

Don't Fall Apart On Saturdays!: The Children's Divorce Survival Book

I am very much aware that it is an act of extreme rashness to attempt to write an elementary book about structures. Indeed it is only when the subject is stripped of its mathematics that one begins to realize how difficult it is to pin down and describe those structural concepts which are often called' elementary'; by which I suppose we mean 'basic' or 'fundamental'. Some of the omis sions and oversimplifications are intentional but no doubt some of them are due to my own brute ignorance and lack of under standing of the subject. Although this volume is more or less a sequel to The New Science of Strong Materials it can be read as an entirely separate book in its own right. For this reason a certain amount of repetition has been unavoidable in the earlier chapters. I have to thank a great many people for factual information, suggestions and for stimulating and sometimes heated discussions. Among the living, my colleagues at Reading University have been generous with help, notably Professor W. D. Biggs (Professor of Building Technology), Dr Richard Chaplin, Dr Giorgio Jeronimidis, Dr Julian Vincent and Dr Henry Blyth; Professor Anthony Flew, Professor of Philosophy, made useful suggestions about the last chapter. I am also grateful to Mr John Bartlett, Consultant Neurosurgeon at the Brook Hospital. Professor T. P. Hughes of the University of the West Indies has been helpful about rockets and many other things besides. My secretary, Mrs Jean Collins, was a great help in times of trouble. Mrs Nethercot of Vogue was kind to me about dressmaking. Mr Gerald Leach and also many of the editorial staff of Penguins have exercised their accustomed patience and helpfulness. Among the dead, I owe a great deal to Dr Mark Pryor - lately of Trinity College, Cambridge - especially for discussions about biomechanics which extended over a period of nearly thirty years. Lastly, for reasons which must surely be obvious, I owe a humble oblation to Herodotus, once a citizen of Halicamassus. Now that Connor Cohen is dead, Silas Cohen is free to live the life he wants. But there are still two men in the way. When Enzo Juarez tries to make a new deal with Fiona, her good intentions get the best of her and she unexpectedly puts Silas in danger. Can Alex ' s connections save them this time? All bets are off when it ' s every man for themselves in this series ' finale.

An unexpected detour can change the course of our lives forever, and, for white American anthropologist Margaret Willson, a stopover in Brazil led to immersion in a kaleidoscopic world of street urchins, capoeiristas, drug dealers, and wise teachers. She and African Brazilian activist Rita Conceicao joined forces to break the cycles of poverty and violence around them by pledging local residents they would create a top-quality educational program for girls. From 1991 to the graduation of Bahia Street's first college-bound graduate in 2005, Willson and Conceicao 's adventure took them to the shantytowns of Brazil's Northeast, high-society London, and urban Seattle. In a narrative brimming with honesty and grace, Dance Lest We All Fall Down unfolds the story of this remarkable alliance, showing how friendship, when combined with courage, insight, and passion, can transform dreams of a better world into reality. One Couple's Breast Cancer Journey

That a Man Can Stand: The Evolution of a Nation

An Empowering Perspective on Marriage, Separation, and Divorce from a Marriage-Loving Divorce Attorney

Beyond Betrayal - Beyond Humanity

Sometimes we need to see other people do something that's scary first, and then we can take that first step into the unknown ourselves. Conventional wisdom says one must "fight" breast cancer, but fighting is not for everyone. For some, falling apart proves to be the better response.

The Heroics of Falling Apart: One Couple's Breast Cancer Journey is the story of how one couple found their own authentic way to survive the ordeal of coping with a life-threatening illness. In separate voices, Judy and Dan Gordon relate and reflect on their yearlong journey with Judy's cancer, from diagnosis through the end of treatment. The Heroics of Falling Apart examines the broad range of experiences from the surprisingly different viewpoints of patient and caregiver, and does so with a candidness and humor that others facing a similar journey will find touching and inspiring, as well as informative. In the wake of a cancer diagnosis, there is an overwhelming amount of things to do-decisions to be made, questions to ponder, and emotions and people with which to cope. Often, simply knowing that there is no right or wrong way to get through it makes the journey bearable, a fact made strikingly clear through the Gordons' deeply personal and detailed account of their journey.

Delusion, dementia or discourse? A daughter insists on the latter, and with the threads of her mother's narratives weaves for them a raft of words. These conversations, unlike anything I'd shared with her before, shocked me. I was glad they happened only when we were alone together. I'd never even thought these things I heard us say, didn't know where they came from. But since they seemed to make sense to her, I kept inviting her to speak. She'd say something, I'd listen, say something back;we were together in words. As if what we said to each other arose, not from our own learning or experience, but some underlying chord that included our voices but was bigger, spoke through them, as if the sound of the ocean were encoded in the sounds of the rain. I'll Close My Eyes(But I Won't Be Asleep)sounds an intimate, heartbreaking, and sometimes humorous, end-of-life chord in a mother and daughter relationship.A compelling memoir, I'll Close My Eyes(But I Won't Be Asleep)is an honest account of what, for most of us, remains hidden and unheard. It will be useful for anyone torn by conflicting desires and demands, battered by memory, grief and rage, and struggling to give care. Elisa Adler studied at the University of California, Berkeley, Mills College and, in Bogota, Colombia, at Centro de Estudios Colombo-Americanos. She has worked as a newspaper reporter, translator, interpreter, laborer and domestic, teaches English and Spanish at colleges in California and Nevada, and farms with her daughter and husband in the northern Sierra."

It's hurricane season, and for one Keys community, the weather isn't the only thing in turmoil. "It's starting already. There's something fierce out there stirring everybody up. This wind is going to blow the earth into the sea." At 86 years old, Opal, Bahamian matriarch and purported seer, tries to guide her family through the coming storms: JoBe, the nephew to whose drug activities she casts a blind eye; T.C., her teenage granddaughter who's experiencing her sexual awakening, and Pearl, her niece whose marriage is its own tempest. The Thompson family isn't fairing much better. For Jessica, strung out and determined to make peace with her past, returning to Key West is, perhaps, the worst decision she'd ever make, but it is the only thing she can do. Her husband, Mark, mailman, dreamer, now single father, struggles to maintain a sense of family for his teenage daughter Mia. Coming to grips with the loneliness and responsibility of a single parenthood, he finds his life turned upside by Jessica's return. And for octogenarians Bud and Caroline Johnson, they're just trying to weather one more summer of life's storms.

Don't Fall Apart on Saturdays!The Children's Divorce-Survival Book

An account of the significant though gradual, uneven, disconnected, ad hoc, and pragmatic innovations in global financial governance and developmental finance induced by the global financial crisis. In When Things Don't Fall Apart, Ilene Grabel challenges the dominant view that the global financial crisis had little effect on global financial governance and developmental finance. Most observers discount all but grand, systemic ruptures in institutions and policy. Grabel argues instead that the global crisis induced inconsistent and ad hoc discontinuities in global financial governance and developmental finance that are now having profound effects on emerging market and developing economies. Grabel's chief normative claim is that the resulting incoherence in global financial governance is productive rather than debilitating. In the age of productive incoherence, a more complex, dense, fragmented, and pluripolar form of global financial governance is expanding possibilities for policy and institutional experimentation, policy space for economic and human development, financial stability and resilience, and financial inclusion. Grabel draws on key theoretical commitments of Albert Hirschman to cement the case for the productivity of incoherence. Inspired by Hirschman, Grabel demonstrates that meaningful change often emerges from disconnected, erratic, experimental, and inconsistent adjustments in institutions and policies as actors pragmatically manage in an evolving world. Grabel substantiates her claims with empirically rich case studies that explore the effects of recent crises on networks of financial governance (such as the G-20); transformations within the IMF; institutional innovations in liquidity support and project finance from the national to the transregional levels; and the "rebranding" of capital controls. Grabel concludes with a careful examination of the opportunities and risks associated with the evolutionary transformations underway.

"A lucidly described coming-of-age tale" about a young boy and three teenage sisters who have "a mysterious, almost mythic feminine glamour." – Kirkus Reviews In this coming-of-age story set against the backdrop of the Vietnam War, a lonely boy finds acceptance when he spends the summer in a loving family with three beautiful daughters. Twelve-year-old Joey Roland is sent away to family friends while his parents try to work things out. He's eager to leave sadness and secrets behind in Chicago and head downstate to the small town of Greenberry, where the Vitale family awaits him. He thinks of their town as boyland—a world of bike riding, fishing, and going barefoot. Though initially shy of the teenaged daughters—Anne, Vita, and Beth—they welcome him into their lives of adventure, beauty, and dreams. Joey especially bonds with the middle sister, Vita, and her all-or-nothing pursuit of an acting career. Joey's "there must be more" merges with Vita's "I must make it happen" resulting in a magical summer where the town of Greenbury becomes the crucible for two desperate dreamers. Explores the problems experienced when parents divorce, suggesting ways to handle such situations effectively.
