Covering a wide range of topics, this collection of original essays deals with the consequences and challenges of our growing aging population on society. It emphasizes aging as a developmental process while addressing the future of the practice of geropsychiatry and geriatric psychotherapy. This book serves as a valuable resource to guide clinical training, practice, and research on aging into the next century and beyond.

What is lesbian beauty? Lesbians, Levis, and Lipstick: The Meaning of Beauty in Our Lives explores the many definitions of beauty among lesbians by discussing the norms they create and follow. In addition, it questions how these standards are influenced by heterosexual concepts of beauty. Here you'll find essays, poems, and research papers from women who describe some of the freeing and restrictive aspects of lesbian beauty. Lesbians, Levis, and Lipstick: The Meaning of Beauty in Our Lives examines the way lesbians define and explore the notion of beauty. Through moving, personal stories and well-represented research, this book leads the reader on a path of exploration about beauty norms and the way they liberate and confine lesbians. This sometimes humorous book is an in-depth and insightful examination of beauty practices and how lesbians use them as an expression of style and image and as a means of identifying one another. Compelling topics include: lesbians' diverse expressions and understandings of beauty the gender of a bisexual woman's partner and how it impacts her beauty routines and self-image beauty standards of older lesbians and how their views on the qualities of potential partners and on their own partners change as they age the beauty standards of lesbian and bisexual women of color pressures on lesbians to be thin and how this affects their feelings about their bodies and themselves feminism and its potential role in protecting women from eating disorders and negative body image Personal, intelligent, and informative, Lesbians, Levis, and Lipstick gives you insight into the meanings of lesbian beauty. Emphasizing strength, confidence, and self-acceptance as attractive qualities, this uplifting book will help you realize your own beauty and give you a new freedom to experiment with fresh expressions of it.

This resource for counselors who work with lesbian couples gives a clear assessment of the issues faced in working through their relationship within the context of their sexuality and society's oppression of lesbians. The purpose of the Counseling and Pastoral Theology series is to address clinical issues that arise among particular populations currently neglected in the literature on pastoral care and counseling. This series is committed to enhancing both the theoretical base and the clinical expertise of pastoral caregivers by providing a pastoral theological paradigm that will inform both assessment and intervention with persons in these specific populations.

Gender, Health, and History in Modern East Asia

Lesbian and Gay Memphis

The First Generation

**This groundbreaking volume captures and analyzes the exhilarating and at times disorienting experience when scientists, government officials, educators, and the general public in East Asia tried to come to terms with the introduction of Western biological and medical sciences to the region. The nexus of gender and health is a compelling theme, for this is an area in which private lives and personal characteristics encounter the interventions of public policies. The nine empirically based studies by scholars of history of medicine, sociology, anthropology, and STS (science, technology, and society), spanning Japan, Korea, China, Taiwan, and Hong Kong from the 1870s to the present, demonstrate just how tightly concerns with gender and health have been woven into the enterprise of modernization and nation-building throughout the long twentieth century. The concepts of “gender” and “health” have become so commonly used that one might overlook that they are actually complicated notions with vexed histories even in their native contexts. Transposing such terminologies into another historical or geographical dimension is fraught with problems, and what makes the East Asian cases in this volume particularly illuminating is that they present concepts of gender and health in motion. The studies show how individuals and societies made sense of modern scientific discourses on diseases, body, sex, and reproduction, redefining existing terms in the process and adopting novel ideas to face new challenges and demands. “Whether reviewing the comparative national histories of birth control, debating early cases of transsexual surgery, or highlighting the resurgence of ‘traditional’ Asian medical commodities, this volume provides accessible and productive studies on these intriguing topics in Asia. Scholars of modern East Asia and indeed anyone concerned with the analysis of gender and health in light of intersecting postcolonial studies will find the book rewarding.” —Rayna Rapp, New York University “A bold and important volume that explores the interweaving of gender, body, and modernity throughout East Asia. With vivid articles on sexuality, reproductive technologies, and sexual identities, the book opens multiple possibilities for how ‘Asia as method’ can shine new light on persistent theoretical questions from biopower to biocitizenship.” —Ruth Rogaski, Vanderbilt University**

**This book reflects the editors' concerns that too many public discussions of education are dominated by too few ideas, and is intended to serve as a kind of handbook for those who wish to enter the conversation about education. A work of impressive scholarship accessible to the general reader. A unique collection of essays written by internationally recognized and emerging thinkers from the field of education and related disciplines. Contributors, among others, include Anthony Appiah (Princeton); Seyla Benhabib (Yale); Eamonn Callan (Stanford); Joseph Dunne (St. Patrick's College, Ireland); Kieran Egan (Simon Fraser); Ursula Franklin (Toronto); Nel Noddings (Stanford); Martha Nussbaum (Chicago) and Diane Ravitch (New York)**

Features discussions of S/M sex, lesbian ethics, lesbian desire, bisexuality, and includes a bibliography of lesbian criticism. This work contains essays that explore the diverse positive understandings of 'lesbian philosophy', from contested sexual behaviours such as pornography and sadomasochism to the meaning of 'lesbianism'.

The office of rabbi is the most visible symbol of power and prestige in Jewish communities. Rabbis both interpret to their congregations the requirements of Jewish life and instruct congregants in how best to live this life. **Lesbian Rabbis: The First Generation** documents a monumental change in Jewish life as eighteen lesbian rabbis reflect on their experiences as trailblazers in Judaism's journey into an increasingly multicultural world. In frank and revealing essays, the contributors discuss their decisions to become rabbis and describe their experiences both at the seminaries and in their rabbinical positions. They also reflect on the dilemma whether to conceal or reveal their sexual identities to their congregants and superiors, or to serve specifically gay and lesbian congregations. The contributors consider the tensions between lesbian identity and Jewish identity, and inquire whether there are particularly "lesbian" readings of traditional texts. These essays also ask how the language of Jewish tradition touches the lives of lesbians and how lesbianism challenges traditional notions of the Jewish family. "'Today I am completely 'out' personally and professionally, and yet I have learned that the 'coming out' process never ends. Even today, I find myself in professional situations in which yet again I must reveal that I am a lesbian, yet again I must prove myself worthy of functioning professionally in the 'straight' world. I still encounter moments of awkwardness, some hostility, and some sense of exclusion as I negotiate the pathways of my professional life.'" -Rabbi Leila Gal Berner, from **Lesbian Rabbis: The First Generation**

*Lesbians Write About The First Woman in Their Life* Nearly thirty women, including some of the best-known lesbian writers, contributed to this remarkable ode to mothers with memoirs that are astonishing with their diversity and truth.

*This book intertwines academic and activist voices to engage with more than three decades of lesbian activism in the Yugoslav space. The empirically rich contributions uncover a range of lesbian initiatives and the fundamental, but rarely acknowledged, role that lesbian alliances have played in articulating a feminist response to the upsurge of nationalism, widespread violence against women, and high levels of lesbophobia and homophobia in all of the post-Yugoslav states. By offering a distinctly intergenerational and transnational perspective, this collection does not only shed new light on a severely marginalised group of people, but constitutes a pioneering effort in accounting for the intricacies – solidarities, joys, and tensions – of lesbian activist organising in a post-conflict and post-socialist environment. With a plethora of authorial standpoints and innovative methodological approaches, the volume challenges the systematic absence of (post-)Yugoslav lesbian activist enterprises from recent social science scholarship. Lesbian Activism in the (Post-)Yugoslav Space will be of interest to students and scholars across a range of disciplines, including gender studies, history, politics, anthropology, and sociology.*

*THREE BOOK COLLECTION! Was \$47.97. Now \$19.99. 58% off! Taking hold of her hand, Annika led Charlee into a stone-sheltered recess. The violet-tinted hue of dawn filtered into the cozy niche. Annika's hands slid into Charlee's coppery curls and drew her lips close. For a long moment they hovered there as their gazes danced together. Then Annika pressed her mouth softly against Charlee's, drinking in its sweetness, slowly at first, then more urgently. Annika supported her as they slowly slid to their knees, their lips never parting. They knelt there in the sand, hands hungrily exploring each other's body. Charlee tentatively ran both hands along Annika's spine, thrilling in the feel of the tremble she created with her touch. Hungrily Annika pulled down the zipper of Charlee's jacket, surprised to find the other woman wore nothing underneath it. Sucking in a deep breath, she let her eyes drink in the sight of Charlee's bare melon-sized breasts. Soon Annika was using both hands to worship Charlee's breasts, lifting and molding the big boobs, pressing them together. Charlee threw her head back arching her spine as Annika replaced one of her hands with her lips and... WARNING - These stories have hot and steamy content and is not suitable for all ages. 18+*

I started reading Saturday night and I could not stop. I read and read and read and read and suddenly, I was on Part 16. My partner showed up coming home from*

work very late that night and read with me for the last two. She had no problem jumping in because of the way you have set up the books. I like that you do not have to read these lesbian romance stories in order. What a blast! Thank you Olivia!" Grace, Chicago, IL " I read 'Just for Fun,' of course, that being the first part of the series. I thought I might have to read from one story to the next to the next to know what was going on. I was reading another lesbian romance series, and if you missed one episode, you were all messed up. Your series, 'The House of Romance,' is very different from any I have ever read. For me I could skip around and always know what was going on from one story to another. Plus, each story has a different view on life, and some kind of message. I really like that with the very naughty stuff you have in there too. Lots of that." Rose, Montgomery, AL "All that I can ask is, when are you coming out with the next House of Romance book? Eight Olivia Hampshire, lesbian romance stories are not enough!" Judy, Puerto Vallarta, MX "I just loved all of your House of Romance pieces of work. You just take lesbian romance stories to a different level. Sure, I 'm a lesbian, but many of these writers write like all I want to read about is stupid stuff that goes on in New York or Los Angeles and stupid people having sex for no reason. I liked your messages about life and life's challenges. You have women in your stories from all walks of life and professions. Thank you Olivia, please don't come out of your house, just write and write and write some more." Why do some religious institutions decline in the face of racial integration whilst others grow?

How do congregations deal with economic distress? This study of congregations in the face of community transformation includes stories of over 20 congregations in nine communities across America.

First loves. Second chances. Three problems. Dani Smith has a problem. Scratch that: this fun-loving lesbian has three of them. First, she wakes up hungover and married in Vegas. Oops. She was only supposed to be in Sin City for a friend's wedding, but now she's the one with a shiny gold ring on her finger. Second, she's not exactly sure who she married. She may have a ring, but her bride is nowhere in sight. The third problem is aloof, cold-hearted Mia: Dani's ex. The last thing that Dani needs is that know-it-all ice queen—even if her first love still makes Dani's heart race. But if she's going to track down her mystery bride before she leaves town, she's going to need some help... Fairytale romances don't exist—and if they did, they wouldn't involve Elvis impersonators. Mia Reyes has enough on her plate. Between arranging her best friend's wedding and pulling long hours as a family doctor, she has no time for anything else—including herself. But when her ex, Dani, shows up in Vegas, Mia can't resist her irresistible smile. In the City of Lights, old sparks fly. Now, Dani has a wedding ring on her finger, and Mia can't remember exactly what it is that she did last night. But Mia knows she's not the kind of person to get blackout drunk and marry her ex. She's far too sensible for that. Right? Once upon a time, Mia broke Dani's heart. Now, she has a second chance. Can she and Dani rekindle their love, or will their relationship be lost in one big Vegas gamble?

"This source is unique among encyclopedias of homosexuality with separate volumes devoted to gay and lesbian issues. The volumes consist of short, signed entries arranged alphabetically. "This book is for Lesbians. This book is by Lesbians. This book is about Lesbian spirit work. It starts and ends in a context that is explicitly Lesbian, undeniably dykey. It examines the resources of individual Lesbians and Lesbian communities for spiritual work. It presents the challenge in a precise Lesbian context. We all are engaged in spirit work for the life of the species and all species, the life of the earth. All spirit work is not Lesbian spirit work. Each must find the work of her spirit, find where her spirit bonds. Earth healing requires of each her part. If your bond is Lesbian, your spirit work is Lesbian. If it is not, find your community and explore authenticity for yourself in your most exact identity."—p. 9.

**Queer by Choice** enters the controversial debate of sexual identity by examining choice in gay men and lesbian sexual identity. Drawing on interviews with a sample of 72 people, Whisman analyzes if, and to what extent, choice played a role in determining identity. Contributing factors such as race, class, religion, and educational level are considered. The results of the study are stimulating and often surprising, and contribute to the escalating debates over sexual identity as lesbians and gays continue to soldier for rights and representation.

This ground-breaking and eye-opening book examines the intersections of religion and same-sex desire, from St. Augustine to Hinduism to contemporary LGBT and queer culture. \* Contributions from 28 distinguished North American and international scholars and activists from a variety of religious traditions \* A comprehensive index of key ideas and concepts

This comprehensive reader brings a social science perspective to an area hitherto dominated by the humanities. Through it, students will be able to follow the story of how sociology has come to engage with gay and lesbian issues from the 1950s to the present, from the earliest research on the underground worlds of gay men to the emergence of queer theory in the 1990s. Bringing together classic readings and the best work of younger scholars from all parts of the English-speaking world, this reader will be an invaluable resource for courses at undergraduate and graduate level in all areas of the sociology of sexuality and gender. Separate sections cover: \* theoretical foundations \* identity and community making \* institutions and social change \* challenges for the future. Each section begins with an introduction giving readers a brief guide to the readings in that section, contextualises them and relates them to one another and the book ends with an afterword by Ken Plummer summing up the present state of play and looking forward to the future.

The unseen issues of grief and discrimination—lesbians becoming widows The death of a life partner poses unique challenges for lesbians. **Lesbian Widows: Invisible Grief** reveals the touching and very personal stories of twenty-five women, including the author, who were widowed at a young age and forced to create a new life without their life partners. The book follows the widows from the time the couple met, to the time when one of the partners died, and beyond, to show how the surviving partner coped with her loss. Many lesbians feel that the intimacy felt between two women in love goes deeper than what can be experienced by heterosexual partners. **Lesbian Widows: Invisible Grief** reveals themes common to all these women's experiences while offering practical advice about coping techniques and resources for support. The widows discuss their efforts to create funerals and memorial services, give their accounts of the overwhelming grief throughout the first two years, and explain the legal and financial discrimination they encountered.

The author provides a chapter specifically for caring family and friends, another chapter for professionals working with this sensitive population, and a bibliography of helpful coping resources. *Lesbian Widows: Invisible Grief* explores the topics of: caregivers/caretaking death and dying grief journeys the similarities and differences between lesbian and married widows the lack of support services for lesbian widows the legal and financial discrimination against lesbian widows the effect of being "in" or "out" on grief recovery the issues faced by widows in starting new relationships spirituality gay marriage *Lesbian Widows: Invisible Grief* provides an insightful look into the grieving and recovery process, inspiring hope with the knowledge that others have survived this tragedy. This moving book is an essential resource for lesbians, friends and family of lesbians, mental health professionals, medical professionals, psychiatrists, LGBT health providers, feminist and lesbian organizations, and anyone involved with grief training programs such as hospice.

At a time when lesbian, gay, bisexual, and transgender individuals--often referred to under the umbrella acronym LGBT--are becoming more visible in society and more socially acknowledged, clinicians and researchers are faced with incomplete information about their health status. While LGBT populations often are combined as a single entity for research and advocacy purposes, each is a distinct population group with its own specific health needs. Furthermore, the experiences of LGBT individuals are not uniform and are shaped by factors of race, ethnicity, socioeconomic status, geographical location, and age, any of which can have an effect on health-related concerns and needs. *The Health of Lesbian, Gay, Bisexual, and Transgender People* assesses the state of science on the health status of LGBT populations, identifies research gaps and opportunities, and outlines a research agenda for the National Institute of Health. The report examines the health status of these populations in three life stages: childhood and adolescence, early/middle adulthood, and later adulthood. At each life stage, the committee studied mental health, physical health, risks and protective factors, health services, and contextual influences. To advance understanding of the health needs of all LGBT individuals, the report finds that researchers need more data about the demographics of these populations, improved methods for collecting and analyzing data, and an increased participation of sexual and gender minorities in research. *The Health of Lesbian, Gay, Bisexual, and Transgender People* is a valuable resource for policymakers, federal agencies including the National Institute of Health (NIH), LGBT advocacy groups, clinicians, and service providers.

Examining more than a dozen films from Jewish artists, this book reveals how the postmodern impulse to turn the lens inward intersects provocatively with historical tropes and stereotypes of the Jew. It focuses on Jewish filmmakers working on the margins and examines the work of Jonathan Caouette, Chantal Akerman and many more.

Since the 1970s, romance novels have surpassed all other genres in terms of popularity in the United States, accounting for market paperbacks sold and driving the digital publishing revolution. *Romance Fiction and American Culture* brings together scholars from the humanities, social sciences, and publishing to explore American romance fiction from the late eighteenth to the early century. Essays on interracial, inspirational, and LGBTQ romance attend to the diversity of the genre, while new areas of inquiry suggested in contextual and interdisciplinary examinations of romance authorship, readership, and publishing history, of pleasure and respectability in African American romance fiction, and of the dynamic tension between the genre and second wave feminism. *Romance Fiction and American Culture* confirms the complexity and enduring importance of this most contested of genres.

Challenges the ways "lesbian academics" have been socially constructed.

*The Well of Loneliness*, first published in 1928, is a timeless portrayal of lesbian love. The thinly disguised story of Hall's own life is banned outright upon publication and almost ruined her literary career as the subject was that of an obscenity trial and forced time in England. The novel tells the story of Stephen, an ideal child of aristocratic parents—a fencer, a horse rider and a keen athlete. Stephen grows to be a war hero, a bestselling writer and a loyal, protective lover. But Stephen is a woman, and is attracted to women. Her ambitions drive her, and society incarcerates her, Stephen is forced into desperate actions. Although Gordon's attitude toward homosexuality is anguished, the novel presents lesbianism as natural and makes a plea for greater tolerance. It became an international bestseller, and for decades was the single most famous lesbian novel.

Marc Stein's *City of Sisterly and Brotherly Loves* is refreshing for at least two reasons: it centers on a city that is not generally associated with a vibrant gay and lesbian culture, and it shows that a community was forming long before the Stonewall rebellion. In this lively and well received book, Marc Stein brings to life the neighborhood bars and clubs where people gathered and the political issues that rallied the community. He reminds us that Philadelphians were leaders in the national gay and lesbian movement and, in doing so, suggests that New York and San Francisco have for too long obscured the contributions of other cities to gay culture. *Survivor Rhetoric* is a collection of essays about the language of abused women and girls written by feminist scholars from a variety of disciplines, including literary studies, psychology, law, and criminal justice. Editors Christine Shearer-Creman and Carol L. Winkelmann have compiled a wholly original volume where diversity issues are critical, and which includes narratives from U.S. Appalachian evangelicals, lesbian women represented in Canadian feminist educational tracks, an American convert to Judaism in the Middle East, and elite or highly educated women represented in the mainstream media. The genres through which the stories are told include police reports, memoirs, and shelter talk, and the methods and focuses of the writers vary across the essays and include rhetorical, thematic analysis, ethnographic, and literary analysis. *Survivor Rhetoric* concludes with a call for more holistic and local responses to the problem of violence against women and girl children – responses carefully attentive to language issues, informed by multiple perspectives, and in touch with global conversations.

This book addresses social and cultural issues both peculiarly Southern and generally American, as it surveys Memphis, Tennessee, between World War II and 1990, when lesbians and gay men developed group identity and community institutions first as a defense in the closeted 1950s, then as part of the liberationist 1970s, and, in the 1980s, as a response to the spread of AIDS and the demands of other marginalized groups for recognition, inclusion, and power.

Nina and Liz thought they would never see each other again. After nearly five years, and both of them taking different paths in their lives, they just assumed that their time together in high school would be the end and nothing more. But, when they stumble upon one another during their high school reunion, sparks fly, and the desires they shared all those years ago came back in full force. But, they also lead different lives. With Liz being the head of the company, and Nina struggling to get by, will the two of them manage to figure out the feelings they have for one another? And will Liz be able to handle this, despite an overbearing father who cares much more about the future of the company than his daughter's happiness?

**Feminism, the Family, and the Politics of the Closet is about placing sexual orientation politics within feminist theorizing. It is also about defining the central political issues confronting lesbians and gay men. The book**

brings the study of lesbians from the margins of feminist theory to the center by critiquing the analytic frameworks employed within feminist theory that renders invisible lesbians' difference from heterosexual women. This book also outlines the basic features of lesbian and gay subordination by exploring the differences between heterosexual dominance and gender and race relations. Throughout, Calhoun aims to re-center lesbian and gay politics away from concerns with sexual regulations and toward concern with the displacement of gays and lesbians from the public sphere of visible citizenship and from the private sphere of romance, marriage, and family.

During the past four decades, the international lesbian, gay, bisexual, and transgender rights movement has made significant advances, but millions of LGBT people continue to live in fear in nations where homosexuality remains illegal. The International LGBT Rights Movement offers a comprehensive account of this global force, from its origins in the mid-nineteenth century to its crucial place in world affairs today. Belmonte examines the movement's goals, the disputes about its mission, and its rise to international importance. The International LGBT Rights Movement provides a thorough introduction to the movement's history, highlighting key figures, controversies, and organizations. With a global scope that considers both state and non-state actors, the book explores transnational movements to challenge homophobia, while also assessing the successes and failures of these efforts along the way.
