Defining the lives of a majority of the  
world's population, the question of 'the  
city' has risen to the fore as one the  
most urgent issues of our time & quote;  
uniting concerns across the terrain of  
climate policies, global financing,  
localised struggles and multi-disciplinary  
research. Deleuze and the City rests on a  
conviction that philosophy is crucially  
important for advancing knowledge on  
cities, and for allowing us to envisage  
new forms of urban life toward a more  
sustainable future. It gathers some of the  
most original thinkers and accomplished  
scholars in contemporary urban studies,  
showing how Deleuze and Guattari's  
philosophical project is essential for our  
thinking through the multi-scalar, uneven  
and contested landscapes that constitute  
'the city' today. Case studies range from  
the 'laboratory urbanism' of an Austrian  
ski resort and a 'sustainable' Swedish  
shopping mall to the 'urbicidal'

refurbishments of Haifa.

'A subtle and beautiful meditation' Sunday Times In Invisible Cities Marco Polo conjures up cities of magical times for his host, the Chinese ruler Kublai Khan, but gradually it becomes clear that he is actually describing one city: Venice. As Gore Vidal wrote 'Of all tasks, describing the contents of a book is the most difficult and in the case of a marvellous invention like Invisible Cities, perfectly irrelevant.'

*Nora e Nino, cugini che fino a quel momento non si sono mai frequentati, diventano amici per la pelle durante un'estate in Versilia. Nora, già adolescente, ha quattro anni più di Nino e sembra esattamente il suo opposto: brillante, estroversa, spericolata, bellissima. Eppure da quell'estate qualcosa continua a legare profondamente i due cugini anche negli anni a venire. Intanto il tempo passa e le vicende delle loro rispettive famiglie, sullo sfondo dell'Italia degli anni Cinquanta e Sessanta, si sviluppano in modi imprevedibili e bizzarri: gelosie, tradimenti, morti e successi economici sono la cornice variopinta e vivace nella quale Nora e Nino si perdono e si ritrovano, cambiano radicalmente – lui da ragazzino anonimo diventa un giovane uomo enigmatico e impenetrabile, mentre lei, animata da un sentimento di libertà e dalla voglia di scoprire il mondo, si trasferisce non ancora ventenne a Londra e quindi in America – eppure i due ragazzi si riconoscono sempre, nonostante ogni differenza, nonostante lei ora abbia un marito e lui si sia avvicinato a gruppi terroristici e non riesca ancora a trovare la propria strada nella vita, qualcosa che lo renda davvero felice. La cugina di Londra, scritto da Manlio Cancogni negli anni Settanta e rimasto in un cassetto fino alla sua riscoperta avvenuta il giorno del suo novantacinquesimo compleanno, è uno straordinario romanzo sull'adolescenza e la giovinezza di ieri e di oggi, la storia toccante e impietosa di un amore impossibile e però forte sopra ogni cosa, un magistrale apologo sulla ricerca della felicità e del proprio posto nel mondo.*

*Jacques de Pierre de Bar alias Giacomo Barri (ca. 1636-ca. 1690), giunto a Venezia da Lione all'età di quattro anni, fu un esponente significativo della scena artistica lagunare del Seicento maturo. Pittore copista, incisore d'après e scrittore d'arte, pubblicò nel 1671 il Viaggio pittoresco d'Italia: la prima guida "tascabile" alla pittura dei grandi maestri italiani, che fu presto tradotta a Londra nel 1679, a cura dell'incisore William Lodge di Leeds. Il lavoro è articolato in due sezioni. La prima è strutturata come una monografia d'artista con la ricostruzione delle vicende biografiche di Barri, della rete di committenze e del catalogo delle opere. La seconda parte propone un'edizione critica e commentata dell'ormai rarissimo Viaggio pittoresco e della sua traduzione inglese The Painters Voyage. L'innovativa creazione editoriale di Barri, già segnalata nella poderosa Kunstliteratur di Julius von Schlosser come il primo vero e proprio episodio della "letteratura dei Ciceroni", ma da allora rimasta inesplorata, divenne un utile strumento di viaggio per gli amatori e curiosi d'arte, così come, in traduzione, la prima guida tascabile per gli aristocratici europei invaghiti dell'Italia e della sua pittura, agli esordi del Grand Tour.*

Philip Roth is the voice of our times. In a sequence of intimate conversations with some of the most influential and insightful writers of the twentieth century, Roth explores the importance of region, politics and history in their work and that of their predecessors. What qualities helped Primo Levi survive the demented laboratory of Auschwitz? What does Milan Kundera make of being denounced as a subversive writer in communist Czechoslovakia? What does Edna O'Brien think drove generations of Irish writers into exile? Between colleagues and friends there is a startling candour seldom found in formal interviews, a sense that the

guard is dropped, the ideas unbounded, as the conversations crackle with an urgency of ideas. Shop Talk is a literary symposium of the highest calibre, profoundly revelatory and consistently enlightening. Guanciaie derba narra di un giovane artista, pittore e poeta, che si avventura per un ameno sentiero di montagna di un piccolo villaggio giapponese. Lungo il cammino, in unatmosfera incantata, incontra viandanti solitari, contadini, paesani, nobili a cavallo e ogni specie dumanità, finché è, sorpreso dalla pioggia, si rifugia in una piccola casa da tè tra i monti. Qui, dalla dolce voce della vecchia tenutaria, apprende la storia della fanciulla di Nakoi, che ebbe la sfortuna di essere desiderata da due uomini e andare in sposa a quello che lei non amava. Il giorno in cui partì, il suo cavallo si arrestò sotto il ciliegio davanti alla casa da tè, e dei fiori caddero qua e là, come macchie sul suo candido vestito. Come un viandante qualsiasi, col suo guanciaie derba insieme, il cuscino di chi va per il mondo e una grande metafora del viaggio di ogni uomo alla ricerca di se stesso l'artista raccoglie questa e altre meravigliose storie lungo il suo peregrinare, semplicemente per ubbidire al suo modesto e sublime compito: « rasserenare il mondo e arricchire il cuore degli uomini ». Dall'autore di Io sono un gatto una delle opere fondamentali della moderna letteratura giapponese. « Una vetta tra le grandi pagine lasciate da passeggiatori solitari e viandanti letterari: da Rousseau fino a Walser o Jung o Giono ». Reminiscent of Scheherazade and One Thousand and One Nights, Gianni Rodari's Telephone Tales is many stories

within a story. Every night, a traveling father must finish a bedtime story in the time that a single coin will buy. One night, it's a carousel that adults cannot comprehend, but whose operator must be some sort of magician, the next, it's a land filled with butter men who melt in the sunshine. Awarded the Hans Christian Anderson Award in 1970, Gianni Rodari is widely considered to be Italy's most important children's author of the 20th century. Newly re-illustrated by Italian artist Valerio Vidali (*The Forest*), *Telephone Tales* entertains, while questioning and imagining other worlds.

*Global Urbanism* is an experimental examination of how urban scholars and activists make sense of, and act upon, the foundational relationship between the 'global' and the 'urban'. What does it mean to say that we live in a global-urban moment, and what are its implications? Refusing all-encompassing answers, the book grounds this question, exploring the plurality of understandings, definitions, and ways of researching global urbanism through the lenses of varied contributors from different parts of the world. The contributors explore what global urbanism means to them, in their context, from the ground and the struggles upon which they are working and living. The book argues for an incremental, fragile and in-the-making emancipatory urban thinking. The contributions provide the resources to help make sense of what global urbanism is in its varieties, what's at stake in it, how to research it, and what needs to change for more progressive urban futures. It provides a heterodox set of approaches and theorisations to probe and provoke rather than aiming to draw a line under a complex, changing and profoundly contested set of global-urban processes. *Global Urbanism* is primarily intended for scholars and graduate students in geography, sociology, planning, anthropology and the field of urban studies, for

whom it will provide an invaluable and up-to-date guide to current thinking across the range of disciplines and practices which converge in the study of urbanism.

Quante vite si nascondono in una sola? È la domanda che assilla Lyman Ward, malato e in esilio volontario nella casa di famiglia a Grass Valley, California. Alle spalle ha una brillante carriera universitaria e una vita appagante. Ora che ha perso tutto, un istinto primordiale lo spinge a cercare una risposta — un principio di ordine — tra le carte lasciate in quella casa da sua nonna, Susan Burling Ward, artista e scrittrice. Emerge così il mosaico di una vita consumata tra i paesaggi sconfinati del West della corsa all'oro, al fianco di uno sfortunato ingegnere minerario cui la legavano un matrimonio difficile e un sentimento contraddittorio e profondo. Susan è di volta in volta moglie docile, indomita pioniera, ospite perfetta, madre ansiosa, artista apprezzata, compagna ribelle, amante delusa, stoica custode di una famiglia. Intorno a lei ruota un universo di equilibri e affetti che un solo passo falso potrebbe infrangere per sempre. Tra le catastrofi e i miracoli che costellano la vita di Susan, Lyman ritrova il filo della propria, e la risposta che stava cercando. Un grande romanzo americano che ribalta il logoro mito del vecchio West e ne rivela l'essenza profonda: l'ultima vera cornice epica a disposizione del mondo contemporaneo.

From its origins as a distinct set of ritualised practices in the sixteenth century to its international expansion in the twentieth, tea culture has had a major impact on artistic production, connoisseurship, etiquette, food, design and more recently, on notions of Japaneseness. The authors dispel the myths around the development of tea practice, dispute the fiction of the dominance of aesthetics over politics in tea, and demonstrate that writing history has always been an integral part of tea culture.

It is well known that the world is transitioning to an irrevocable urban future whose epicentre has moved into the cities of Asia and Africa. What is less clear is how this will be managed and deployed as a multi-polar world system is being born. The full implications of this challenge cry out to be understood because city building (and retrofitting) cannot but be an undertaking entangled in profound societal and cultural shifts. In this highly original account, renowned urban sociologists AbdouMaliq Simone and Edgar Pieterse offer a call for action based fundamentally on the detail of people's lives. Urban regions are replete with residents who are compelled to come up with innovative ways to maintain or extend livelihoods, whose makeshift character is rarely institutionalized into a fixed set of practices, locales or organizational forms. This novel analytical approach reveals a more complex relationship between people, the state and other agents than has previously been understood. As the authors

argue, we need adequate concepts and practices to grasp the composition and intricacy of these shifting efforts to make visible new political possibilities for action and social justice in cities across Asia and Africa.

A lyrical memoir by one of the major figures of postmodernist architecture; with drawings of architectural projects prepared especially for the book. This revealing memoir by Aldo Rossi (1937–1997), one of the most visible and controversial figures ever on the international architecture scene, intermingles discussions of Rossi's architectural projects—including the major literary and artistic influences on his work—with his personal history. Drawn from notebooks Rossi kept beginning in 1971, these ruminations and reflections range from his obsession with theater to his concept of architecture as ritual.

In a quiet holiday town in the Italian Apennines, during a torrid summer, a string of gruesome deaths stirs up trouble in the local community. Invoking the notion of 'cosmopolitics' from Bruno Latour and Isabelle Stengers, this volume shows how and why cities constitute privileged sites for studying the search for and composition of common worlds of cohabitation. A cosmopolitical approach to the city focuses on the multiple assemblages of human and nonhuman actors that constitute urban common worlds, and on the conflicts and compromises that arise among different ways of assembling the city. It brings into view how urban worlds are always in the process of being subtly transformed, destabilized, decentred, questioned, criticized, or even destroyed. As such, it opens up novel questions as to the gradual and contested composition of urban life, thereby forcing us to pay more explicit attention to the politics of urban assemblages. Focusing on changing sanitation infrastructures and practices, emerging forms of urban activism, processes of economic restructuring, transformations of the built environment, changing politics of expert-based urban planning, as well as novel practices for navigating the urban everyday, the contributions gathered in this volume explore different conceptual and empirical configurations of urban cosmopolitics: agencements, assemblies, atmospheres. Taken together, the volume thus aims at introducing and specifying a novel research program for rethinking urban studies and politics, in ways that
