The classic story by E. B. White, author of the Newbery Honor Book Charlotte's Web and The Trumpet of the Swan, about one small mouse on a very big adventure. Now available as an ebook! Illustrations in this ebook appear in vibrant full color on a full-color device and in rich black-and-white on all other devices. Stuart Little is no ordinary mouse. Born to a family of humans, he lives in New York City with his parents, his older brother George, and Snowbell the cat. Though he's shy and thoughtful, he's also a true lover of adventure. Stuart's greatest adventure comes when his best friend, a beautiful little bird named Margalo, disappears from her nest. Determined to track her down, Stuart ventures away from home for the very first time in his life. He finds adventure aplenty. But will he find his friend? Stuart Little joins E. B. White favorites Charlotte's Web and The Trumpet of the Swan as classic illustrated novels that continue to speak to today's readers. Whether you curl up with your young reader to share these books or hand them off for independent reading, you are helping to create what are likely to be all-time favorite reading memories.

It is a sport of balletic beauty and extraordinary violence - where else are you allowed to strangle an opponent unconscious? When Mark Law joined his local judo club he found himself able to observe at close quarters the sport practised at its highest level, as figures, grappled, whirled and flew through the air. His journey into judo then took him to Osaka, Japan, for the World Championships and to Athens for the Olympics. He explored the sport's origins in seventeenth-century Samurai culture and met some of the most single-minded and self-denying competitors of all time. Funny, alarming and mesmerising, The Pyjama Game is one of the best sports books of recent years. 'This is damn fine stuff, and will entertain and enlighten an audience far beyond the confines of the dojo' Daily Telegraph 'It's lively, it's witty and, above all, so persuasively enthusiastic you'll find yourself feeling an intense urge to try it for yourself' Mail on Sunday

Kenn Nesbitt returns with another round of the ridiculous rhymes, wacky wordplay, and preposterous punchlines that kids love to read. My Cat Knows Karate includes seventy new poems about goofy gadgets, kooky characters, funny families, absurd situations, and much, much more.

Once upon a time, there lived Cinderella - a little boy, forever bossed around by his two older brothers, Gus and Gareth. "Turn up the TV! Shine our scooters!" the brothers cry. "Finish our homework!" But on the day of our story, Kayleigh, the town's kick-fastic karate champion, is having a party, and Cinderella is determined to dream big, dress fancy and DANCE. He'll just need a little help along the way from his fairy dog-mother, Ruff - woof! A feel-good twist on the classic fairytale, brought to life with fresh vision and huge humour by Matt Hunt.

The Armpit of Doom

Centuries of self-imposed isolation have transformed Nulapeiron into a world unlike any other - a world of vast subterranean cities maintained by extraordinary organic technologies. For the majority of its peoples, however such wonders have little meaning. Denied their democratic rights and restricted to the impoverished lower levels, they are subjected to the brutal law of the Logic Lords and the Oracles, supra-human beings whose ability to truecast the future maintains the status quo. But all this is about to change. In a crowded marketplace a mysterious, beautiful woman is brutally cut down by a militia squad's graser fire. Amongst the horrified onlookers is young Tom Corcorigan. He recognizes her. Only the previous day she had presented him with a small, seemingly insignificant info-crystal. And only now, as the fire in the dying stranger's obsidian eyes fades, does he comprehend who - or what - she really was: a figure from legend, one of the fabled Pilots. What Tom has still to discover is that his crystal holds the key to understanding mu-space, and so to freedom itself. He doesn't know it yet, but he has been given a destiny to fulfill - nothing less than the rewriting of his future, and that of his world...

Spectacularly staged, thrillingly written and set in a visionary future, Paradox places John Meaney at the forefront of science fiction in this new century.

What if just about everything you thought you knew about supplements and health turned out to be... absolutely wrong? Nutrition expert Dr. Brian Clement, director of the world-famous Hippocrates Health Institute, explores the various myths that have made supplements a "buyer beware" industry. Supplements Exposed strips away layers of deception to reveal the truth about what millions of supplement users each year have taken for granted. For the first time, you will learn how: * Nearly all supplements sold in the United States and the world are synthetics created in pharmaceutical industry labs. As a result, they can be toxic to your health. * There are distinct differences between natural (plant-derived) supplements and synthetic (chemically-derived) supplements and how they each impact your health. * Nearly all medical

science studies of nutrients and human health have used synthetics rather than natural nutrients, which throws the accuracy of all negative laboratory results into serious doubt. This provocative book guides you through the minefield of choices you face every time you buy vitamins and minerals. It shows you how to decipher product labels that are otherwise deceptive, how to choose naturally occurring (plant-derived) supplements, why recommended daily allowances spread confusion, and much more.

Yet every day, he leaves his tiny room in Chinatown and enters the Golden Palace restaurant where Black and White, a procedural cop show, is in perpetual production. He's a bit player here, too, but he dreams of being Kung Fu Guy—the most respected role that anyone who looks like him can attain. Or is it? It was July 2002 and Scott Langley had just graduated from the Japanese Instructors' Course in Tokyo. He returned to Europe with a mandate to build a strong karate group in the UK and Ireland. In a decade that witnessed the implosion of most groups, he built up one of the largest organizations in Europe: but his success at home set him on a collision course with his seniors back in Japan. Karate Clever chronicles how, through diplomacy and cooperation, he managed to find a new way to steer one of the most successful karate organizations active today. This is the true story of one man's journey through the highs and lows of the contemporary karate world.

'A literary masterpiece . . . at once erudite and intimate, reflective and funny . . . it has the grit and pace of a thriller' Daily Telegraph A novel of high adventure, great storytelling and moral purpose, based on an extraordinary true story of eight years in the Bombay underworld. 'In the early 80s, Gregory David Roberts, an armed robber and heroin addict, escaped from an Australian prison to India, where he lived in a Bombay slum. There, he established a free health clinic and also joined the mafia, working as a money launderer, forger and street soldier. He found time to learn Hindi and Marathi, fall in love, and spend time being worked over in an Indian jail. Then, in case anyone thought he was slacking, he acted in Bollywood and fought with the Mujahedeen in Afghanistan . . . Amazingly, Roberts wrote Shantaram three times after prison guards trashed the first two versions. It's a profound tribute to his willpower . . . At once a high-kicking, eye-gouging adventure, a love saga and a savage yet tenderly lyrical fugitive vision.' Time Out

I started writing articles when I was twenty-two years old - what did I know? Four short years earlier my A Level history teacher had called me semi-illiterate after I handed in a sloppily written essay. However, youth is wasted on the young and wisdom is wasted on the old. With childlike enthusiasm I set about publishing my thoughts and ideas. As age tried to crow-bar a little wisdom into me, the topics I focused on and the beliefs I formulated changed. So too, did my writing. For this book I have cherry-picked thirty-five articles, spanning twenty-three years. They are the musings of an insomniac's mind. I hope they shed a little light on how I have bumbled along the way and endeavoured to create my own version of Shu-Ha-Ri.
