conservation becoming their dominant survival strategy? This book is a collection of essays that examines some of the changes in the activities, role, function and self-perception of Italian intellectuals since World War II (two major divides are considered to be the crisis of 1956–7 and the fall of the Berlin Wall). The first section examines some of the most influential figures in the early decades, the second the activities of contemporary intellectuals, a third gives voice to some contemporary writers, a fourth contains some comparative essays about the role of intellectuals in influential contemporary Western cultures and a final section is devoted to some cross-disciplinary forays and reflections on the relevance and possible future directions of these inquiries.

the Homeless in Miami is a collection of interviews with 28 homeless individuals living in downtown Miami and Miami Beach. Besides extensive photographs of these people and their lives on the street, the book also includes interviews with social service providers, as well as a detailed analysis of homelessness in the United States and more specifically in Miami. The work concludes with a policy analysis and suggestions for addressing issues of homelessness in Miami and the nation. StreetWays attempts to make clear how and why homelessness occurs, and what the actual lives and experiences of the homeless are about. Through extensive interviews and extensive

bride, Shane. Unfortunately, Shane is adored not only by Roberto, but also by an unlikely admirer with the potential to destroy them all.

Unaware that danger lurks in the shadows, Roberto and Shane live seemingly ordinary lives in a large villa in Monte Cristi, where they have raised their three children, twins Frederik and Enrique and their younger sister, Camille.

Housed behind their villa is the headquarters of the world-famous group of specially trained bodyguards called Da Elegidos, the brainchild of Ramon Rubenstein, the eccentric family bodyguard who has been with the Castanedas for over twenty-five years and who is

now husband to their daughter, Camille. But when Sierra Castille, an extremely dangerous she-devil, moves in next door to the Castenedas, no one has any idea of the power behind her poisonous tentacles. In this continuing tale of life, unconditional love, tragedy, and death, the one forever tortured by forbidden love for the woman he cannot have is about to make a move that will change everything. The Talismans of the Kings of Romez is a multi-book series that chronicles mysterious events that begin to unfold on Romez, entangling each of the kingdoms in difficulties that lead them towards an uncertain destiny. These begin

with the sudden unsealing of ancestral talismans, leading to the intervention of specific characters who cause the ensuing events. The series includes several volumes, each of which explain the events occurring in one or more kingdoms. These events are recorded by the Great Soul of Antelam, the ancient historian and scholar of Romez, who has been recording its events since the world's formation. He lives beneath the surface, unseen by any of the planet's inhabitants. The first volume of this exciting series, The Eagle Dragons, documents events that unfold in Santilan and Enestera. The story begins in Santilan, where greedy Quadera

Rodavas, who was appointed caretaker of Castle Black by King Jannes, has recently fled when Helerant captured the Castle. After his failure, Quadera begins looking for a legendary cave, and finally locates it with the help of a friend. He discovers a mother lode of thermal diamonds covering a viable clutch of eggs of the extinct Eagle Dragons, which have been gone for millennia. His avarice, and the determination of other characters in the story to own or sell the precious diamonds and eggs, sends Santilan careening down a perilous path toward an unknown destination. Meanwhile, Enestera is undergoing massive changes. The

Enesterans worship the gods of the Jahsar and Velanis Mountains. In the past, a sorcerer they consider their common ancestor, Sholrus, used a magical tool called The Four Mirrors to hide his bodily organs in the Velanis range to protect them from the passage of time. He lived for six hundred years until he was incidentally killed with the magic sword Dragal, and buried on the tallest peak, Mount Velanis. There are a number of effectively magical items in Enestera, for whose possession most of the local kings and princes hatch plots. One of them is Tedora Ardelan, a grandson of Rennes of Riklasta, who paves the way to infiltrate
