Set in the Blue Ridge Mountains, *A Dog's Way Home* is an unforgettable tale of the many miles, months, and mountains that divide two loyal friends—but that can't possibly keep them apart. Abby knows that Tam, her Shetland sheepdog, is her north star, and she's pretty certain she's his, too. But when an accident separates Abby and Tam, it feels as though all the stars have fallen out of the sky and nothing will ever be right again. As the days between them turn to weeks, then months, dangers and changes fill up Abby's and Tam's lives. Will they ever find their way home to each other? Daddy says, "Most folks got a north star in their life—something that gives their life extra meaning. Mine is music." Without even thinking, I say, "Mine is Tam."

Written by the pioneering scientist, theorist and activist J.
D. Bernal, this futuristic essay explores the radical changes
to human bodies and intelligence that science may bring
about, and suggests the impact of these developments on
society. Bernal presents a far-reaching vision of the future
that encompasses space research and colonization,
material sciences, genetic engineering, and the
technological hive mind. In his view, it will be possible for
the conditions of civilization to reach a state of materialist
utopia. For all three realms—the world, the flesh, and the
devil—Bernal attempted to map out the utmost limit of
technoscientific progress, and found that there are almost
no limits. With a new introduction by McKenzie Wark.

history, The Dog Master tells the story of one tribe's struggle for survival and one extraordinary man's bond with a wolf—a friendship that changed mankind forever. Thirty thousand years ago, ice was storming the planet. Among the species forced out of the trees and onto the steppes by the advancing cold was modern man, who was both predator and prey. No stranger to the experiences that make us human—a mother's love and a father's betrayal, tribal war and increasing famine, political intrigue and forbidden love, joy and hope and devastating loss—our ancestors competed for scant resources in a brutal landscape. Mankind stood on the cold brink of extinction...but they had a unique advantage over other species, a new technology—domesticated wolves. Only a set of extraordinary circumstances could have transformed one of these fierce creatures into a hunting companion, a bodyguard, a soldier, and a friend. The Dog Master by W. Bruce Cameron is an evocative glimpse of prehistory, an emotional coming of age saga, a thrilling tale of survival against all odds, and the exciting, imaginative story of the first dog.

The Dragon Behind the Glass

Sometimes, only a dog's love can heal a family. A Dog's Promise is the heart-warming and uplifting story about a dog who helps a family that are on the verge of breaking apart. From W. Bruce Cameron the international number one bestselling author of A Dog's Purpose, this novel is perfect of fans of Garth Stein's Art of Racing in the Rain. Bailey knows one thing for sure: all dogs who offer unconditional love, just like him, are destined for heaven. But before Bailey can rest in peace, there's one family in particular that needs his help. A family that is on the verge of breaking apart. Bailey knows that helping this family means he won't remember his previous lives, and the other families that he's met and loved, but sometimes making the sacrifice to help those in need is its own reward. Deeply emotional and beautifully told, A Dog's Promise will speak to dog lovers all over the world who know that their pets are sent to them for a reason and that their love can heal all wounds.
