These two lecture courses, given just after the beginning of World War I, stand as a kind of unexpected gift. A few months later, once the war became a reality, the possibilities for esoteric work would change and it would become more difficult to do spiritual research. But in the short interval before the true horror of the conflict unfolded, Rudolf Steiner was able to give these lectures, which lay out in the clearest fashion the path of anthroposophic meditation, and its assumptions, language,

[Siren Everlasting Classic: Erotic Consensual BDSM Romance, public exhibition, sex toys, HEA] Kelsey Richards kept the few men she'd allowed in her life at a distance. When her friend introduced her to Gabriel Durand, a man who liked to dominate women, she gave him a wide berth, not interested in any man she couldn't control. She couldn't miss her only friend's wedding, even if it meant she'd have to spend a week on Rapture Island, an island that catered to men like him. The reality of being there, and under Gabriel's protection, proved more unsettling than she'd bargained for. Kelsey was intrigued by Gabriel's proposition, though. The idea of submitting to him in return for a week of pleasure was a lure she couldn't resist. She didn't want to hear his claim to want more. She didn't believe it. She'd take the pleasure and walk away. Sex with Gabriel, though, was nothing like she'd imagined, creating a bond she couldn't fight. He made her feel again. He taught her to love. ** A Siren Erotic Romance

The New York Times, USA Today, Wall Street Journal, and Publishers Weekly bestseller from a presidential candidate for the 2016 election! In *God, Guns, Grits and Gravy*, Mike Huckabee asks, "Have I been taken to a different planet than the one on which I grew up?" The New York Times bestselling author explores today's fractious American culture, where divisions of class, race, politics, religion, gender, age, and other fault lines make polite conversation dicey, if not downright dangerous. As Huckabee notes, the differences of opinion between the "Bubble-villes" of the big power centers and the "Bubba-villes" where most people live are profound, provocative, and sometimes pretty funny. Where else but in Washington, D.C. could two presidential golf outings cost the American taxpayers \$2.9 million in travel expenses? Government bailouts, politician pig-outs, and popular culture provocations from Jay-Z and Beyoncé to Honey Boo-Boo to the Duck Dynasty's Robertson family. Gun rights, gay marriage, the decline of patriotism, and the mainstream media's contempt for those who cherish a faith-based life. The trouble with Democrats, the even bigger trouble with Republicans, our national security complex, and how our Constitution is eroding under our noses. Reflections on our way of life as it once was, as it is, and as it might become...these subjects and many more are covered with Mike Huckabee's

Mathews uses a limited definition of paranormal, and examines works set, for the most part, in a relatively realistic modern world inhabited by both humans and paranormal beings.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Empire of Ecstasy offers a novel interpretation of the explosion of German body culture between the two wars--nudism and nude dancing, gymnastics and dance training, dance photography and criticism, and diverse genres of performance from solo dancing to mass movement choirs. Karl Toepfer presents this dynamic subject as a vital and historically unique construction of modern identity. The modern body, radiating freedom and power, appeared to Weimar artists and

intelligentsia to be the source of a transgressive energy, as well as the sign and manifestation of powerful, mysterious inner conditions. Toepfer shows how this view of the modern body sought to extend the aesthetic experience beyond the boundaries imposed by rationalized life and to transcend these limits in search of ecstasy. With the help of much unpublished or long-forgotten archival material (including many little-known photographs), he investigates the process of constructing an empire of appropriative impulses toward ecstasy. Toepfer presents the work of such well-known figures as Rudolf Laban, Mary Wigman, and Oskar Schlemmer, along with less-known but equally fascinating body culture practitioners. His book is certain to become required reading for historians of dance, body culture, and modernism.

A pioneering researcher gives us a new understanding of stress and trauma, as well as the tools to not just survive, but to grow and thrive. This groundbreaking book examines the cultural norms that impede resilience in America, and especially our collective tendency to disconnect stress from its potentially extreme consequences. It explains how we can override our need to recover. It explains the science of how to direct our attention to perform under stress and recover from trauma, exploring how our survival brain and thinking brain react to different situations differently. By directing our attention in particular ways, we can widen the window of opportunity in which our thinking brain and survival brain work together cooperatively. When we use awareness to regulate our biology this way, we can access our best, uniquely human qualities: our compassion, courage, curiosity, creativity, and connection with others. By building our resilience, we can train ourselves to make wise decisions and access choice - even during times of incredible stress, uncertainty, and change. With stories from men and women Dr Stanley has trained in settings as varied as military bases, healthcare facilities, as well as her own striking experiences with stress and trauma, she offers readers hands-on strategies they can use themselves, whether they want to perform under pressure, heal from traumatic experience, while at the same time pointing our understanding in a new direction. Foreword by Bessel Van Der Kolk, bestselling author of *The Body Keeps the Score*. 'Widen the Window' is a comprehensive overview of stress and trauma, responses to it, and tools for healing and

The challenging and exciting life of James Henry Breasted spanned the most important years of early western exploration of ancient Egypt. He was at the center of turbulent and world-changing events, including World War I and the discovery of the tomb of Tutankhamun by Howard Carter. An immensely talented scholar, he explored the Nile Valley and its antiquities in the late 19th and early 20th centuries, recording inscriptions and participating in digs with men like Petrie. At his side were his wife, as well as his son Charles, who wrote this admiring work about the life and times of his father. James Breasted was consulted with by such men as General Allenby during WWI. When Howard Carter discovered Tut's tomb in 1922, one of the first men he and his patron, Lord Carnarvon, contacted was Breasted. He not only saw the tomb shortly after its discovery, his effort to mediate between the Egyptian government when Carter was later locked out of the tomb is detailed here. You can't understand ancient Egypt or modern Egyptology without knowing about Breasted's remarkable life. He was the founder of the Oriental Institute at the University of Chicago. TO PRESUME to multiply books in this day of excellent writers and learned book-makers is a rash thing perhaps for a novice. It may even be a presumption that shall be met by the production itself being driven from the market by the keen, searching criticism of not only

the reviewers, but less noted objectors. And yet there are books that meet a ready sale because they seem like "Ishmaelites"--against everybody and everybody against them. Whether this work shall ever accomplish the design of the author may not at all be determined by its sale. While I hope to secure some pecuniary gain that I may accompany it with a companion illustrating what our women have done, yet by no means do I send it forth with the sordid idea of gain. I would rather it would do some good than make a single dollar, and I echo the wish of "Abou Ben Adhem," in that sweet poem of that name, written by Leigh Hunt. The angel was writing at the table, in his vision. The names of those who love the Lord. Abou wanted to know if his was there--and the angel said "No." Said Abou, I pray thee, then, write me as one that loves his fellow-men. That is what I ask to be recorded of me. The angel wrote and vanished. The next night It came again, with a great awakening light. And showed the names whom love of God had blessed. And lo! Ben Adhem's name led all the rest. I desire that the book shall be a help to students, male and female, in the way of information concerning our great names. I have noticed in my long experience as a teacher, that many of my students were wofully ignorant of the work of our great colored men--even ignorant of their names. If they knew their names, it was some indefinable something they had done--just what, they could not tell. If in a slight degree I

shall here furnish the data for that class of rising men and women, I shall feel much pleased. Herein will be found many who had severe trials in making their way through schools of different grades. It is a suitable book, it is hoped, to be put into the hands of intelligent, aspiring young people everywhere, that they might see the means and manners of men's elevation, and by this be led to undertake the task of going through high schools and colleges. If the persons herein mentioned could rise to the exalted stations which they have and do now hold, what is there to prevent any young man or woman from achieving greatness? Many, yea, nearly all these came from the loins of slave fathers, and were the babes of women in bondage, and themselves felt the leaden hand of slavery on their own bodies; but whether slaves or not, they suffered with their brethren because of color. That "sum of human villainies" did not crush out the life and manhood of the race. I wish the book to show to the world--to our oppressors and even our friends--that the Negro race is still alive, and must possess more intellectual vigor than any other section of the human family, or else how could they be crushed as slaves in all these years since 1620, and yet to-day stand side by side with the best blood in America, in white institutions, grappling with abstruse problems in Euclid and difficult classics, and master them?
