*What do medieval Icelanders mean when they say *ǫtrolli*? What did they see when they saw a troll? What did the troll signify to them? And why did they see them? The principal subject of this book is the Norse idea of the troll, which the author uses to engage with the larger topic of paranormal experiences in the medieval North. The texts under study are from 13th-, 14th-, and 15th-century Iceland. The focus of the book is on the ways in which paranormal experiences are related and defined in these texts and how those definitions have framed and continue to frame scholarly interpretations of the paranormal. The book is partitioned into numerous brief chapters, each with its own theme. In each case the author is not least concerned with how the paranormal functions within medieval society and in the minds of the individuals who encounter and experience it and go on to narrate these experiences through intermediaries. The author connects the paranormal encounter closely with fears and these fears are intertwined with various aspects of the human experience including gender, family ties, and death. The Troll Inside You hovers over the boundaries of scholarship and literature. Its aim is to prick and provoke but above all to challenge its audience to reconsider*

some of their preconceived ideas about the medieval past.

Imprisoned and subjected to brutal genetic experiments, space marine Adam has been changed into a perfect predator. A super soldier that is part man, part tiger, and all killing machine. When his latest mission has an unexpected outcome, Adam finds himself free of his explosive control collar and honor bound to protect a mysterious woman. Now he is on an alien planet, and they are both being hunted by the most powerful mega corporation in the solar system. Their only escape lies at the helm of an experimental starship hidden beyond countless layers of military security. All Adam has is his military training, sense of honor, and a beautiful woman who needs to drink blood to live. It is time to let the tiger out.

Adam, Eve, and Z have narrowly escaped the clutches of Elaka Nota Corporation and exited hyperspace around the orbit of Queen's Hat Station- where they intend to re-stock and repair Persephone. Instead, our heroes find themselves in the middle of an undercover police operation, gang war, and terrorist plot that threatens the two million innocent citizens of the immense space station. The clock is ticking, and failure means that Adam will lose the person that he owes his life to: Eve.

Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the

founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

TikTok must-read fantasy novel of the year. If you loved Ninth House and A Deadly Education, you'll love this. Originally a self-published sensation, this edition has been fully edited and revised, including gorgeous new illustrations. Secrets. Betrayal. Seduction. Welcome to the Alexandrian Society. When the world's best magicians are offered an extraordinary opportunity, saying yes is easy. Each could join the secretive Alexandrian Society, whose custodians guard lost knowledge from ancient civilizations. Their members enjoy a lifetime of power and prestige. Yet each decade, only six practitioners are invited – to fill five places. Contenders Libby Rhodes and Nico de Varona are inseparable enemies, cosmologists who can control matter with their minds. Parisa Kamali is a telepath, who sees the mind's deepest secrets. Reina Mori is a naturalist who can perceive and understand the flow of life itself. And Callum Nova is an empath, who can manipulate the desires of others. Finally there's Tristan Caine, whose powers mystify even himself. Following recruitment by the mysterious Atlas Blakely, they travel to the Society's London headquarters. Here, each must study and innovate within esoteric subject areas. And if they can prove themselves, over the course of a year, they'll survive. Most of them. Adam, Eve, and Z have successfully escaped the grasp of the Elaka Nota Corporation. Their plan was simple: arrive at the trading

This open access book chronicles the rise of a new scientific paradigm offering novel insights into the age-old enigmas of existence. Over 300 years ago, the human mind discovered the machine code of reality: mathematics. By utilizing abstract thought systems, humans began to decode the workings of the cosmos. From this understanding, the current scientific paradigm emerged, ultimately discovering the gift of technology. Today, however, our island of knowledge is surrounded by ever longer shores of ignorance. Science appears to have hit a dead end when confronted with the nature of reality and consciousness. In this fascinating and accessible volume, James Glattfelder explores a radical paradigm shift uncovering the ontology of reality. It is found to be information-theoretic and participatory, yielding a computational and programmable universe. Adam has one mission: Hunt down the Magate Order and recover his kidnapped crew before they are lost forever. Unfortunately, his life has been bound to the Prime Valkyrie, and if Adam doesn't submit to her powerful father, he'll be executed. But the genetically engineered Marine submits to no man, and the king of the Vaish Overlord Clan is about to find out what happens when you try and kill a tiger. Or keep him from his women.

Adam's quest to destroy the SAVO is in its final phase. He has his unstoppable Space Viking navy, his Tiger powers, and his band of beautiful and deadly women. He's just missing one thing: A fleet that can take him and his fighting force 90,000 light-years away to the other side of the Milky Way. Fortunately, Adam knows where to

The Resonance of Unseen Things offers an ethnographic meditation on the "uncanny" persistence and cultural freight of conspiracy theory. The project is a reading of conspiracy theory as an index of a certain strain of late 20th-century American despondency and malaise, especially as understood by people experiencing downward social mobility. Written by a cultural anthropologist with a literary background, this deeply interdisciplinary book focuses on the enduring American preoccupation with

captivity in a rapidly transforming world. Captivity is a trope that appears in both ordinary and fantastic iterations here, and Susan Lepselter shows how multiple troubled histories—of race, class, gender, and power—become compressed into stories of uncanny memory. “We really don’t have anything like this in terms of a focused, sympathetic, open-minded ethnographic study of UFO experiencers. . . . The author’s semiotic approach to the paranormal is immensely productive, positive, and, above all, resonant with what actually happens in history.”

—Jeffrey J. Kripal, J. Newton Rayzor

Professor of Religion, Rice University

“Lepselter relates a weave of intimate alien sensibilities in out-off-the-way places which are surprisingly, profoundly, close to home. Readers can expect to share her experience of contact with complex logics of feeling, and to do so in a contemporary America they may have thought they understood.” —Debbora Battaglia, Mount Holyoke College “An original and beautifully written study of contemporary American cultural poetics. . . . The book convincingly brings into relief the anxieties of those at the margins of American economic and civic life, their perceptions of state power, and the

narrative continuities that bond them to histories of violence and expansion in the American West.” —Deirdre de la Cruz, University of Michigan

Sentiment analysis is a branch of natural language processing concerned with the study of the intensity of the emotions expressed in a piece of text. The automated analysis of the multitude of messages delivered through social media is one of the hottest research fields, both in academy and in industry, due to its extremely high potential applicability in many different domains. This Special Issue describes both technological contributions to the field, mostly based on deep learning techniques, and specific applications in areas like health insurance, gender classification, recommender systems, and cyber aggression detection.

Icons of Horror and the Supernatural

Paranormal and supernatural events have been reported for millennia. They have fostered history's most important cultural transformations (e.g., via the miracles of Moses, Jesus, Mohammed). Paranormal phenomena are frequently portrayed in the world's greatest art and literature, as well as in popular TV shows and movies. Most adults in the U.S. believe in them. Yet they have a marginal place in modern culture. No university departments are devoted to studying psychic phenomena. In fact, a panoply of scientists now aggressively denounces them. These facts present a deeply puzzling situation. But they become coherent after pondering the trickster figure, an archaic being found worldwide in mythology and folklore. The trickster governs paradox and the irrational, but his messages are concealed. This book draws upon theories of the trickster from anthropology, folklore, sociology, semiotics, and literary criticism. It examines psychic phenomena and UFOs and explains why they are so problematical for science.

spaceliner is yanked out of hyperspace and plummets into the nearest planet. Lilac LaRoux and Tarver Merendsen survive. And they seem to be alone. Lilac is the daughter of the richest man in the universe. Tarver comes from nothing, a young war hero who learned long ago that girls like Lilac are more trouble than they're worth. But with only each other to rely on, Lilac and Tarver must work together, making a tortuous journey across the eerie, deserted terrain to seek help. Then, against all odds, Lilac and Tarver find a strange blessing in the tragedy that has thrown them into each other's arms. Without the hope of a future together in their own world, they begin to wonder???)would they be better off staying here forever? Everything changes when they uncover the truth behind the chilling whispers that haunt their every step. Lilac and Tarver may find a way off this planet. But they won't be the same people who landed on it. The first in a sweeping science fiction trilogy, *These Broken Stars* is a timeless love story about hope and survival in the face of unthinkable odds. Control dinosaurs. Tame women. Rule the world. Victor and his tribe of beautiful women prepare to leave their fort and journey to their new base, but as usual with *Dinosaurland*, things never go according to plan. Now Victor must protect all of his tribe without the aid of

walls, and an old enemy gathers an army to give chase. Victor will have to use every power at his disposal to protect his women, and the journey will uncover new secrets of this strange world. Everything happens for a reason. At least that's what everyone keeps telling Liam Cooper after his older brother Ethan is killed suddenly in a hit-and-run. Feeling more alone and isolated than ever, Liam has to not only learn to face the world without one of the people he loved the most, but also face the fading relationships of his two best friends in the process. Soon, Liam finds himself spending time with Ethan's best friend, Marcus, who might just be the only person that seems to know exactly what they're going through—for better and for worse. *The Ghosts We Keep* is an achingly honest portrayal of grief. But it is also about why we live. Why we have to keep moving on, and why we should.

A trans boy determined to prove his gender to his traditional Latinx family summons a ghost who refuses to leave in Aiden Thomas's New York Times-bestselling paranormal YA debut Cemetery Boys, described by Entertainment Weekly as "groundbreaking." Yadriel has summoned a ghost, and now he can't get rid of him. When his traditional Latinx family has problems accepting his true gender, Yadriel becomes determined to prove himself a real brujo. With the help of his cousin and best friend Maritza, he performs the ritual himself, and then sets out to find the ghost of his murdered cousin and set it free. However, the ghost he summons is actually Julian Diaz, the school's resident bad boy, and Julian is not about to go quietly into death. He's determined to find out what happened and tie off some loose ends before he leaves. Left with no choice, Yadriel agrees to help Julian, so that they can both get what they want. But the longer Yadriel spends with Julian, the less he wants to let him leave. Praise for Cemetery Boys: Longlisted for the National Book Award "The

The crew of Persephone only has 300 days to find help for the planet of Uraniel. They return to Queen's Hat Station with hopes of recruiting more people for their ship, or finding any leads about the super-powered aliens threatening the galaxy. But Elaka Nota is waiting for them on Queen's Hat, and the conflict sets the crew of Persephone on a path that will change their friendship forever.

Examines the repeated association of new electronic media with spiritual phenomena from the telegraph in the late 19th century to television.

Following the hint given by Persephone, the crew arrives at planet Y-114-a. What they find throws them into an impossible struggle against an army of deadly robots, a corrupt corporation wishing to enslave the planet, and an evil that is more ancient than the galaxy. And this time, they might not all make it out alive.
