***three years old, as the team captain in 2017 could have been seen as premature, bringing with it pressure that could damage a young player's career. However, he knew that Kane, a modest, humble and inspiring figure was up to the task. Having lost faith in the national team, English fans weren't sure the players would even make it out of their group. No one could have predicted that this young and relatively inexperienced side would achieve their best result since 1990, or that their captain would win the tournament's Golden Boot with six goals. Perhaps most importantly for the team and their manager, they brought the country together to make for an unforgettable summer. While their eventual semi-final loss to Croatia came as a stinging disappointment, this is just the start for the team and their skipper, one of our most exciting players for a generation and a truly world-class English star. In this in-depth biography, bestselling sports writer Frank Worrall traces Kane's journey from an ordinary childhood in north London, growing up just a few miles from White Hart Lane, to the most remarkable tournament of his career.***

In 1990, the Malaysian state of Johor—along with Singapore and the Indonesian island of Batam—launched the Growth Triangle to attract foreign direct investment. For Johor, this drive was very successful, transforming its economy and driving up income levels. Today, Johor is one of Malaysia ' s “ developed ” states, housing large clusters of electrical and electronics, food processing, and furniture producing firms. While welcome, this structural transformation has also entailed important challenges and strategic choices. After three decades, Johor ' s manufacture-for-export model is under question, as it faces increasing competition and flat-lining technological capabilities. In

response, the state has sought to diversify its economy through strategic investments in new, mostly service-based activities. Yet, Johor retains pockets of excellence in traditional sectors that also require support and policy attention. The state ' s economic transformation has also been accompanied by far-reaching political, social, and environmental change. Not least, Johor ' s growing population has generated demand for affordable housing and put pressure on public services. The strain has been exacerbated by workers from other states and overseas. These demographic factors and large-scale projects have, in turn, put stress on the environment. These economic and social changes have also had political ramifications. While Johor is a bastion of two of the country ' s oldest and most established political parties, the state ' s large, urban and connected electorate has made it hospitable terrain for new political organisations. Beyond electoral politics, Johor is also the home of a powerful and influential royal family, with very specific ideas about its role in the state ' s political life. Building on earlier work by the ISEAS – Yusof Ishak Institute on the Singapore-Johor-Riau Islands Cross-border Region, this book focuses on this important Malaysian state, as it deals with important domestic challenges on one hand and strives to engage with international markets on the other. “ I have always felt that there are many more complementarities possible between Singapore and Johor. This would be to the benefit of both economies, but the political division between the two was just too great. The two economies lived adjacent but separate lives—Singapore looking out to the world and Johor looking north—until initiatives such as the Iskandar Malaysia development corridor began to change things significantly. The concern now is that the pendulum may have swung too much the other way, driven by the huge income and

price differentials as well as Singapore ' s global city status. Francis and Serina ' s compilation is a welcomed attempt at understanding Johor in a much more comprehensive manner; not just its changing economy but how its politics and society have been impacted by these changes — which is a more endogenized view of economic integration. ” — Dr Nungsari Ahmad Radhi, former MP Balik Palau and Executive Director, Khazanah Nasional “ Drawing on the expertise of internationally known specialists, this insightful collection explores the multiple ways in which Johor ' s economic development has influenced the contemporary political scene, and the effects on local society and the environment. Skillfully edited and meticulously researched, Johor: Abode of Development? is not merely required reading for anyone interested in contemporary Malaysia, but will be of immense value to historians of the future. ” —Barbara Watson Andaya, Professor of Asian Studies, University of Hawai ' i

During his fifty-year career, ninety-nine percent of Charles Schulz's creative energies went into the daily *Peanuts* comic strip. But once in a while he would create a special something else on the side, and this adorable little package collects two of his best "extras" from the 1960s: two Christmas-themed stories written and drawn for national magazines. Created in 1963 (two years before the *Charlie Brown Christmas* TV special) as a supplement for *Good Housekeeping* magazine, "*Charlie Brown's Christmas Stocking*" comprises 15 original captioned vignettes featuring the entire *Peanuts* cast of the time ? Charlie Brown, Snoopy, Lucy, Linus, Schroeder, Frieda, Violet, Sherm, and Sally ? each with a joke or reflection about the season. "*The Christmas Story*" is an original tale created for *Woman's Day* in 1968, this one focusing just on Snoopy and the Van Pelt siblings, with Lucy and Linus each explaining the meaning of the holiday to Snoopy. "I'm going to have to be careful," Snoopy reflects at the end of the story, resting on his doghouse next to his bone-decorated tree; "all this
