

Complete Idiot's Guide To Microsoft Excel 2000 (The Complete Idiot's Guide)

The Complete Idiot's Guide® to Windows XP is not a book for nerds, geeks, or anyone else who regards a pocket protector as the height of fashion. Instead, this book is aimed squarely at people who, through no fault of their own, have ended up with Windows XP installed on their computer and they want some guidance on how to tame this new beast. This completely revised edition covers both Windows XP Home Edition and Windows XP Professional. It includes all the new Windows XP features, including the new interface, the latest versions of Internet Explorer and Outlook Express, Windows Media Player 8, the new digital media features, and more.

Covers installation, Word 97 basics, editing and text formatting, graphics, multimedia features, tables, templates, desktop publishing, and creating a Web page
For Windows users, 7 might just be their lucky number! This

Read Online Complete Idiot's Guide To Microsoft Excel 2000 (The Complete Idiot's Guide)

guide offers a smoother transition for users moving from an older version to Windows 7. Along with simple step-by-step instructions and numerous useful examples, readers will learn how to: use new tools; find applications and files instantly; navigate efficiently; use wizards and dialogue boxes better; use the improved Windows firewall; get the most out of the new Explorer; and use the many new options. ?More than 90% of new Intel-based PCs - by far the dominant type - ship with Windows pre-installed ?Many users soon must update, with Microsoft no longer supporting XP after 2009 ?Author teaches basic skills to newcomers and is widely recognized as an expert on Windows

Microsoft® Windows® 8 is designed to mesh users digital lives seamlessly—from desktop to phone to tablet—by utilizing a look and feel that give users a new Windows experience. However, with all of this change comes new features that may catch old-school Windows users off guard. In The Complete Idiot's Guide® to Microsoft® Windows® 8, veteran tech writer Paul McFedries uses his friendly style and wit to comfort experienced Windows users and newbies alike by explaining all the new features, as well as the old, and helping everyone overcome trepidation about using this completely updated look to the most popular desktop operating system in the world. Readers will learn how to use new features including tiles and the new home screen, how they can mesh their data with "the cloud," and much more. And, when all else fails, McFedries teaches users how they can easily and seamlessly toggle back to the "old" and familiar Windows look and feel, should
