A comprehensive work on the metaphysical aspects of sexuality. Julius Evola sheds new light on the mystical and spiritual expression of sexual love. This in-depth study explores the sexual rites of sacred traditions, and shows how religion, mysticism, folklore, and mythology all contain erotic forms in which the deep potentialities of human beings are recognized.

From the Ordo Templi Orientis (OTO)'s infiltration of Freemasonry to the real Priory of Sion, this book exposes not only the hidden structure of the New World Order and the occult practices but also their connections to the intelligence community and the infamous Ur-Lodges.

*energy and that Man is an energy unit affected from both without and within. It demonstrates that Ray Psychology is essentially practical and shows how the qualities of these energies may be understood and embraced in human behaviour and today's language. It is plain that psychology will play an ever increasing role in the development of new age consciousness. Already today millions of people, who would be regarded as laymen, practise their own psychology in everyday life. This tendency has been boosted by the general interest in astrology. A glimpse into the future will show that the new psychology will be based on many emerging astrological factors. Esoteric psychology takes into account not only hereditary and environment, but draws also upon*

psychic and spiritual nature of Mankind.*

*The effect of karma, the influence of  
previous lives, etc., are major  
contributions to the behaviour of those  
who seek to tread the path towards  
spiritual enlightenment. Esoteric  
Psychology is based on two major  
precepts. Firstly, there is a cosmic force  
conveying seven streams of energy into  
our solar system that affect the nature,  
behaviour and evolution of all forms  
within the ring-pass-not of this system.  
These streams are termed the Seven  
Rays. Secondly, spiritual qualities  
emerging from the immortal component  
of Man's structure affect his behaviour  
and modify the contributing factors of  
his hereditary equipment and the  
environment into which it is thrust.*
