Highly trained VC Warrior, Dr. Slade Buchanan’s, role between lifesaver and lifetaker has been a constant battle, but nothing prepared him for half-breed VC Warrior trainee, Jill Nichols. Slade realizes his struggles from the past were nothing but the difficulty of resisting the woman who could never belong to a man like him. Being the only female VC Warrior recruit, Jill Nichols, has an uphill battle. Falling for the sexy doctor, Slade Buchanan, has not made the battle any easier, especially when she reminds her and others there will never be anything between them. Working harder than any male recruit, obstacles are thrown in her path, and with each challenge, it becomes clear that the two things she wants most may never be. In this classic text, Jane Jacobs set out to produce an attack on current city planning and rebuilding and to introduce new principles by which these should be governed. The result is one of the most stimulating books on cities ever written. In the 1920s and 1930s, when cities were in a period of rapid growth, city planners, period, planners temperamentally unsympathetic to cities have been let loose on our urban environment. Inspired by the ideals of the Garden City or Le Corbusier’s Radiant City, they have dreamt up ambitious projects based on self-contained blocks, rigid ‘scientific’ plans and endless acres of grass. Yet they seldom stop to look at what actually works on the ground. The real vitality of cities, argues Jacobs, lies in their diversity, architectural variety, teeming street life and human scale. She appreciates such fundamental realities that we can hope to create cities that are safe, interesting and economically viable, as well as places that people want to live in. ‘Perhaps the most influential single work in the history of town planning’ – The Guardian

Sanctuary

A collection of women’s intimate erotic thoughts by the #1 New York Times–bestselling author of The Secret Garden and “liberator of the female libido” (Newsday). The publication of the groundbreaking expose on women’s sexual fantasies, My Secret Garden, ushered in a revolution in women’s sexual freedom of expression. In Forbidden Flowers, Nancy Friday reveals even more erotic, wild, and explicit fantasies expressed by women all over the world, from all ethnic and socioeconomic backgrounds. Like My Secret Garden before it, Forbidden Flowers is a celebration of the depth, potency, and imaginative breadth of women’s inner erotic lives. By giving female readers a glimpse into the ordinary and often extraordinary fantasies of other women, it offers to some an exhilarating freedom from the guilt and shame so often associated with sexual fantasy—and to others, provides fascinating insight into the psychology of female sexual response. “The author whose books about gender politics helped redefine American women’s sexuality.” —The New York Times

"The most complete and engrossing biography yet of this exotic Southern girl...Excellent."—Liz Smith She was the sex symbol who dazzled all the other sex symbols. She was the temptress who drove Frank Sinatra to the brink of suicide and haunted him to the end of his life. Ernest Hemingway saved one of her kidney stones as a sacred memento, and Howard Hughes begged her to marry him—but she knocked out his front teeth instead. She was one of the great icons in Hollywood history—star of The Killers, The Barefoot Contessa, and The Night of the Iguana—and one of the few whose actual life was grander and more colorful than any movie. Her jaw-dropping beauty, charismatic presence, and fabulous, scandalous adventures fueled the legend of Ava Gardner—Hollywood's most glamorous, restless and uninhibited star.

In this acclaimed first full biography of Gardner, Lee Server recreates—with great style and vivid detail—the actress's life, from her beginnings as a barefoot North Carolina farm girl to her heady days as a Hollywood goddess. He paints the full spectacle of her tumultuous private life—including her string of failed marriages to Mickey Rooney, Sinatra and Artie Shaw—and Gardner's lifelong search for adventure and love. Ava Gardner: "Love is Nothing" is both an exceptional work of biography and a richly entertaining read.

Not only does VC leader, Sloan Murphy, have to keep the peace between the human and vampire race, but he also wrangles VC Warriors in his spare time. It's a job that could drive a saint insane, and Sloan is no saint, but insane he may be. While his Warriors find mates, he swears he will not follow in their footsteps. Becky Spencer, his new secretary who he reluctantly employs, is set to threaten every stoic promise he's made. With an instant attraction that is hard to deny, she fits into his world with confident ease. Even though Becky has sworn off men after her nasty divorce, she can't help the desire the sexy and serious Sloan Murphy stirs in her. It isn't until she sees how devoted he is to his job and the Warriors under his command, that her lusty feelings turn into more. Working in close quarters, they both fight the pull that grows with each passing minute. Who will win, the secretary, the Warrior, or an attraction that just won't go away?

Renowned for his playboy lifestyle and wisecrack remarks, Sid Sinclair knows he is the last pick for the lead investigator of human/half-breed trafficking. Never one to play by the rules, Sid takes his new position seriously, but not without driving the leader of the VC Council and fellow Warrior's crazy. A human with a special gift, Lana Fitzpatrick's life is complicated. When Sid Sinclair charges into her life, her complicated life becomes torturous; his charm and wit draws her in like no other. Having dealt with alpha men most of her life, she is a match made in heaven for the VC Warrior who thinks he is God's gift to women. As the world of vampires and humans try to coexist, Sid and Lana's lives intertwine. It doesn't take long before the sparks between the two fly and for them to realize they have both finally met their match.

In a brief, clear and easily accessible way, this summary illustrates the dynamics of the obesity epidemic and its impact on public health throughout the WHO European Region, particularly in eastern countries. It describes how factors that increase the risk of obesity are shaped in different settings, such as the family, school, community and workplace. It makes both ethical and economic arguments for accelerating action against obesity, and analyses effective programs and policies in different government sectors, such as education, health, agriculture and trade, urban planning and transport. The summary also describes how to design policies and programs to prevent obesity and how to monitor progress, and calls for specific action by stakeholders: not only government sectors but also the private sector - including food manufacturers, advertisers and traders - and professional consumers' and international and intergovernmental organizations such as the European Union.

Why were so many religious images and objects broken and damaged in the course of the Reformation? Margaret Aston’s magisterial new book charts the conflicting imperatives of destruction and rebuilding throughout the English Reformation from the desecration of images, rails and screens to bells, organs and stained glass windows. She explores the motivations of those who smashed images of the crucifixion in stained glass windows and who pulled down crosses and defaced symbols of the Trinity. She shows that destruction was part of a methodology of religious revolution designed to change people as well as places and to forge in the long term new generations of new believers. Beyond blanked walls and whited windows were beliefs and minds impregnated by new modes of religious learning. Idol-breaking with its emphasis on the treacheries of images fundamentally transformed not only Anglican ways of worship but also of seeing, hearing and remembering.

Culture is in right now for Christians. Engaging it, embracing it, consuming it, and creating it. Many (younger) evangelicals today are actively cultivating an appreciation for aspects of culture previously stigmatized within the church. Things like alcohol, Hollywood's edgier content, plays, art openings, and concerts have moved from being forbidden to being celebrated by believers. But are evangelicals opening their arms too wide in uncritical embrace of culture? How do they engage with culture in ways that are mature, discerning, and edifying rather than reckless, excessive, and harmful? Can there be a healthy, balanced approach--or is that simply wishful thinking? With the same insight and acuity found in his popular Hipster Christianity, Brett McCracken examines some of the hot-button gray areas of Christian cultural consumption, helping to lead Christians to adopt a more thoughtful approach to consuming culture in the complicated middle ground between legalism and license. Readers will learn how to both enrich their own lives and honor God--refining their ability to discern truth, goodness, beauty, and enjoy his creation.
