*Growl*He'd never had something to himself, never even dared to dream about owning something so precious. He was the unwanted bastard son who'd always had to content himself with the leftovers of others. And now they'd given him what only a few weeks ago had been out of his reach, someone he wasn't even allowed to admire from afar, one of their most prized possessions. Thrown at his feet because he was who he was, because they were certain he would break her. He was her punishment, a fate worse than death, a way to deliver the ultimate punishment to her father who had displeased them so greatly. *Cara*She had always been the good girl. It didn't protect her. She didn't know his real name. People called him *Growl* to his face, and the *Bastard* behind his back. Both were names he couldn't possibly have chosen for himself. His eyes were empty, a mirror to throw back her own fear at her. He was a brutal hand of the Las Vegas Camorra. And now she was at his mercy.

Born into one of the leading Mob families in Chicago, *Aria Scuderi* struggles to find her own path in a world where no choices are given. *Aria* was only fifteen when her parents betrothed her to *Luca - The Vice - Vitiello*, the oldest son of the head of the New York Cosa Nostra to ensure peace between the two families. Now with eighteen, the day *Aria* has been dreading for years is looming dangerously: her wedding to *Luca*. *Aria* is terrified of marrying a man she hardly knows, especially someone like *Luca* who got his nickname 'the Vice' for crushing a man's throat with his bare hands. *Luca* might be one of the most sought after men in New York thanks to his good looks, wealth and predator-like charisma that radiates power, but the society girls throwing themselves at him don't know what *Aria* does: that the bad boy aura isn't just a game; blood and death lurk beneath *Luca's* striking gray eyes and arrogant smile. In her world a handsome exterior often hides the monster within; a monster who can just as easily kill as kiss you. The only way to escape the marriage to *Luca* would be to run away and leave everything she's ever known behind but *Aria* can't bear the thought of never seeing her family again. Despite her fear, she decides to go through with the marriage; *Aria* has grown up among predators like *Luca* and knows that even most cold-hearted bastards have a heart and she has every intention of working her way into *Luca's*.!Mature content!

I was raised to become Capo, to rule without mercy, to dish out brutality without a second thought. Raised to break others. Bound By Blood

In a divided world, empathy is not the solution, it is the problem. We think of empathy - the ability to feel the suffering of others for ourselves - as the ultimate source of all good behaviour. But while it inspires care and protection in personal relationships, it has the opposite effect in the wider world. As the latest research in psychology and neuroscience shows, we feel empathy most for

those we find attractive and who seem similar to us and not at all for those who are different, distant or anonymous. Empathy therefore biases us in favour of individuals we know while numbing us to the plight of thousands. Guiding us expertly through the experiments, case studies and arguments on all sides, Paul Bloom ultimately shows that some of our worst decisions - in charity, child-raising, criminal justice, climate change and war - are motivated by this wolf in sheep's clothing. Brilliantly argued, urgent and humane, *Against Empathy* overturns widely held assumptions to reveal one of the most profound yet overlooked sources of human conflict.

John Podlaski's encore Vietnam War novel brings back John (' Polack ') Kowalski, the central character in ' Cherries ' , and introduces us to Louis (' LG ') Gladwell, his irrepressible black friend. Polack and LG are a ' Salt and Pepper ' team, best buddies and brothers in a way that only those who have fought side-by-side in a war can ever truly understand. The year is 1970, and the story follows the two soldiers - impressionable Detroit teenagers - during their long night in a Listening Post (' LP '), some 500 meters beyond the bunker line of the new firebase. Their assignment as a "human early warning system", is to listen for enemy activity and forewarn the base of any potential dangers. As they were new to the "Iron Triangle" and its reputation, little did they know that units before them lost dozens of soldiers in this nightly high-risk task and referred to those assigned as "bait for the enemy" and "sacrificial lambs". Sitting in the pitch black tropical jungle - with visibility at less than two feet - John's imagination takes hold throughout the agonizing night, and at times, transports him back to some of his most vivid childhood memories - innocent, but equally terrifying at the time. As kids, we instinctively run as fast as we can to escape imaginary or perceived danger, but as soldiers, men are trained to conquer their fears and develop the confidence to stand their ground and fight. Running is not an option. In 'When Can I Stop Running?' the author juxtaposes his nightmarish hours in the bush with some of his most heart-pounding childhood escapades. Readers will relate to the humorous childish antics with amusement; military veterans will find themselves relating to both of the entertaining and compelling recollections.

The Merchant of Venice has been performed more often than any other comedy by Shakespeare. Molly Mahood pays special attention to the expectations of the play's first audience, and to our modern experience of seeing and hearing the play. In a substantial new addition to the Introduction, Charles Edelman focuses on the play's sexual politics and recent scholarship devoted to the position of Jews in Shakespeare's time. He surveys the international scope and diversity of theatrical interpretations of The Merchant in the 1980s and 1990s and their different ways of tackling the troubling figure of Shylock.

The Strange Case of Dr. Jekyll and Mr. Hyde is about a London lawyer named Gabriel John Utterson who investigates strange occurrences between his old friend, Dr. Henry Jekyll, and the evil Edward Hyde. There are two personalities within Dr. Jekyll, one apparently good and the other evil; completely opposite levels of morality. The novel's impact is such that it has become a part of the language, with the very phrase "Jekyll and Hyde" coming to mean a person who is vastly different in moral character from one situation to the next. 'The Strange Case of Dr. Jekyll and Mr. Hyde' is a thrilling Gothic horror novel. John Utterson, a prosecutor, is on his weekly walk with his relative, who proceeds to tell him of an encounter with a man he had seen some months ago while coming home late at night from Cavendish Place. The tale describes a sinister figure named Edward Hyde who tramples a young girl, disappears into a door on the street, and re-emerges to pay off her relatives with 10 pounds in gold and a cheque signed by respectable gentleman Dr. Henry Jekyll (a client and friend of Utterson's) for 90 pounds. Jekyll had recently and suddenly changed his will to make Hyde the sole beneficiary. This development concerns and disturbs Utterson, who makes an effort to seek out Hyde. Utterson fears that Hyde is blackmailing Jekyll for his money. Upon finally managing to encounter Hyde, Hyde's ugliness, as if deformed, amazes Utterson. Although Utterson cannot say exactly how or why, Hyde provokes an instinctive feeling of revulsion in him. Much to Utterson's surprise, Hyde willingly offers Utterson his address. After one of Jekyll's dinner parties, Utterson stays behind to discuss the matter of Hyde with Jekyll. Utterson notices Jekyll turning pale, yet he assures Utterson that everything involving Hyde is in order and that he is to be left alone.

Fiction. "This is the story of Anselm." A woman plans to set down a faithful portrait of her ex-lover, just days after he's fled their one-room romance. But as she looks back on the crash-and-burn affair, her writing quickly reveals her own contempt for and obsession with moody, unpredictable Anselm. The 35-year-old narrator is an unpublished writer and retail clerk who spends her working hours shelving in a downtown bookstore, her days off laying low in a Brooklyn luncheonette. Anselm is a charming but hapless recent New Yorker, composer of music, and an Ivy League drop-out who hails from a disastrous Appalachian childhood. His storyline is heartbreaking, yet the fallible narrator goes in and out of sympathy for him as she vacillates between telling his story and theirs. In a voice that evokes the melancholy of Jean Rhys and the frankness of Annie Ernaux, WATCH THE DOORS AS THEY CLOSE recounts the intense affair as it disintegrates—all the while painting vivid scenes of American rural poverty and New York bohemia at the turn of the Millennium.

*'This book will shake your brain and make your soul scream. I am so ready for myself after reading this book!' Adele 'Untamed will liberate women - emotionally, spiritually, and physically. It is phenomenal.' Elizabeth Gilbert, author of City of Girls and Eat Pray Love Who were you before the world told you who to be? Part inspiration, part memoir, Untamed explores the joy and peace we discover when we stop striving to meet the expectations of the world, and instead dare to listen to and trust in the voice deep inside us. From the beloved New York Times bestselling author, speaker and activist Glennon Doyle. ***** For many years, Glennon Doyle denied her discontent. Then, while speaking at a conference, she looked at a woman across the room and fell instantly in love. Three words flooded her mind: There. She. Is. At first, Glennon assumed these words came to her from on high but soon she realised they had come to her from within. This was the voice she had buried beneath decades of numbing addictions and social conditioning. Glennon decided to let go of the world's expectations of her and reclaim her true untamed self. Soulful and uproarious, forceful and tender, Untamed is both an intimate memoir and a galvanising wake-up call. It is the story of how one woman learned that a responsible mother is not one who slowly dies for her children, but one who shows them how to fully live. It is also the story of how each of us can begin to trust ourselves enough to set boundaries, make peace with our bodies, honour our anger*

and heartbreak, and unleash our truest, wildest instincts. Untamed shows us how to be brave. And, as Glennon insists, 'The braver we are, the luckier we get.'

Bound By Hatred

For Faith. For Friendship. For Freedom. In the time of Louis XIII and Cardinal Richelieu, when being a Protestant could mean death, The Huguenot Sword roamed the streets of Paris by night, defending those faithful to the young heretical religion. The nobility scorned them as ruffians, to the oppressed Protestants they were saviors, but to the Cardinal Guards they were a pestilence needing to be terminated. The situation becomes desperate when those in power launch a bold plan to destroy the group. One wrong move can be fatal. But the ordeal of Paris pales in comparison to the possible annihilation of their faith and people at the battle of La Rochelle.

An excerpt from the actual deposition transcripts: "Let the record reflect that this deposition commenced at 9:15 am on December the 3rd, 2004 at the FBI offices in Atlanta, Georgia. Present for this recording are Special Agent Alvin Dirk, the Honorable Judge Ramiro Vasquez, and the witness, Robert O. Blain. This deposition is merely a recording of the events which transpired at Norwood University and is not now nor ever will be part of any trial or prosecution. Go ahead." "My name is Bobby Blain. Most people seem to think it all started when Dr. Jennings hired me, and all the computers started getting hacked. It was easy for people to think that, because I have a history and got myself in some trouble when I was younger. I hacked some computers and almost got the president impeached, but it really started before that, when I still worked for Dr. Karlyn." "Dr. Karlyn gave me a chance to redeem myself by allowing me to work on his computer for him. Then one day, this scientist I had never seen before comes and gives Dr. Karlyn a device. I was never told what he wanted, but I think he wanted Dr. Karlyn to help him reverse engineer it. I was only asked to build an interface to attach it to the computer. Dr. Karlyn did the rest. I think he figured out how to turn it on, but when he did, strange things started to happen." "We didn't know it then, but it turns out the device was stolen from a government facility. I don't know where they got it, that is more classified than this deposition. I can tell you with absolute certainty that they didn't make it themselves. I'd like to tell you more, but I don't think I'm allowed." "Anyway, someone at the university needed to get Dr. Karlyn out of the way and falsely accused him of inappropriate conduct with a student. He could have fought it, the dean believed him, but he decides to leave the school anyway. Before he goes, he gives his computer to Professor Jennings and he gives me a letter of recommendation, so after I help deliver and setup the computer, she agrees to hire me." "The first night it is up and running, at least two attempts are made to hack into the computer. I forgot to mention that even before I deliver the computer, this guy tries to break in and steal something from it, but I was there and he didn't get anything." "I can't divulge any secrets about Professor Jennings' project here, but my part is to prove that her process would work if she were given enough computer resources, so I re-write her process to work across a network and run on thousands of computers." "That's when things got really crazy. Someone keeps trying to hack into our computer; someone hacks the entire school and the phone company. Professor Jennings' secretary is kidnapped. The FBI gets involved, but they're chasing the wrong people for reasons only they can tell you." "Then someone plants a virus on our computer and the next thing we know, it's spread all over the internet, including some very sensitive government computers. Meanwhile, our project continues to gain speed and surpass anyone's expectations." "When the FBI come in and learn that the device that was given to Dr. Karlyn is actually some super cool futuristic computer that is able to grow and build more circuits for itself, they want to disconnect the computer and confiscate it." "That's when computers all over the world go out of control. The pentagon and all the armed forces are helpless. Air traffic is grounded. All the computer problems are traced back to the professor's computer. The FBI want it dismantled more than ever, but the academics involved want to get the device to relinquish control over the world before they do." "And, well, I guess that's all I'm allowed to say, thank you."
