

Death Masks: The Dresden Files, Book Five (The Dresden Files Series 5)

You can't keep a good wizard down - even when he wants to stay that way. For years, Harry Dresden has been Chicago's only professional wizard, but a bargain made in desperation with the Queen of Air and Darkness has forced him into a new job: professional killer. Mab, the mother of wicked faeries, has restored the mostly-dead wizard upon his first mission - to bring death to an immortal. Even as he grapples with the impossible task, Dresden learns of a looming danger to Demonreach, the living island hidden upon Lake Michigan, a place whose true purpose and dark potential have the potential to destroy billions and to land Dresden in the deepest trouble he has ever known. How messed up is that? Beseet by his new enemies and hounded by the old, Dresden has only twenty-four hours to reconnect with his old allies, prevent a cataclysm and do the impossible - all while the power he bargained to get - but never meant to keep - lays siege to his very soul. Magic. It can get a guy killed.

Professional wizard Harry Dresden finds his life spiralling out of control when the Red Court of Vampires' champion sets out to kill him, professional hit men use him for target practice, the Shroud of Turin goes missing, he becomes involved in a murder investigation, and his ex-girlfriend returns.

A modern-day mage and consultant to the police finds his stale life suddenly enlivened by the presence of a rival in the black arts.

Meet Harry Dresden, Chicago's first (and only) Wizard P.I. Turns out the 'everyday' world is full of strange and magical things - and most of them don't play well with humans. That's where Harry comes in. Harry Dresden should be happy that business is good - makes a change. But now he's getting more than he bargained for: a duel with the Red Court of Vampires' champion, who must kill Harry to end the war between vampires and wizards; professional hit men using Harry for target practice; the missing Shroud of Turin (less missing than expected) and a headless corpse the Chicago police need identifying . . . Not to mention the return of Harry's ex-girlfriend Susan, still struggling with her semi-vampiric nature. And who seems to have a new man. Some days, it just doesn't pay to get out of bed. No matter how much you're charging. Magic - it can get a guy killed.

Harry is the best and technically the 'only' at what he does, being the lone professional wizard PI in the Chicago phonebook. So when the Chicago PD has cases that transcend mortal capabilities, they come to him for answers. For the 'everyday' world is actually full of strange and magical things - and most of them don't play well with humans. Yet despite his precautions, Harry tends to stumble from crisis to drama in his dealings with the supernatural world - call it an occupational hazard. Here, he unfailingly manages to get on the wrong side of werewolf, fae and vampires alike. And that's where his own rather special powers come into play . . . These bite-sized stories are tremendously entertaining and will leave you itching to explore more of Harry Dresden's world. And as well as eight short stories, this collection will include an all-new Dresden Files novella.

Skin Game

Harry Dresden, Chicago's only professional wizard, is about to have a very bad day. As Winter Knight to the Queen of Air and Darkness, Harry never knows what the scheming Mab might want him to do. Usually, it's something awful. This time, it's worse than that. Mab's involved Harry in a smash-and-grab heist run by one of his most despised enemies to recover the literal Holy Grail from the vaults of the greatest treasure horde in the world - which belongs to the one and only Mab. And the Underworld Dresden's always been tricky, but he's going to have to try his backstabbing game to survive this mess - assuming his own allies don't end up killing him before his enemies get the chance. .

Meet Harry Dresden, Chicago's first (and only) Wizard P.I. Turns out the 'everyday' world is full of strange and magical things - and most of them don't play well with humans. That's where Harry comes in. Harry has no friends on the White Council of Wizards, who find him brash and undisciplined (and they may have a point). However, now vampire wars have thinned out the wizards a little, they need him. So before he can blink, he's assigned to investigate rumours of black magic. Harry's other problem is an old friend's daughter - all grown-up and in trouble already. Her boyfriend insists she's innocent of something resembling a crime straight out of a horror film. This first impression turns out to be . . . well, pretty accurate, as Harry discovers malevolent entities feeding on fear. All in a day's work for a wizard, his dog, and a talking skull named Bob. Magic - it can get a guy killed.

New York Times-bestselling author Jim Butcher expands his beloved "Dresden Files" novel series with the all-new "Dog Men" story set within official continuity, created exclusively as a graphic novel! Harry Dresden is a man on the edge—and that is something that can be dangerous to friend and foe alike. He's been drafted by a senior member of the White Council of Wizards to investigate a series of murders in rural Mississippi. As always, there's more afoot than is immediately apparent. The question is, will Harry's state of mind keep him from seeing it, and will his actions lead him into direct conflict with the wizard who's depending on his help?

Meet Harry Dresden, Chicago's first (and only) Wizard P.I. Turns out the 'everyday' world is full of strange and magical things - and most of them don't play well with humans. That's where Harry comes in. Since his girlfriend left town to deal with her newly acquired taste for blood, Harry's been down and out. He can't pay his rent. He's alienating his friends. He can't recall his last shower. Then when things are at their worst, the Winter Queen of Faerie saunters in with an offer that's too good to refuse. All he has to do is clear the name of the man who murdered the Summer Knight, the Summer Queen's right-hand man, and clear the Winter Queen's name. It seems simple, but Faerie politics seldom work out that way. Then Harry discovers the fate of the entire world rests on this case. So no pressure. . . Magic - it can get a guy killed.

Meet Harry Dresden, Chicago's first (and only) Wizard PI. Turns out the 'everyday' world is full of strange and magical things - and most of them don't play well with humans. That's where Harry comes in. But he's forgotten his own golden rule: magic - it can get a guy killed. Which didn't help when he clashed with unknown assailants with his murder in mind. And though Harry's continued existence is now in some doubt, this doesn't mean he can rest in peace. Trapped in a realm that's not quite here, yet not quite anywhere else, Harry learns that three of his loved ones are in danger. Only by discovering his assailant's identity can he save his friends, bring criminal elements to justice, and move on himself. It would just be easier if he knew who was at risk. And had a (working) crystal ball. And easier if magic. Instead, he is unable to interact with the physical world - invisible to all but a select magical few. He's also not the only silent presence roaming Chicago's alleys. Hell, he put some there himself. Now, they're looking for payback.

When Pendragon finds himself in the war-stricken territory of Cloral, he and his uncle take it upon themselves to rid the area of marauders and locate the legendary lost land of Faar, which may hold the key to Cloral's survival.

Since time immemorial, the Spires have sheltered humanity, towering for miles over the mist-shrouded surface of the world. Within their halls, aristocratic houses have ruled for generations, developing scientific marvels, fostering trade alliances, and building fleets of airships to keep the peace. Captain Grimm commands the merchant ship, Predator. Fiercely loyal to Spire Albion, he has taken their side in the cold war with Spire Aurora, disrupting the enemy's shipping lines by attacking their cargo vessels. But when the Predator is severely damaged in combat, leaving captain and crew grounded, Grimm is offered a proposition from the Spirearch of Albion-to join a team of agents on a vital mission in exchange for fully restoring Predator to its fighting glory. And even as Grimm undertakes this dangerous task, he will learn that the conflict between the Spires is merely a premonition of things to come. Humanity's ancient enemy, silent for more than ten thousand years, has begun to stir once more. And death will follow in its wake.

Meet Harry Dresden, Chicago's first (and only) Wizard P.I. Turns out the 'everyday' world is full of strange and magical things - and most of them don't play well with humans. That's where Harry comes in. Harry's had worse assignments than going undercover on the set of an adult film. Dodging flaming monkey poo, for instance. Or going toe-to-toe with a plant monster. Still, there's something troubling about this case. The Producer believes he's afflicted by an entropy curse - but it's the women around him who are dying. And Harry only got involved as a favour to Thomas, his flirtatious self-absorbed vampire acquaintance. Thomas has a personal stake in the case Harry can't work out, until his investigation leads him straight to Thomas's oversexed relatives. Harry's about to discover the skeleton in Thomas's family closet: a revelation that will change Harry's life for ever. Magic - it can get a guy killed.

"Simon paid off the driver and turned to follow Mrs Twite. But she seemed to have locked the door behind her and, as he rattled the latch unavailingly and then rapped the locker, something dark and suffocating was forced down over his head and a pair of hands gripped his throat." Simon, coming to London to study painting with his old friend Dr Field, finds he has vanished without trace. Determined to discover what lies behind his disappearance, Simon is trapped in a fiendish plot. Why has his landlord got guns in his cellar and how does one deal with his irrepresible daughter, Dido. . . .?

Meet Harry Dresden, Chicago's first (and only) Wizard P.I. Turns out the 'everyday' world is full of strange and magical things - and most of them don't play well with humans. That's where Harry comes in. Harry has always tried to keep his nose clean where the White Council of Wizards is concerned, but past misdeeds haven't gone down well. Which places him in an awkward position. Morgan, formerly his chief persecutor on the Council, has been wrongly accused of treason. Facing the ultimate punishment, Morgan needs someone with a knack for backing the underdog, however much that someone isn't interested. Soon, Harry is working to clear the less-than-agreeable Morgan's name, hiding from the Council and bounty hunters alike and seeking the true turncoat. A single mistake may mean that heads - quite literally - could roll. And one of them might be his. Magic - it can get a guy killed.
