**The ultimate guide to creating chibis! They populate manga with chunky bodies, oversized heads, and huge expressive eyes. They're schoolgirls and schoolboys, magical girls and mad scientists, fairies and fighter princesses, cyborgs and sci-fi secret agents, bikers and bad samurais, robots and rebel leaders. They've even got chubby pets and zany monster sidekicks! They're chibis! Excruciatingly cute, highly stylized, and beloved in all manga genres (fantasy, magical girls, shounen, anthro, sci-fi-, and more), without them, manga would barely exist. And now you can learn, step by step, how to draw virtually every chibi out there, how to "chibify" ordinary manga characters—and how to invent your very own designs! Covering facial expressions, those iconic manga eyes, costumes, character interaction, and story settings, Manga for the Beginner Chibis has it all.**

**I had to accept that I wasn't just Arthur Leywin anymore, and that I could no longer be limited by the circumstances of my birth. If I was going to escape, if I was going to go toe-to-toe with the most powerful beings in this world, I needed to push myself to my utmost limit...and then I needed to push even further. After nearly dying as a victim of his own strength, Arthur Leywin wakes to find himself far from the continent where he was born for the second time. Alone, broken, and with no way to tell his family he's alive, Arthur must rebuild his strength to survive. As he ascends through an ancient dungeon filled with hostile beasts and devious trials, he discovers an ancient, absolute power - a power that will either ruin him or take him to new heights. But the dungeon won't give up its knowledge easily. Before he can plunder its depths, Arthur must learn to untangle the threads of fate. He must band together with the unlikelyest of allies if he hopes to escape with his life.**

*You want to draw manga, and Manga University will show you how. You'll get VERY good at this. After all, we've been teaching people just like you for more than 20 years. "How to Draw Manga: Basics and Beyond!" is the latest in Manga University's lineup of best-selling instructional books. The book features more than 1,000 illustrations drawn by Japanese manga artists whose work has appeared in leading publications, including Shonen Sunday and Young Jump. You will learn how to draw like a professional because your teachers are professionals. We've divided the book into four easy-to-follow chapters that will have you drawing original characters from head to toe in no time at all: Heads First! We begin at the top, with a chapter on how to draw heads. After all, heads are the first thing most people notice, in both art and out in the real world. And in art, just like in the real world, you want to make sure your characters make a vivid first impression ... whether they're completely human, or totally out-of-this-world. Let's Make Faces! The expression the eyes are the window to the soul is particularly true when it comes to manga. You can tell a lot about a character's personality by peering into their eyes. In this chapter, we explain the basics of drawing eyes. But we don't stop there. We also cover noses, mouths, ears, and hair. All About Bodies! Once we've covered faces, we move on to teaching you all all about drawing bodies. We go over the differences between male and female body proportions, count heads to determine the heights of our characters, and learn how to draw hands, arms, feet, and legs. Strike a Pose! Our book's final chapter is all about making a physical statement. We show characters standing tall, sitting down, throwing punches, giving hugs, and more. Because even beautifully drawn characters look boring if they're frozen stiff. The book also includes a section on manga tools. Plus, you'll get to know the artists who contributed to the book through exclusive interviews in which they talk about their favorite manga and anime series, hobbies, how they work, and more!*

*The ultimate guide to creating the most popular form of manga--shoujo! If you're reading this, you already love shoujo. But now you'll be able to take the next step and actually write and draw your very own. The teen characters that populate the genre are outrageously cool, including magical girls, demon gals, cat girls, J-rockers, handsome teen boys, Goth boys, and the increasingly popular elegant older young men that shoujo fans adore. No one can top Christopher Hart in helping you learn some fundamental art techniques that will bring shoujo characters, which are more realistic and less cartoon-like than other styles of manga, to life. His drawings in this book reflect the coolest and latest style Tokyo has to offer, and the easy-to-follow steps are designed for the beginner. From coloring to character development, Manga for The Beginner Shoujo has your back on every detail as you learn to create the most beloved of all manga. You may start off as an otaku (a manga fan), but you'll end up a mangaka (a manga artist)!*

*Focusing on the most popular style of manga, Shoujo Basics teaches readers how to draw all the trademark characteristics of shoujo characters; from lessons on glimmering eyes, flowing hair, and dramatic expressions to more basic elements such as the body, face, and poses, this book covers everything readers need to go from shoujo fans to shoujo artists. After an introduction to these elements, readers will have a chance to follow along Hart's in-depth step-by-steps, and will even be invited to draw on their own, right in the book's pages.*

Manga Anatomy Like You've Never Seen It! You know that manga faces are different from those of regular, American-style comic book characters. But did you know that manga bodies are also different? Well, they are, and Christopher Hart is here, once again, to tell you all about it in his signature accessible style. This book is loaded with clear step-by-step instructions and illustrations, anatomical charts and information, and before-and-after comparisons you won't find anywhere else—all tailored to creating authentic Japanese-style manga. And in addition to the breakdowns of the various sections of the body, you'll also learn how all the different elements—including faces and costumes—come together to form complete characters. Basic Anatomy for the Manga Artist contains everything you need to know. No aspiring mangaka (manga artist) should be without it.

Packed with tutorials and enticing projects, this stylish compilation from bestselling author Christopher Hart demystifies the entire process of drawing manga s irresistibly edgy fashions. From classic outfits to new Tokyo trends, hairstyles to figures and poses, Chris explores this popular Japanese genre in depth: mixing and matching outfits, creating complementary color schemes, drawing patterns on fabric, and more. A troubleshooting guide helps beginners solve common problems."
