan, Hall had a long and distinguished career as a lawyer. In 1957, former law school classmate Prime Minister John Diefenbaker appointed Hall to the Saskatchewan Court of Queen's Bench, and four years later to the office of Chief Justice of Saskatchewan. In 1963, Diefenbaker elevated Hall to the Supreme Court of Canada, where he took up the task of universal health care and showed himself to be an aggressive defender of native causes. Aggressive in Pursuit traces Hall's career from his earliest days of private practice in Saskatchewan to the end of his career, and death, in 1994. It shows how one prairie lawyer made a difference in the life of Canada.

Training and education constitutes the backbone of a significant amount of police activity and expenditure in developing the most important resources involved in policing work. It also involves an array of actors and agencies, such as educational institutions which have a long and important relationship with police organizations. This book examines the role of education and training in the development of police in the contemporary world. Bringing together specialist scholars and practitioners from around the world, the book examines training methods in the UK, the USA, Australia, Canada, China, France, Hungary , India, the Netherlands, St Lucia and Sweden. The book throws light on important aspects of public service policing, and new areas of public and private provision, through the lens of training and development. It will be of interest to policing scholars and those involved in professional and organizational development worldwide.

Relives all the history of the NHL-- plus the great moments of the WHA, NCAA, and Olympic Games-- in detailed, year-by-year fashion.

A truly international collection, this volume features new global research examining the cultural construction of youth, through the dissemination of moral panics. This is the first book to make the most of the latest contemporary research to examine this

Charles Leerhsen brings the notorious Butch Cassidy to vivid life in this surprising and entertaining biography that goes beyond the movie Butch Cassidy and the Sundance Kid to reveal a more fascinating and complicated man than legend provides. For more than a century the life and death of Butch Cassidy have been the subject of legend, spawning a small industry of mythmakers and a major Hollywood film. But who was Butch Cassidy, really? Charles Leerhsen, bestselling author of Ty Cobb, sorts out facts from folklore and paints a brilliant portrait of the celebrated outlaw of the American West. Born into a Mormon family in Utah, Robert Leroy Parker grew up dirt poor and soon discovered that stealing horses and cattle was a fact of life in a world where small ranchers were being squeezed by banks, railroads, and cattle barons. Sometimes you got caught, sometimes you got lucky. A charismatic and more than capable cowboy—even ranch owners who knew he was a rustler said they would hire him again—he adopted the alias “Butch Cassidy,” and moved on to a new moneymaking endeavor: bank robbery. By all accounts, Butch was a smart and considerate thief, refusing to take anything from customers and insisting that no one be injured during his heists. His “Wild Bunch” gang specialized in clever getaways, stationing horses at various points along their escape route so they could outrun any posse. Eventually Butch and his gang graduated to train robberies, which were more lucrative. But the railroad owners hired the Pinkerton Agency, whose detectives pursued Butch and his gang relentlessly, until he and his then partner Harry Longabaugh (The Sundance Kid) fled to South America, where they replicated the cycle of ranching, rustling, and robbery until they met their end in Bolivia. In Butch Cassidy, Charles Leerhsen shares his fascination with how criminals such as Butch deftly maneuvered between honest work and thievery, battling the corporate interests that were exploiting the settlers, and showing us in vibrant prose the Old West as it really was, in all its promise and heartbreak.

The essays selected for this volume develop conventional abolition discourse and explore the conceptual framework through which abolition is understood and posited. Of particular interest is the attention given to an integral but often forgotten element of the abolition debate: alternatives to capital punishment. The volume also provides an account of strategies employed by the abolition community which challenges tired methodologies and offers a level of transparency previously unseen. This collection tackles complex but fundamental components of the capital punishment debate using empirical data and expert observations and is essential reading for those wishing to comprehend the fundamental issues which underpin capital punishment discourse.

The True Story of an American Outlaw

The life story of Ralph Klein highlighting his boyhood, his career as director of public relations for the Red Cross, to a respected report for CFCN-TV, to Alberta's premier as told by Frank Dabbs.

Vols. 2-6 bound with the Western law times reports.

From Flint, MI to Standing Rock, ND, minorities have found themselves losing the battle for clean resources and a healthy environment. This book provides a modern history of such environmental injustices in the U.S. and Canada. From the 19th-century extermination of the buffalo in the American West, to Alaska's Project Chariot (a Cold War initiative that planned to use atomic bombs to blast out a harbor on Eskimo land), to the struggle for recovery and justice in Puerto Rico following Hurricane Maria in 2017, this book provides readers with an enhanced understanding of how poor and minority people are affected by natural and manmade environmental crises. Written for undergraduates as well as the general reader with an interest in social justice and environmental issues, this book traces the relationship between environmental discrimination, race, and class through a comprehensive case history of environmental injustices. Environmental Racism in the United States and Canada: Seeking Justice and Sustainability includes 50 such case studies that range from local to national to international crises. Provides comprehensive coverage and analysis of the far-reaching specter of environmental racism in the U.S. and Canada, using numerous case studies that extend across the U.S. and Canada from the 19th century into the present day Examines the confluence of climate change, natural resource conflicts, political and corporate corruption, and racism Reflects a regional arrangement to better highlight patterns and types of injustices as well as victims Is written by a prolific author and expert on environmental and Native American issues
