In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

A GRIPPING, FEARLESS EXPLORATION OF MASCULINITY The effects of traditionally defined masculinity have become one of the most prevalent social issues of our time. In this engaging and provocative new book, beloved actor, director, and social activist Justin Baldoni reflects on his own struggles with masculinity. With insight and honesty, he explores a range of difficult, sometimes uncomfortable topics including strength and vulnerability, relationships and marriage, body image, sex and sexuality, racial justice, gender equality, and fatherhood. Writing from experience, Justin invites us to move beyond the scripts we've learned since childhood and the roles we are expected to play. He challenges men to be brave enough to be vulnerable, to be strong enough to be sensitive, to be confident enough to listen. Encouraging men to dig deep within themselves, Justin helps us reimagine what it means to be man enough and in the process what it means to be human.

Life Scripts: A Transactional Analysis of Unconscious Relational Patterns is an exciting collection of contemporary writings on Life Script theory and psychotherapeutic methods. Each chapter describes an evolution of Eric Berne's original theory and brings together a stimulating range of international perspectives, theoretical positions, clinical experiences and psychotherapy practices, as well as a psychotherapy story that illustrates the theory. The concept of Life Scripts has frequently been associated with the determinism represented in the theoretical scripts, yet, this book offers some new and diverse perspectives. A few contributors address the significance of early childhood experiences in forming a Life Script, while others reflect the perspectives of post-modernism, constructivism, existential philosophy, neuroscience, developmental research, mythology and the importance of narrative.An illustrious group of authors has integrated a broad professional perspective into their understanding of a theory of mind, theories of personality and the methods of psychotherapy. Each chapter provides a unique theoretical perspective; some are provocative and challenge Berne's and others long held notions about Life Scripts.

Angry Baby Katie Woods has a clear message for today's politicians: 'We (the generation of tomorrow) are not going to take this mess lying down.' Founder of the ground-breaking political party 'Babies for Change', in this no-holds-barred account of her short but extraordinary life to date, Katie pulls no punches as she shares her vision for a better future. It includes her anti-austerity manifesto - Ignore the Troika! Special prisons for bankers! Rejuvenation through pram lane construction! - an account of her friendship with her 'guru' Fintan O'Toole ('what would Fintan do?'), life on the campaign trail, and the inside story of her often tempestuous relationship with nanny/campaign manager Siobhan Devlin. Visionary, raconteur, voice of Ireland's disenfranchised, young Angry Baby tells it like it is as she declares 'Ireland is open for business.'

TELEVISION. British history as we know it is a cluttered patchwork of questionable stories which have been re-written, re-evaluated and ridiculed, and yet there is still an unquestioned narrative thread which runs through the nation's historical record, accepted as fact. But final editorial control has always belonged to the winners. And nobody likes winners... "The True History of the Black Adder" is the very first in-depth examination of the creation of a British institution like no other - arguably the greatest sitcom of all time - not to mention the first historical investigation into the lives of the Blackadder family, one of the nation's most villified dynasties. Using existing archive footage and rare literature, plus new revelations from personal interviews with the makers including John Lloyd, Tony Robinson, Richard Curtis, Ben Elton, Stephen Fry, Brian Blessed; Rowan Atkinson and many more, J. The Scripts

The collected scripts of the unique, slightly strange, often weird, but always hilarious award-winning sitcom Peep Show. Meet Mark and Jeremy: two very ordinary weirdos. Mark, a middle-aged man trapped in a twentysomething's body, is the sensible one--a loan manager with seven GCSEs ("back when a GCSE actually meant something") and an unhealthy obsession with World War II. His flatmate, Jeremy, is a grade-A work-shy freeloader with sketchy fruebds. He dreams of being a world-class musician but can't seem to get out of bed in the morning. They hate themselves, each other, and the world. This is their story. Uniquely filmed--shot from the characters' point of view and edited so the viewer hears their unspoken thoughts, as well as the dialogue between them--Peep Show has attracted both a cult following and critical acclaim. Now, Sam Bain and Jesse Armstrong, the creators of the show, have pulled together and annotated the scripts of all five series and written hilarious extra material to take us even deeper into the minds of our socially inept and wonderfully weird heroes and their slightly strange friends. A perfect example of British comedy writing at its very best, this book is the perfect present for quirky comedy fans everywhere.

Combining the razor-sharp wit of writer Declan Lynch with illustrations and contributions from Father Ted co-creator Arthur Mathews. Since Declan Lynch and Arthur Mathews first shone a light into this darkest corner of the darkest living room in all of Ireland over a decade ago, things have actually got worse for that almost-forgotten species we call the Poor Ould Fellas - impossible though it seems. Further confined to their unhappy dwelling places by the drink-driving laws, a new range of challenges have emerged to torment them in a baffling post-analog world, where emails seek to release them from the few remaining shillings that weren't stolen by bankers during the crash. Now they must negotiate a universe full of new words (falafel, bitcoin, Spotify) and concepts (texting, sexting, going away for the weekend, composing a tweet, growing a beard, online banking) that mean absolutely nothing to them. Notes from a Lost Tribe is a hilarious road map through a world of forgotten men and their equally forgotten dogs, who ask for so little - yet it is denied them. And still ... somehow ... inexplicably ... they go on.

Psychologists have long been aware that most people maintain an irrationally positive outlook on life—but why? Turns out, we might be hardwired that way. In this absorbing exploration, Tali Sharot—one of the most innovative neuroscientists at work today—demonstrates that optimism may be crucial to human existence. The Optimism Bias explores how the brain generates hope and what happens when it fails; how the brains of optimists and pessimists differ; why we are terrible at predicting what will make us happy; how emotions strengthen our ability to recollect; how anticipation and dread affect us; how our optimistic illusions affect our financial, professional, and emotional decisions; and more. Drawing on cutting-edge science, The Optimism Bias provides us with startling new insight into the workings of the brain and the major role that optimism plays in determining how we live our lives.

Eoin O'Cellaigh: writer, poet, nationalist, playwright, civil servant, commentator (non-sport) - above all a defender of the traditional values of Ireland. The 'land of saints and scholars' has produced another grand voice. A true renaissance Catholic, Eoin O'Cellaigh has witnessed nearly a century of stirring events in the history of Ireland. This is his autobiography. O'Cellaigh enthralingly recounts the key moments in his rich life, such as his success in bringing Pope John Paul II to Ireland, or his founding of the League of the Mother of God Against Sin, which kept jazz and modern dancing out of Irish life for most of the century. The young O'Cellaigh was marked for life by his meeting with that mythical battler for Irish independence Michael Collins, for whom he once hid sausages under the bed. As he grew older he was drawn towards the important work of censorship and campaigning against sex. In the words of Frank Sinatra, he did things, 'swell.'

Cally Hammond looks at how words function as carriers of semantic content (communicating facts and doctrines; telling stories; articulating emotions and spiritual perceptions) and then contrasts this with words as they function as physical entities striking the ear, so as to evoke emotions, memories and spiritual perceptions. This basic antithesis between words as carriers of meaning and words as evokers of feeling, emotion, and memory leads to four chapters that explore in fascinating detail the four main aspects of liturgical speech: posture, repetition, rhythm and punctuation.

A Transactional Analysis of Unconscious Relational Patterns

Regarded by many critics as Britain's best sitcom, Dick Clement and Ian La Frenais' tales of life inside Slade Prison first hit the screens in 1973 and ran until 1977. But it has never faded from the nation's consciousness. Ronnie Barker as Fletch the old lag and Richard Beckinsale as Godber the naive first-time offender are comic creations as fine as any in the history of television. Now, for the first time, Richard Webber has brought together the original scripts from all three series of PORRIDGE to make this the essential souvenir for all the many fans of this much-loved classic comedy.

Jerry. George. Elaine. Kramer. We've followed their misadventures for nearly ten years on Thursday nights. Featuring the first 17 episodes ever aired, The Seinfeld Scripts contains all the great lines that have kept us laughing for years: the pilot episode, "The Seinfeld Chronicles," where it all began; George introduces his importer/exporter altar ego Art Vanderlay in "The Stakeout"; Kramer becomes obsessed with cantaloupe in "The Ex-Girlfriend"; Jerry and George meet Elaine's dad in "The Jacket"; is Jerry responsible for a poor Polish woman's death when he makes "The Pony Remark"?; Jerry and Elaine decide to become intimate again in "The Deal"; what will George do when he is banned from the executive bathroom in "The Revenge"?; and Jerry, George, and Elaine wait for a table in "The Chinese Restaurant." It's all here: the award-winning writing of Seinfeld, "the defining sitcom of our age". Created by Larry David and Jerry Seinfeld.

Elaine: My roommate has Lyme disease. Jerry: Lyme disease? I thought she had Epstein-Barr syndrome? Elaine: She has this in addition to Epstein-Barr. It's like Epstein-Barr with a twist of Lyme disease. George: She calls me up at my office she says, "We have to talk." Jerry: The four worst words in the English language. Kramer: What a body.

Yeeaaah...that's for me. Jerry: Yeah and you're just what she's looking for, too--a stranger, leering through a pair of binoculars ten floors up.

Twelve-year-old Sunny Nwazue, an American-born albino child of Nigerian parents, moves with her family back to Nigeria, where she learns that she has latent magical powers which she and three similarly gifted friends use to catch a serial killer.

Dr Helena Sheehan's original study, Irish television drama, appeared in 1987. It traced 25 years (1962-87) of Irish society in a process of social transformation and the role of television drama in a struggle to define the nature of that process. This book is a sequel, advancing the story another 15 years (1987-2002). From 'Fair City' to 'Family' to 'Father Ted', it examines television drama in the time of the Celtic tiger, striving to come to terms with the flux of Irish life in an increasingly globalized world, in a time of significant changes in the climate of broadcasting.

THE NUMBER ONE NEW YORK TIMES BESTSELLER NOW A MAJOR FILM, STARRING STEVE CARELL AND BAFTA AND GOLDEN GLOBE NOMINATED TIMOTHEE CHALAMET ‘What had happened to my beautiful boy? To our family? What did I do wrong?’ Those are the wrenching questions that haunted every moment of David Sheff’s journey through his son Nic’s addiction to drugs and tentative steps toward recovery. Before Nic Sheff became addicted to crystal meth, he was a charming boy, joyous and funny, a varsity athlete and honor student adored by his two younger siblings. After meth, he was a trembling wraith who lied, stole, and lived on the streets. With haunting candour, David Sheff traces the first subtle warning signs: the denial, the 3am phone calls (is it Nic? the police? the hospital?), the attempts at rehab. His preoccupation with Nic became an addiction in itself, and the obsessive worry and stress took a tremendous toll. But as a journalist, he instinctively researched every avenue of treatment that might save his son and refused to give up on Nic. This story is a first: a teenager’s addiction from the parent’s point of view - a real-time chronicle of the shocking descent into substance abuse and the gradual emergence into hope. Beautiful Boy is a fiercely candid memoir that brings immediacy to the emotional rollercoaster of loving a child who seems beyond help. Read the other side of Nic Sheff’s bestselling memoir, Tweak.
