

## F U Money: Make As Much Money As You Damn Well Want And Live Your Life As YOu Damn Well Please!

How will artificial intelligence change our world within twenty years? “This inspired collaboration between a pioneering technologist and a visionary writer of science fiction offers bold and urgent insights.”–Yann LeCun, winner of the Turing Award; chief AI scientist, Facebook “Amazingly entertaining . . . Lee and Chen take us on an immersive trip through the future. . . . Eye-opening.”–Mark Cuban AI will be the defining development of the twenty-first century. Within two decades, aspects of daily human life will be unrecognizable. AI will generate unprecedented wealth, revolutionize medicine and education through human-machine symbiosis, and create brand-new forms of communication and entertainment. In liberating us from routine work, however, AI will also challenge the organizing principles of our economic and social order. Meanwhile, AI will bring new risks in the form of autonomous weapons and smart technology that inherits human bias. AI is at a tipping point, and people need to wake up—both to AI’s radiant pathways and its existential perils for life as we know it. In this provocative, utterly original work, Kai-Fu Lee, the former president of Google China and bestselling author of AI Superpowers, teams up with celebrated novelist Chen Qiufan to imagine our world in 2041 and how it will be shaped by AI. In ten gripping short stories, they introduce readers to an array of eye-opening 2041 settings, such as:
• In San Francisco, the “job reallocation” industry emerges as deep learning AI causes widespread job displacement
• In Tokyo, a music fan is swept up in an immersive form of celebrity worship based on virtual reality and mixed reality
• In Mumbai, a teenage girl rebels when AI’s crunching of big data gets in the way of romance
• In Seoul, virtual companions with perfected natural language processing (NLP) skills offer orphaned twins new ways to connect
• In Munich, a rogue scientist draws on quantum computing, computer vision and other AI technologies in a revenge plot that imperils the world
By gazing toward a not-so-distant horizon, AI 2041 offers urgent insights into our collective future—while reminding readers that, ultimately, humankind remains the author of its destiny.

**You Don't Need to Make Millions to Get Rich. Believe Me. This comprehensive 8-step guide provides the blueprint to achieve financial freedom at a young age, regardless of income. No B.S., just answers. In Get Rich Action Plan, you will learn the lifelong habits to become financially independent sooner than you thought possible. Do we really need another personal finance book? YES. The outdated status quo advice of "Save 10% for 40+ years" simply doesn't work. It's time to rethink the conventional wisdom that only serves to continue the vicious cycle of wage slavery and the "live to work" mentality. In an age of globalization and abundance, I'm here to tell you there is another way! It is time to change how we think about personal finance, budgeting, and investing. The 8 steps in this book each work in unison to create a rapid snowball effect that will make your money work for you immediately, so you can afford time off of work or even retire in your 30's. From saving money to investing to growing your income, all of the specifics are covered in this action plan. Get Started on the Right Foot and Change How You Think About Finances I have never made much money by Western standards. In fact, I have never made more than a middle class income. But by employing these strategies, I was able to increase my net worth dramatically at a very young age. It took only 6 years of full-time employment to build an "FU money" fund of hundreds of thousands of dollars, providing me the freedom to travel and take time off of work to pursue other interests. I was able to do this by quickly taking action and ignoring conventional advice. After years of trial and error, I have developed a strategy and philosophy that simply works. And I want to share with you everything I have done to build this large nest egg. I have nothing to hide. The truth is that the path to wealth is not complicated, and you do not need to make millions to get there. More and more of us are realizing that financial freedom is possible in 10 years or less. But the media will never tell you this. Your politicians will never tell you this. They want you to live to work instead of work to live. Now is the time to flip the script and live free! The Time To Take Action Was Yesterday. The Next Best Time is Now. Whether you are in your 20's and looking for sound advice to get started, or you're later in your career and haven't really thought about financial freedom, it's not too late to start! Once you put these systems in place, financial independence will no longer be a lifelong battle. Ditch the 40-year plan and live the life you want to live. Get started today! BONUS MATERIAL INCLUDED I'm also excited to share FREE bonus material that highlights "27 Ways I Slashed My Budget By \$1818 Per Month." A link to the free PDF is included in the book! *Acclaimed cultural geographer Yi-Fu Tuan considers humanity's enduring desire to escape reality—and embrace alternatives such as love, culture, and Disneyland. In prehistoric times, our ancestors began building shelters and planting crops in order to escape from nature's harsh realities. Today, we flee urban dangers for the safer, reconfigured world of suburban lawns and parks. According to geographer Yi-Fu Tuan, people have always sought to escape in one way or another, sometimes foolishly, often creatively and ingeniously. Glass-tower cities, suburbs, shopping malls, Disneyland—all are among the most recent monuments in our efforts to escape the constraints and uncertainties of life—ultimately, those imposed by nature. "What cultural product," Tuan asks, "is not escape?" In his new book, the capstone of a celebrated career, Tuan shows that escapism is an inescapable component of human thought and culture.*

Needs can be met, and success achieved, not merely for oneself but for others (and the world) through dedication to the Lotus Sutra, a central teaching of Buddhism. It combines these personal objectives with the commitment to world peace, ecology and the easing of suffering, especially, AIDS. Ken Langone has seen it all on his way to a net worth beyond his wildest dreams. A pillar of corporate America for decades, he's a co-founder of Home Depot, a former director of the New York Stock Exchange, and a world-class philanthropist (including \$200 million for NYU's Langone Health). In this memoir he finally tells the story of his

unlikely rise and controversial career. It's also a passionate defense of the American Dream -- of preserving a country in which any hungry kid can reach the maximum potential of his or her talents and work ethic. In a series of fascinating stories, Langone shows how he struggled to get an education, break into Wall Street, and scramble for an MBA at night while competing with privileged competitors by day. He shares how he learned how to evaluate what a business is worth and apply his street smarts to 8-figure and 9-figure deals . And he's not shy about discussing, for the first time, his epic legal and PR battle with former NY Governor Eliot Spitzer. His ultimate theme is that free enterprise is the key to giving everyone a leg up. As he writes: This book is my love song to capitalism. Capitalism works! And I'm living proof -- it works for everybody. Absolutely anybody is entitled to dream big, and absolutely everybody should dream big. I did. Show me where the silver spoon was in my mouth. I've got to argue profoundly and passionately: I'm the American Dream.

**"In the dark, bewildering, trap-infested jungle of misinformation and opaque riddles that is the world of investment, JL Collins is the fatherly wizard on the side of the path, offering a simple map, warm words of encouragement and the tools to forge your way through with confidence. You'll never find a wiser advisor with a bigger heart." -- Malachi Rempen: Filmmaker, cartoonist, author and self-described ruffian This book grew out of a series of letters to my daughter concerning various things-mostly about money and investing-she was not yet quite ready to hear. Since money is the single most powerful tool we have for navigating this complex world we've created, understanding it is critical. "But Dad," she once said, "I know money is important. I just don't want to spend my life thinking about it." This was eye-opening. I love this stuff. But most people have better things to do with their precious time. Bridges to build, diseases to cure, treaties to negotiate, mountains to climb, technologies to create, children to teach, businesses to run. Unfortunately, benign neglect of things financial leaves you open to the charlatans of the financial world. The people who make investing endlessly complex, because if it can be made complex it becomes more profitable for them, more expensive for us, and we are forced into their waiting arms. Here's an important truth: Complex investments exist only to profit those who create and sell them. Not only are they more costly to the investor, they are less effective. The simple approach I created for her and present now to you, is not only easy to understand and implement, it is more powerful than any other. Together we'll explore: Debt: Why you must avoid it and what to do if you have it. The importance of having F-you Money. How to think about money, and the unique way understanding this is key to building your wealth. Where traditional investing advice goes wrong and what actually works. What the stock market really is and how it really works. Why the stock market always goes up and why most people still lose money investing in it. How to invest in a raging bull, or bear, market. Specific investments to implement these strategies. The Wealth Building and Wealth Preservation phases of your investing life and why they are not always tied to your age. How your asset allocation is tied to those phases and how to choose it. How to simplify the sometimes confusing world of 401(k), 403(b), TSP, IRA and Roth accounts. TRFs (Target Retirement Funds), HSAs (Health Savings Accounts) and RMDs (Required Minimum Distributions). What investment firm to use and why the one I recommend is so far superior to the competition. Why you should be very cautious when engaging an investment advisor and whether you need to at all. Why and how you can be conned, and how to avoid becoming prey. Why I don't recommend dollar cost averaging. What financial independence looks like and how to have your money support you. What the 4% rule is and how to use it to safely spend your wealth. The truth behind Social Security. A Case Study on how this all can be implemented in real life. Enjoy the read, and the journey!**

*How Top Real Estate Agents Really Create HIGH INCOME, WEALTH, AND INDEPENDENCE "A rare and insightful view into how highly successful Real Estate Professionals create a balanced and prosperous lifestyle out of what can be a chaotic and highly unpredictable business. Written in a refreshing interview format that brings to life the unique systems and strategies of Agents that have truly made it in the Real Estate Industry." Jillian Dobson Broker RE/MAX Realtron Realty Inc., Brokerage THIS BOOK IS the result of over fifteen years of travelling throughout both Canada and the United States and meeting, speaking and working with literally thousands of real estate agents. After working with some of the top agents in North America, there is a clear and definitive common thread that defines them. If you really take a close look at what we would refer to as the "top 10% of realtors" who are successful and prosperous, while there are differences, there are many profound similarities: In how they structure their business, Their strategies, Their overall mindset and how they approach what they do. This stands in stark contrast to the vast majority of agents who are struggling or just getting by barely making a living. We have often said that "we have never met the five year old that decided they want to be a realtor when they grow up." Most come to real estate as a second or third profession and usually from vastly different backgrounds. Most agents start off in the same place with lots of unanticipated startup expenses and little or no business at the beginning. The ones who actually build a prosperous and successful real estate career with consistent income and a great lifestyle for their families have done so by discovering a few simple truths about the real estate business. Simple truths like how to manage themselves and their relationships. They have done so in such a way as to navigate the journey from being a transactional agent perpetuating the feast-to-famine cycle, always being at the whim of the economy and competing with every other agent in their market, to creating a systems-based business and taking back control over their business and their lives. Ultimately, this book is about the journey from being a transactional agent to becoming a prosperous systems-based one where it is all about the lifestyle. What these agents interviewed in this book have done is make the real estate business work for them rather than the majority of agents who can be at the whim of what can be a wildly unpredictable and tumultuous business. In writing this book, we interviewed a broad cross section of the most successful agents and allowed them to tell their story with the ultimate goal of uncovering and sharing some of their "golden nuggets" of wisdom. One of our favorite sayings is that "all the great truths in life are simple for if they were complex everyone would understand them." It is our intent to share some of these simple truths with you so that you too will have a rich and rewarding real estate career. Phil Hollander & Dan Lok*

*First published in 1936, One Thousand Ways to Make \$1000 is the long out-of-print book that Warren Buffett's biographers credit with shaping the legendary investor's business acumen and giving him his trademark appreciation of compound interest. After a Thousand Ways off a library shelf at age eleven and devouring F.C. Minaker's plucky and practical business advice, Buffett declared that he would be a millionaire by the time he was 35. Written in the immediate, conversational style of Dale Carnegie's How to Influence People, this book is full of inventive ideas on how to make money through excellent salesmanship, hard work, and resourcefulness. While some of the ideas may seem quaint today-goat dairying, manufacturing motor-driven chairs, and renting out businesses establishments are among the money-making ideas presented- the underlying fundamentals of business explained in these pages remain as solid as they were over seventy years ago. Covering a wide spectrum of topics including investing, marketing, merchant-customer relations, and raising money for charity, One Thousand Ways to Make \$1000 is both a durable, classic business book and a fascinating portrait of determined entrepreneurship in Depression-era America. Every effort has been made to reproduce the book as it was originally presented.*

***From the award-winning author of For Today I Am a Boy, a gripping and deeply felt novel about a group of young girls at a remote camp--and the night that changes everything and will shape their lives for decades to come A group of young girls descend on Camp Forevermore, a sleepaway camp in the Pacific Northwest, where their days are filled with swimming lessons, friendship bracelets, and camp songs by the fire. Filled with excitement and nervous energy, they set off on an overnight kayaking trip to a nearby island. But before the night is over, they find themselves stranded, with no adults to help them survive or guide them home. The Lost Girls of Camp Forevermore traces these five girls--Nita, Andee, Isabel, Dina, and Siobhan--through and beyond this fateful trip. We see them through successes and failures, loving relationships and heartbreaks; we see what it means to find, and define, oneself, and the ways in which the same experience is refracted through different people. In diamond-sharp prose, Kim Fu gives us a portrait of friendship and of the families we build for ourselves--and the pasts we can't escape.***
