

Beyond Broadhall (The '86 Fix Book 2)

Chronicles Egyptian civilization from the Predynastic Period to the end of Roman rule, arranged thematically in chapters such as "Religion of the Living," "Architecture and Building," and "Everyday Life."

Life after his deployment with Army Special Forces was rough for Alex. His ex-wife thought he needed to stop disappointing their daughter, and she was right. He would try harder. With six hours before his little girl's fourth birthday party, he observed that the wall he'd been obsessing over in his basement was too short. Plenty of time to tear out a panel and look behind it. He found a brick wall. Behind that was another just like the first, and he still had time. When the second wall came down, Alex stood and stared at the shining doorway. Next to it, held up by a knife, was a note with a warning which he didn't heed. He is transported to a future unlike anything we've imagined, and Alex's fight to get back home becomes an epic struggle.

The follow-up to the bestselling supernatural adventure, Who Sent Clement? His son, William, now lives an uneventful life in his father's shadow. A middle-aged bachelor, all he has to worry about is his seemingly pointless job as a backbench Westminster politician, and his lonely existence -- or, so he thought.One evening, William has a chance encounter which sets off an escalating series of sinister events, culminating in a damning revelation about his father's past. That revelation drags William into the darkest of blackmail plots.With his blackmailer having cunningly closed every exit, William is trapped, and faces personal and financial ruin. That is until an odd job man working at his local bar steps forward and offers help. With no alternative, William is forced to join his peculiar saviour on a desperate mission to stop his blackmailer, and unearth the shattering truth about the wrong'un."A twisty, page-turning plot laced with humour and skilful characterisation. Incredibly, at the end of the book I actually shed real tears for the protagonist...a politician! For that feat alone, I cannot praise the author enough." "What the author excels at is writing stories that put unexceptional people into fantasy situations, with enough realism to make you not only suspend disbelief, but also really care about the outcome of the protagonist."

Hero Tales From History

Monsieur Motte

..."And there will be a corner of some foreign field that will be forever England." Only these days it's more likely to be a half finished villa overlooking a championship golf course somewhere on one of The Costas. Following an unfortunate encounter with Spanish gin measures and an enthusiastic estate agent, retired special effects engineer Terry England is the proud owner of a nearly completed villa in a new urbanisation in Southern Spain. Not quite how he'd intended to spend his enforced early retirement Terry nevertheless tries to make the best of his new life. If only the local council can work out which house he's actually bought and the leaf blowers would please stop. Terry finds himself being sucked in to the English Expat community with their endless garden parties and quests for real bacon and Tetley's Tea Bags. Of course, if it all gets too much he can always relax in the local English Bar with a nice pint of Guinness, a roast beef lunch and the Mail on Sunday. With a growing feeling that he might have moved to the 'Wrong Spain', Terry sets out to explore and finds himself tangled in the affairs of a small rustic village in the Alpujarras. It is here where he finds a different Spain. A Spain of loves and passions, a Spain of new hopes and a simpler way of life. A place where a moped is an acceptable means of family transport and a place where if you let your guard down for just a moment this land will never let you go again. Forever England is the tale of one man trying to redefine who he is and how he wants to live. It is a story of hope and humour with an array of eccentric characters and comic situations for which David Luddington is so well known and loved.

During a brief seventeen-year reign (ca. 1353-1336 B.C.) the pharaoh Amenhotep IV/Akhenaten, founder of the world's first known monotheistic religion, devoted his life and the resources of his kingdom to the worship of the Aten (a deity symbolized by the sun disk) and thus profoundly affected history and the history of art. The move to a new capital, Akhenaten/Amarna, brought essential changes in the depictions of royal women. It was in their female imagery, above all, that the artists of Amarna departed from the traditional iconic representations to emphasize the individual, the natural, in a way unprecedented in Egyptian art. A picture of exceptional intimacy emerges from the sculptures and reliefs of the Amarna Period. Akhenaten, his wife Nefertiti, and their six daughters are seen in emotional interdependence even as they participate in cult rituals. The female principle is emphasized in astonishing images: the aging Queen Mother Tiye, and Nefertiti, whose painted limestone bust in Berlin is the best-known work from ancient Egypt - perhaps from all antiquity. The workshop of the sculptor Thutmose - one of the few artists of the period whose name is known to us - revealed a treasure trove when it was excavated in 1912. An entire creative process is traced through an examination of the work of Thutmose and his assistants, who lived in a highly structured environment. All was left behind when Amarna was abandoned after the death of Akhenaten and the return to religious orthodoxy.

Charlie and Josh's interests were the same as most other teenagers: drinking, parties and girls. That was until the day they discovered the Time Bubble. It starts at a bit of fun, jumping a few seconds into the future. Soon things take a more serious turn as the leaps in time increase in duration. When a teenage girl goes missing, and the police become involved, suspicion falls on Charlie. How can he explain where she is? Will anyone believe him? As the long term dangers of the Bubble become clear, one man comes up with a solution - one that could hold the key to his own salvation. Set in a small market town in Southern England in the early 21st century, this light-hearted time travel novel has plenty to delight readers of all ages. This novel is the first part of a trilogy. Global Cooling, the second in the series, is now available.

Imagine if you could travel back in time and relive one weekend as your sixteen year-old self - would you change anything? Everything wrong with Craig Pelling's life can be traced back to 1986 and the moment he popped in to a newsagent for a can of Coke. Now in his mid-forties, all he has to look back on is twenty-five years of marriage to a woman he doesn't love and an unfulfilled career selling electrical goods. He could have been so much more, achieved so much more. But as bitter as Craig feels about his mundane existence, fate hasn't finished with him yet. A series of unfortunate events pushes the hapless Craig to breaking point as his life crumbles around him. All looks lost until he's thrown a lifeline - the miraculous lifeline of a brief trip back to 1986, to relive one weekend as his sixteen year-old self. Will he be able to change his future for the better? Is it as simple as just reverting one decision he made over thirty years ago? Craig is about to find out.

Maximilian Tundra is about to have an existential crisis of cosmic proportions. When a physical duplicate of him appears in his living room, wearing a tight-fitting silver lamé unitard and speaking with an English accent, Max knows something bad is about to happen. Bad doesn't cover it. Max discovers he's the only human being who can prevent the end of the world, and not just on his planet! In the multiverse, infinite Earths will be destroyed. Here, adequately presented for the first time in English, is the fascinating story of a splendid culture that flourished thirty-five hundred years ago in the empire on the Nile: kings and conquests, gods and heroes, beautiful art, sculpture, poetry, architecture. Significant archeological discoveries are constantly being made in Egypt. In this revision Professor Steele has rewritten whole chapters on the basis of these new finds and offers several new conclusions to age-old problems.

The Pyramid Texts are the oldest body of extant literature from ancient Egypt. First carved on the walls of the burial chambers in the pyramids of kings and queens of the Old Kingdom, they provide the earliest comprehensive view of the way in which the ancient Egyptians understood the structure of the universe, the role of the gods, and the fate of human beings after death. Their importance lies in their antiquity and in their endurance throughout the entire intellectual history of ancient Egypt. This volume contains the complete translation of the Pyramid Texts, including new texts recently discovered and published. It incorporates full restorations and readings indicated by post-Old Kingdom copies of the texts and is the first translation that presents the texts in the order in which they were meant to be read in each of the original sources.
