You hope against hope that in your lifetime, evil is relegated to the shadows. But what if it wasn't? What if you lived in a universe where your life was measured only by what you could do for the Empire? What would you do to survive? Would you sell your soul to free yourself? If you were offered the chance to rule, would you seize it? If you could free your universe from the darkness but only at the cost of your life, would you pay that price? Star Trek: Enterprise®—she seized power in a heartbeat, daring to place herself against all the overlords of the Empire. Empress Hoshi Sato knows the future that could be; now all she has to do is make sure it never happens. For her to rule, she must hold sway not only over the starship from the future but also over her warlords, the resistance, and her Andorian husband. As quickly and brutally as Hoshi seized power, imperial rule is taken from her. Her only chance to rule again is to ally herself with a lifelong foe, and an alien. Star Trek® One man can change the future, but does he dare? Spock, intrigued by the vision of another universe's Federation, does what no Vulcan, no emperor, has ever done: seize power in one blinding stroke of mass murder. And at the same instant he gains imperial power, Spock sows the seeds for the Empire's downfall. Is this a form of Vulcan madness, or is it the coolly logical plan of a man who knows the price his universe must pay for its freedom? Star Trek: The Next Generation®—Humanity is a pitiful collection of enslaved, indentured, and abused peoples. No one dares to question the order,

except at peril of their lives. One man survives by blinding himself to the misery around him. However, Jean-Luc Picard resists, just once. And in that one instant he unlocks a horror beyond the tyranny of the Alliance. Can a man so beaten down by a lifetime of oppression stop the destruction?

The second novel in an epic crossover trilogy uniting characters from every corner of the Star Trek universe, revealing the shocking origin and final fate of the Federation's most dangerous enemy—the Borg. On Earth, Federation President Nanietta Bacco gathers allies and adversaries to form a desperate last line of defense against an impending Borg invasion. In deep space, Captain Jean-Luc Picard and Captain Ezri Dax join together to cut off the Collective's route to the Alpha Quadrant. Half a galaxy away, Captain William Riker and the crew of the Starship Titan have made contact with the reclusive Caeliar—survivors of a stellar cataclysm that, two hundred years ago, drove fissures through the structure of space and time, creating a loop of inevitability and consigning another captain and crew to a purgatory from which they could never escape. Now the supremely advanced Caeliar will brook no further intrusion upon their isolation, or against the sanctity of their Great Work. For the small, finite lives of mere mortals carry little weight in the calculations of gods. But even gods may come to understand that they underestimate humans at their peril.

Haunted by the vengeful campaign of Khan Noonien Singh, Admiral James T. Kirk returns to the desolate planet of Ceti Alpha V to uncover the truth about his exile and to discover what had ultimately driven him to madness. Original.

The first book in the 5 volume Demon Princes saga. The protagonist's parents were murdered by a posse of 5 galactic criminals, the "demon princes". He vows revenge, and eliminates them one by one. In the process Vance does what he excels at: creating strange worlds, environments, customs, and adaptations that humans have made to live in these conditions.

Returning to the story begun in the novel Immortal Coil and continuing in the

bestselling Cold Equations trilogy, this is the next fascinating chapter in the artificial life of one of Star Trek's most enduring characters. He was perhaps the ultimate human achievement: a sentient artificial life-form—self-aware, self-determining, possessing a mind and body far surpassing that of his makers, and imbued with the potential to evolve beyond the scope of his programming. And then Data was destroyed. Four years later, Data's creator, Noonien Soong, sacrificed his life and resurrected his android son, who in turn revived the positronic brain of his own artificial daughter, Lal. Having resigned his commission, the former Starfleet officer now works to make his way on an alien world, while also coming to grips with the very human notion of wanting versus having a child. But complicating Data's new life is an unexpected nemesis from years ago on the U.S.S. Enterprise—the holographic master criminal Professor James Moriarty. Long believed to be imprisoned in a memory solid, Moriarty has created a siphon into the "real" world as a being of light and thought. Moriarty wants the solid form that he was once told he could never have, and seeks to manipulate Data into finding another android body for him to permanently inhabit...even if it means evicting the current owner, and even if that is Data himself. ™, ®, & © 2013 CBS Studios, Inc. Headlong Flight

After facing the Borg menace, the crew of the U.S.S. Enterprise is looking forward to a little exploration when the enigmatic Q informs them that the universe is at stake if they don't unravel the mystery of a strange planet in this Star Trek: The Next Generation novel. Nearly two decades ago, Jean-Luc Picard took command of the U.S.S. Enterprise NCC-1701-D, knowing it was an honor without equal. On her first mission, the Enterprise was sent to Farpoint Station for a simple, straightforward investigation. Perfect for a crew that had never served together. Then there was Q; an omnipotent lifeform that seemed bent on placing obstacle after obstacle in the ship's—and in particular in Picard's—way. And it hadn't ended with that first mission. When he was least expected, Q would appear. Pushing, prodding, testing. At times needling captain and crew with seemingly silly, pointless, and maddening trifles. Then it would turn all too serious, and the survival of Picard's crew was in Q's hands. Why was it today that Picard was remembering the day he took command of the Enterprise-D? Now he commanded a new ship, the Enterprise-E, with a different crew. But

Picard couldn't shake the feeling that something all too familiar was going on. All too awful. All too Q.

On a routine mission to survey Domarus IV -- a class M world with no intelligent life -- a U.S.S. Enterprise™ shuttle crewed by Data, Troi and Wesley Crusher is captured by a race called the Tenirans who claim the world for themselves. As Captain Picard tries to negotiate with the captain of the Teniran ship, the shuttle suddenly disappears in a blaze of color and light. Picard demands to know what's happened to the shuttle and its crew, but the Tenarins deny any part in their disappearance. Suddenly, Captain Picard vanishes from the bridge and finds himself alone on the planet's surface with the Tenarin captain. As the two captains begin to work together, they realize that they are not alone on Domarus IV as they confront an incredible alien force with the power to transform a world -- or to destroy it.
