In Socialism of Fools, Michele Battini focuses on the critical moment during the Enlightenment in which anti-Jewish stereotypes morphed into a sophisticated, modern social anti-Semitism. He recovers the potent anti-Jewish, anticapitalist propaganda that cemented the idea of a Jewish conspiracy in the European mind and connects it to the atrocities that characterized the Jewish experience in the nineteenth and twentieth centuries. Beginning in the eighteenth century, counter-Enlightenment intellectuals and intransigent Catholic writers singled out Jews for conspiring to exploit self-sustaining markets and the liberal state. These ideas spread among socialist and labor movements in the nineteenth century and intensified during the Long Depression of the 1870s. Anti-Jewish anticapitalism then migrated to the Habsburg Empire with the Christian Social Party; to Germany with the Anti-Semitic Leagues; to France with the nationalist movements; and to Italy, where Revolutionary Syndicalists made anti-Jewish anticapitalism the basis of an alliance with the nationalists. Exemplified best in the Protocols of the Elders of Zion, the infamous document that "leaked" Jewish plans to conquer the world, the Jewish-conspiracy myth inverts reality and creates a perverse relationship to historical and judicial truth. Isolating the intellectual roots of this phenomenon and its contemporary resonances, Battini shows us why, so many decades after the Holocaust, Jewish people continue to be a powerful political target.

"Imagine if Jane Austen got angry & you'll have some idea of how explosive these works are" (John Freeman). Since the publication of My Brilliant Friend, Elena Ferrante has gained admirers among authors—Jhumpa Lahiri, Elizabeth Strout, Claire Messud, to name a few—and criti— James Wood, John Freeman, Eugenia Williamson, for example. But her most resounding success has been with readers, who have discovered in Ferrante a writer who speaks with great power and beauty of the mysteries of belonging, love, family, and friendship. In this third Neapolitan novel, Elena and Lila have become women. Both have attempted pushing against the walls of a prison that would have seen them living a life of misery, ignorance and submission. They are afloat on the great sea of opportunities that opened up during the nineteen-seventies. Yet they are still very much bound to each other by a strong, unbreakable bond.

A sweeping historical novel about the struggle of one woman and one village against war, racism and ecological devastation. Curòn, 1920 In a small village in South Tyrol, Trina longs for a different life. She dedicates herself to becoming a teacher, but the year that she qualifies Mussolini's regime abolishes the use of German as a teaching language. In this new climate of fear and uncertainty Trina works for a clandestine network of schools in the valley, always with the risk of capture. Curòn, 1939 Now married and a mother Trina's life is again thrown into uncertainty when Germany announces the 'Great choice' and communities in South Tyrol are given the opportunity to move to Germany. The town splits and ever-increasing rifts form among its people. Those, like Trina and her family, who choose not to leave are seen as traitors and spies; they can no longer leave the house without suffering abuse. Then one day Trina comes home and finds that her daughter is missing...

Witchcraft and magic are topics of enduring interest for many reasons. The main one lies in their extraordinary interdisciplinarity: anthropologists, folklorists, historians, and more have contributed to build a body of work of extreme variety and consistence. Of course, this also means that the subjects themselves are not easy to assess. In a very general way, we can define witchcraft as a supernatural means to cause harm, death, or misfortune, while magic also belongs to the field of supernatural, or at least esoteric knowledge, but can be used to less dangerous effects (e.g., divination and astrology). In Western civilization, h perspective in which diabolical witchcraft, the invention of the Sabbat, the persecution of many thousands of (mostly) female and (sometimes) male presumed witches gave way to a phenomenon that is fundamentally different from traditional witchcraft. This Special Issue of Religions dedicated to Witchcraft, Demonology, and Magic features nine articles that deal with four different regions of Europe (England, Germany, Hungary, and Italy) between Late Medieval and Modern times in different contexts and social milieus. Far from pretending to offer a complete picture, they focus on some topics that are central to the researc "cumulative concept of Western witchcraft" that rules out all mono-causality theories, investigating a plurality of causes.
