

My First Holy Qur'an: Coloring Book And Reader

Few countries in contemporary times have had more political intrigue, violence and terror than the Iraq of Saddam Hussein's Ba'ath party. The atrocities of the Iraqi government, which were highlighted only after the Gulf War and are now receiving much attention, actually began in the 1970s. There are few accounts of what individuals endured, what everyday life was like, and the impact that Saddam Hussein's repressive regime has had on the lives of Iraqi citizens. The author of this remarkable memoir recounts growing up in Baghdad in the 70s during the early days of Saddam Hussein's reign. She describes in detail her family's fear and the cruel punishment they suffered when her father, a successful professional from a renowned, high-profile family, discovered the direct involvement of Iraqi authorities in the notorious Abu Tobar serial killings that rocked Baghdad.

This volume rejects the notion that Islam's sacred text is error free and cannot be critically evaluated. The study of the Koran must develop and mature. Scholars of Islam are of course familiar with the book's many errors and contradictions, but these inherent flaws have rarely been revealed to a wider public. The Origins of the Koran is an attempt to remedy this deficiency by bringing together classic critical essays which raise key issues surrounding Islam's holy book. Divided into four parts, this important anthology begins with Theodor Nöldeke's first truly scientific study of the Koran. Part Two focuses on the difficulty of establishing a reliable Koranic text, while Part Three examines the Jewish, Christian, and Zoroastrian sources of Muhammad's revelation. Part Four is a consideration of the controversial interpretations of contemporary scholar John Wansbrough, who questions the historical reliability of the earliest Islamic sources. This superb collection, which includes additional selections from Leone Caetani, Arthur Jeffery, David Margoliouth, Andrew Rippin, C.C. Torrey, and more, will prove indispensable to scholars and all those interested in the textual underpinning of one of the fastest growing religions in the world. Ibn Warraq is the highly acclaimed author of Why I Am Not a Muslim and Defending the West. He is also the editor of The Origins of the Koran, What the Koran Really Says, Leaving Islam, The Quest for the Historical Muhammad, and Which Koran'.

This groundbreaking work sheds new light on the status, conflicts, and social realities of educated Muslim women in Pakistan. Six candid interviews introduce readers to a class of professional Muslim women that is rarely, if ever, acknowledged in the West. These women tell of conflicts and compromises with family, kin, and community, while facing violence, archaic marriage rules, and locally entrenched codes of conduct. With brave eloquence they speak of human dignity and gender equality, of economic deprivation and social justice, and of feminism and fundamentalism. Challenging stereotypes, No Shame for the Sun reveals the uniqueness of each person and diversity in the life experience of Pakistani Muslim women, including their world views and the struggles to change their society. Through their struggles, professional Pakistani women have become conscious of their own and other women's situations in their country. Because they exercise power and authority in their chosen fields, they risk losing their families' support and antagonizing their communities. Carefully detailed and meticulously researched, this book offers a much-needed perspective on the changing circumstances of Pakistani women along with a view of established patterns and structural constraints within Pakistan. On a broader level, it examines Western misconceptions regarding Islam, a religion that crosses many borders and cultures.

The author looks at race relations when he was growing up in Africa and his experiences in the United States. He gr home country was under colonial rule. He later lived for many years in another country, the United States, that was by whites. He examines similarities between the two white-dominated societies and looks at how life was for non-v country during those years. It is a work of comparative analysis in terms of race relations and draws heavily on the experience. He not only addresses the subject from a personal perspective but also in the broader context of societ of what he has written is based on what he has observed and experienced through the years, amounting to a perso through life in colonial Africa and in the United States. He also looks at his life with African Americans including thos members of an organisation that sponsored African students to study in the United States. He was one of those sp organisation. His reflections on race relations have been partly shaped by the existence of racism in the United Stat problem in contemporary times. The malignancy of racism in the United States was underscored by massive protest country by people of all races – the largest since the civil rights movement – following the brutal murder of a black Floyd, by a white police officer in May 2020, an execution that sent shock waves round the globe where there wer many countries in support of racial equality in America; protests the author says could have been the beginning of t rights movement. Never before had so many whites in every city and every state participated in such demonstratio demanding racial justice. And never before had such demonstrations been organised and carried on, on sustained bas the country for several months. The status of black people in the United States with whom he interacted for many racial harmony and reconciliation and the quest for racial justice are some of the subjects he has addressed in the b his experiences as someone who has firsthand knowledge of the subject because of what he went through when he a colonial subject in Africa and when he lived in the United States as someone who was not spared the agony and t being a victim of racism. It is an odyssey that is reflected in the lives of many other people, making the book more t account of the experiences of the author alone. It is a reflection of other lives as well, especially of those whose co also shared by the author.

This is an autobiographical work covering a wide range of subjects including a number of major events relevant to Africa and the African diaspora.

This study illustrates why the language of the Qur'an is miraculous, unique, and evidence of divine authority. The author compares the language of the Qur'an with the language of pre-Islamic poetry, the Prophet's words (hadith), and the language of the Arabs both past and present, to demonstrate that although the Qur'an was revealed in Arabic it was at the same time an Arabic which was entirely new. Original and early Muslim audiences viewed this as miraculous and responded to the Qur'an's words, sounds, rhythms, etc. in a manner consistent with a deeper appreciation of its beauty and majesty which modern ears, trained by familiarity, and despite being surrounded by all manner of dictionaries and studies, are at a loss to capture. The author attempts to remove this veil and present the Qur'an to readers as if hearing it for the first time, to bring to life some of this wonder. In doing so he guides readers to appreciate the beauty of the Qur'an, to become more immersed in it, and to have a clearer understanding of its structure and flow. Devoting special attention to Surah Al Muddaththir, to underpin his analysis, Saeh thus brings the Revelation to life, to demonstrate that each surah has distinct features and characteristics that make it stand out uniquely within the design and sweep of the whole.

I have written many books and articles on various topics but since 2013, I have devoted myself fully in writing the interpretation of the Holy Quran in English and with the grace of Allah, I have completed the whole Quran on 29th October 2020 with 84 books. I believe there is a great need in the whole world for the correct interpretation of the Holy Quran to be written in English. Currently, there is a great misunderstanding about Islam among Muslims and non-Muslims globally. The misunderstanding of the meaning of the Holy Quran among Muslims will lead to the wrong practice of Islam which leads to the wrong actions of Muslims. The wrong actions of Muslims will lead to misunderstandings about Islam among Muslims and non-Muslims. The wrong actions of the Muslims have led to many miseries and wars among Muslims. The wrong actions of Muslims have also led to many wars and clashes between Muslims and non-Muslims. In order to avoid miseries, wars and clashes from taking place between the whole mankind in the whole world, the whole mankind in the whole world need to understand the true teaching of Islam. There is no other way for the whole mankind to understand the true teaching of Islam unless the whole mankind is able to read and understand the correct interpretation of the Holy Quran. The whole mankind is only able to read and understand the correct interpretation of the Holy Quran when it is written in the universal language of the world (English). For this very reason I have written the interpretation of the Holy Quran in English. Prof. Nasoha Bin Saabin
