Sam Begay had left his job as a Navajo Law and Order officer with no regrets. He had just closed the biggest case to ever hit the reservation, and what did it get him; a reprimand for his stubborn tenacity and willingness to step on a few toes. Now that he had quit, he was going to finish the job as a civilian. How had a mythical creature from tribal legends come to life to stalk the reservation in the first place? When reports of brutal killings came in again, regardless of the danger, he knew he had to stop the menace for good. His only clue; a photograph of a lava rock with an unusual petroglyph etched on the surface. Was it a representation of a costumed, ceremonial dancer, or a warning about an ancient horror with an insatiable hunger for human flesh?

Odyssey of a Liberian Village Boy By: Nyankun Thomas Odyssey of a Liberian Village Boy is the journey of Nyankun Thomas as a person and also his adventure through childhood, from Liberia to the United States, all of his trials and tribulations. Readers can hopefully learn from his experiences and make better choices in their own lives. Life is about falling down and getting back up. One should never be afraid of failure. Prayers were sought for a mate who would love her as much as she had him. Reluctant to go to the not so nice seen of the bar theme, told God he would have to place him on her lap had not anticipated this man to be the one who could make her life miserable. Taking away the little monies she received from an

accident, her struggles in life was nothing compared to the hell she was to face. Sure there was a brief period of happiness but hell was soon placed at her feet leaving her to ask the question: had her prayers been answered by God or Satan himself?

Nagai Kafu was one of the most important Japanese writers of fiction during the first half of the twentieth century known for his evocative descriptions of the moods and fancies of Tokyo: its gardens and canals, its streets and alley people, and above all its women - especially the kept women, geisha, and prostitutes. *During the Rains* and *Flowers in the Shade*, which appear here in English for the first time, are set in the Tokyo of the 1930's. Most of the seedy neighborhoods that Kafu so lovingly describes have long since vanished, either in the bombing raids of 1945 or in the rebuilding that followed. Kafu's sympathies are clearly with the women that figure in these stories. A man wedded to the past, happy in retrospect, Kafu saw in the world of the demimondaine the last tattered vestiges of the old Tokyo, when it was called *Yamanote*. He also saw in their day-to-day life the only honest way to live, the love with the least falsehood, in a materialistic, hypocritical society. *During the Rains* (1931) is the story of the vicissitudes of an amiable and lascivious Ginza cafe girl. It is considered to be among Kafu's masterpieces by many writers, critics, and scholars, including Donald Keene: "One of Kafu's finest achievements....The exceptional praise that *During the Rains* won from discriminating critics was occasioned chiefly by its novelistic interest. The detached analysis of a group of people makes the story read like a work of French Naturalism. A few passages...evoke the beauty of place and season in the typical Kafu manner." *Flowers in the Shade* might also be called a continuation of *During the Rains*. Its hero, kept by a wealthy woman in his student days, ends up in his fortitude supported by a prostitute. Donald Keene says that Kafu "makes us see and all but smell the dingy rooms he describes without ever allowing us to pass judgment on them or their inhabitants. Kafu neither approves or disapproves of his characters, and if he tells us in detail about their past it is not in order to demonstrate how environment and heredity

determined their lives...but to assuage our curiosity as to how Jukichi came to live off women, how a particular woman happened to become a prostitute or a procuress, and so on." The present volume contains a Preface by the translator which briefly summarizes Kafu's life and career.

James R. Walker was a physician to the Pine Ridge Sioux from 1896 to 1914. His accounts of this time, taken from his personal papers, reveal much about Lakota life and culture. This third volume of previously unpublished material from the Walker collection presents his work on Lakota myth and legend. This edition includes classic examples of Lakota oral literature, narratives that were known only to a few Oglala holy men, and Walker's own literary cycle based on all he learned about Lakota myth. Lakota Myth is an indispensable source for students of comparative literature, religion, and mythology, as well as those interested in Lakota culture.

Imagine if you could remember your past lives. Through a twist of fate, Elexia did just that. She would remember when and where she'd been born, how she'd grown up, the friends she'd known, the things she'd seen...even the way she'd died. She would remember different husbands, children, wars, different cultures and the changing of societal conventions of lives that would span centuries. And threaded throughout each life, was her one constant, her guardian over time, a man to whom Elexia had known from an era long past, who would remain frustratingly out of reach, a wandering soul, destined to remain on the outer rim, neither in this world or the next, waiting until such time as they would both, at last, be free.

Sketches of Ceylon and India: From the Travel Notes of a Russian is the English translation, a long-felt desideratum, of the report originally written in Russian and published in 1878 by

Professor Ivan Minayev on his first trip to Ceylon, India and Nepal in 1874-75. Of the three foreign trips, the first trip of Ivan Minayev to the East is particularly interesting for Orientalists. This trip was important both for the scholar himself and for the development of Indology as a whole. This report contains not only detailed information on archaeological discoveries and description of architectural and historical monuments but a spate of interesting observations and conclusions related to the daily life of the peoples inhabiting these countries. Minayev's personal pieces of evidence of those distant times, based on the stable academic foundation, unlike various contemporary travelogues that abound in distorted judgments and biased observations, are indeed very rare and hence one cannot overestimate their value.

Nepali has also been adopted by peoples of the Himalayan region who belong to different linguistic groups, and is now

understood throughout the whole of Nepal, the Darjeeling region of West Bengal, Sikkim, Bhutan and parts of Tibet, where it has functioned as a language of trade and commerce for well over two centuries. The aim of this course, which covers the whole grammar and all the constructions of modern Nepali, is to present a full description of both the spoken and written forms of modern standard Nepali, and to enable the student to understand, speak and read most types of Nepali he or she is likely to encounter. The earlier lessons concentrate mainly on the spoken style, and the conversation passages whilst the later lessons concern religious, political and literary topics. Nepal is a land which already provides great enjoyment to the increasing number of visitors from the west. A knowledge of the language leads to a deeper understanding of the culture of its people, and the object of A Course in Nepali is to provide the means of learning it without much difficulty. Earlier editions of this course have been the standard book for students at the School of Oriental and African Studies, and it is without question the established market leader.

For the first time in English, the secrets of the sacred sounds that unlock the principles and spiritual strength of aikido • Explains the nature of the five vowels that govern the physical manifestations of universal consciousness • Uses more than 300 photographs to demonstrate a unique approach to aikido techniques that supports advanced spiritual practice • Author is a 6th dan aikido instructor Aikido founder Ueshiba Morihei described the discipline as one spirit, four souls, three origins, and eight powers. One spirit and four souls are the five vowel dimensions of infinite space, the source of the sacred sounds of Kototama. Now, for the first time in English, William Gleason explains how to use the sounds of Kototama in the practice of aikido. Aikido is often approached as a purely physical discipline, but it is a truly profound spiritual vehicle for those who approach it with sincerity of purpose. The five vowels represent various dimensions and stages of awareness, whose different powers are revealed through aikido practice. Using more than 300 photographs, Gleason sensei presents physical routines that provide an introduction into the Kanagi, Sugaso, and Futonorito levels of spiritual development. Understanding the sacred sounds related to each of these dimensions, the adept gains not only the ability to realize the stages inherent in spiritual mastery but also the ability to maintain health and balance in his or her own life. "When fish move through water, there is no end to the water; when birds fly, there is no end to the sky." Similarly, humans swim and fly in an ocean of sounds. Understanding Kototama allows human beings to view the world without distortion and allows the creative powers of the mind to flourish.

Return once again to Demongate High, the only supernatural high school on Earth. If you went there for three years, then were forced to attend a regular high school, where no one had powers, you would be depressed too. Dean certainly is. But the supernatural world is everywhere, and as chaos grows, more and more improbable things start happening. Martin DeVille is none too pleased with Dean, who keeps making talismans for his friends. After all, he is the greatest talisman maker on Earth, and he's still just a kid. His creations are much more powerful than they have a right to be, and that makes the Foundation just a little bit nervous. After all, what if he decides to take over?

A comprehensive, one-year introductory textbook for Tagalog, the language spoken in the Philippines. Beginning Tagalog has been designed to meet the specific needs of adult native speakers of English who wish to learn spoken Tagalog, though students with other language backgrounds may be able to follow the course with profit. With fairly intensive class scheduling, and assuming laboratory assignments and home study, the text can be covered in one academic year. The text is designed to accomplish two aims. The first is to impart oral control of Tagalog and, by means of an acquaintance with the major patterns of the language, to provide the means for additional independent study that will lead to a full mastery of the structures and a vocabulary that is sufficiently broad to meet the needs of most students. The second aim is to provide accurate, up-to-date information about the patterns of Filipino culture that will enable a student to understand the social customs, standards, values, and aspirations of the Filipino people, in order to prepare him for sympathetic, enlightened, and useful participation in the context of Filipino society. . . . The text consists of 25 units and appendices. In the first half of the text, the student plays the part of hearer and speaker, with only incidental reading of oral dialogs and drills. From Unit XIII on there is a reading section designated for each unit, correlated with the primarily spoken materials, but designed to promote facility in the orthography and distinctive patterns of the written language. . . The basic format is as follows: A. Basic Dialog B. Cultural and Structural Notes C. Pronunciation Exercises (to Unit XIII) D. Drills and Grammar E. Cumulative Drills F. Visual-Cue Drills G. Comprehension-Response Drills H. Readings (from Unit XIII)"

The Dakota people, alternatively referred to as Sioux Native Americans or Oceti Sakowin (The People of the Seven Council Fires), have a storied history that extends to a time well before the arrival of European settlers. This work offers a comprehensive history of the Dakota people and is largely based on eyewitness accounts from the Dakota themselves, including legends, traditions, and winter counts. Included are detailed analyses of the various divisions (tribes and bands) of the Dakota people, including the Lakota and Nakota tribes. Topics explored include the Dakotas' early government, the role of women within the Dakota tribes, the rituals and rites of the Dakota people, and the influence of the white man in destroying Dakotan culture.

The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.

A dualism between man and nature has been a persistent feature of Western thought and spirituality from ancient times to the present. The opposition of mind and body, consciousness and world has tended to obscure the ways in which humans are ecologically part of interconnected systems, some of which are obvious while others operate in hidden but life-sustaining ways. Cultural Landscapes explores the physical ways in which we are intimately linked to the land and the intellectual and aesthetic connections human consciousness has with the landscape. Following the editor's introductory essay, the lead article by Jame Schaeffer, "Quest for the Common Good: A Collaborative Public Theology for a Life-Sustaining Climate," assesses the lightning rod issue of global warming in the context of a public and ecumenical theology and sets the tone for this normative assessment of our relationship with nature. Likewise, David Kenley's essay, "Three Gorges be Dammed: The Philosophical Roots of Environmentalism in China," reveals the traditional philosophical and cultural values that can sustain a vital environmentalism in the East. David Brown's historical insights into the use of the

American landscape to define historical writing complement Patricia Likos-Ricci's historical treatment of nineteenth-century landscape painting and the first call to preserve wilderness in the United States. Matt Willen, "An Feochn," and David Martinez, "What Worlds are Made of: The Lakota Sense of Place," both demonstrate how space is transformed into place through song and mythic tales. On a metaphysical note, Andreas Philippopoulos-Mihalopolos' essay "On the Line of the Horizon, Anxiety in de Chirico's Metaphysical Spaces," provides the reader with psychological and existential insights into the disorienting paintings of de Chirico, and Gabriel Ricci's concluding essay tours the landscape that underpins Heidegger's ontological speculations. The contributions to this volume are posited on the belief that culture, society, and human history are ultimately rooted in the natural world. This integration may explain why humanity has always looked to nature for moral and ethical guidelines. Gabriel R. Ricci is associate professor of humanities and the chair of the Department of History at Elizabethtown College in Pennsylvania. He is the author of Time Consciousness: The Philosophical Uses of History, published by Transaction.
