Among the dramatists who wrote for the professional playhouses of early modern London was a small group of writers who were neither members of the commercial theater industry writing to make a living nor aristocratic amateurs dipping their toes in theatrical waters for social or political prestige. Instead, they were largely working- and middle-class amateurs who had learned most of what they knew about drama from being members of the audience. Using a range of familiar and lesser-known print and manuscript plays, as well as literary accounts and documentary evidence, *Playwriting Playgoers in Shakespeare's Theater* shows how these playgoers wrote and revised to address what they assumed to be the needs of actors, readers, and the Master of the Revels; how they understood playhouse materials and practices; and how they crafted poetry for theatrical effects. The book also situates them in the context of the period's concepts of, and attitudes toward, playgoers' participation in the activity of playmaking. Plays by playgoers such as the rogue East India Company clerk Walter Mountfort or the highwayman John Clavell invite us into the creative imaginations of spectators, revealing what certain audience members wanted to see and how they thought actors might stage it. By reading Shakespeare's theater through these playgoers' works, Matteo Pangallo contributes a new category of evidence to our understanding of the relationships between the early modern stage, its plays, and its audiences. More broadly, he shows how the rise of England's first commercialized culture industry also gave rise to the first generation of participatory consumers and their attempts to engage with mainstream culture by writing early modern "fan fiction."

3 February 2006 *Plays and Playwrights 2006*, the 7th volume in our annual series of anthologies, is due for release February 2006. This new collection will introduce you to some of the season's best new plays: works by emerging playwrights that challenge the status quos of American life, that push the boundaries and definitions of traditional theatrical form, that explore and reflect the world in which we live. These plays, originally produced at venues such as Dixon Place, La MaMa, the American Living Room, Ice Factory, and the New York International Fringe Festival, are the work of more than a dozen fine young American writers. In *Plays and Playwrights 2006* you'll find: two comedies that consider the very serious (and oft neglected) subject of the place of art in society, two timely dramas that look at the human toll of war, two surprising and inventive pieces that give voice to members of the Great American Melting Pot, a pair of works that offer widely contrasting views of family values and personal relationships circa 2005, two compact one-acts that demonstrate conclusively the power of the ten-minute play, and two pieces that confront the alienation and dehumanization that afflict our high-tech society. (See enclosed for more details.) *Plays and Playwrights 2006* will also include, for the first time a NEW FEATURE as an appendix. This section is a directory of new American plays produced in New York City which will provide a detailed view of the vitality and diversity of American dramatic literature. This should prove an invaluable resource to all those interested in current drama; indispensable to academics, producing organizations, theatre goers, and historians.

In the field of seventeenth-century English drama, women participated not only as spectators or readers, but more and more as patronesses, as playwrights, and later on as actresses and even as managers. This study examines English women writers' tragedies and tragicomedies in the seventeenth century, specifically between 1613 and 1713, which represent the publication dates of the first original tragedy (Elizabeth Cary's *The Tragedy of Mariam*) and the last one (Anne Finch's *Aristomenes*) written by a Stuart woman playwright. Through this one-hundred year period, major changes in dramatic form and ideology are traced in women's tragedies and tragicomedies. In examining the whole of the century from a gender perspective, this project breaks away from conventional approaches to the subject, which tend to establish an unbridgeable gap between the early Stuart period and the Restoration. All in all, this study represents a major overhaul of current theories of the evolution of English drama as well as offering an unprecedented reconstruction of the genealogy of seventeenth-century English women playwrights.

With a few notable exceptions, gay artists of earlier generations felt compelled to avoid sexual candor in their writings. Conversely, most contemporary gay poets and playwrights are free from such constraints and have created a remarkable body of work. This reference is a guide to their creative achievements. Alphabetically arranged entries present 62 contemporary gay American poets and dramatists. A number of these writers are well known, including Edward Albee, Harvey Fierstein, and Allen Ginsberg. Others, such as Alan Bowne, Timothy Liu, and Robert O'Hara, merit wider recognition. Each entry is written by an expert contributor and includes a biography, a discussion of major works and themes, an overview of the author's critical reception, and primary and secondary bibliographies.

A leading writer on American theatre explores the works and influences of ten contemporary American playwrights.

In the first century of the coveted Pulitzer Prizes, only 11 women have won the prize for drama: Zona Gale (1921), Susan Glaspell (1931), Zoe Akins (1935), Mary Coyle Chase (1945), Ketti Frings (1958), Beth Henley (1981), Marsha Norma (1983), Wendy Wasserstein (1989), Paula Vogel (1998), Margaret Edson (1999), and Suzan-Lori Parks (2002). This book is about them and their landmark plays, beginning with Gale's Miss Lulu Bett, which championed the unmarried woman forced to work in the home of a married relative, and closing with Parks' controversial Topdog/Underdog, which made her the first black woman to win the prize.

Drawn from personal interviews with the playwrights and research from archives and unpublished material, this work shows how the stage art of women has reflected life in the American family and traces a strong thread of feminist history in our culture. Overview chapters set the stage for each playwright and play with sketches of the time period, highlighting the major points of women's experiences in culture, society and the family. Other chapters analyze each play in detail and discuss the playwright's life and opinions. The book also includes a quick history of the Pulitzer Prize and a chapter honoring black female playwrights.

Hannah Cowley (1743-1809) was a very successful dramatist, and something of an eighteenth-century celebrity. New critical interest in the drama of this period has meant a resurgence of interest in Cowley's writing and in the performance of her plays. This is the first substantial monograph study to examine Cowley's life and work.
