"The first English translation of "Ritratto in piedi," winner of the Premio Campiello 1971, this semi-autobiographical novel portrays the artistic, intellectual and emotional relationship between Gianna Manzini and her father, Giuseppe, a noted Italian anarchist, publisher and writer who died in exile in 1925"--Provided by publisher.

A key text by a leading figure in Italian socialist feminism that remains relevant today, addressing the exploitation of women in the workplace and at home. Anna Kuliscioff (ca. 1854-1925) was a prominent figure in the revolutionary politics of her era, advocating for socialism and feminism. One of the founding members of the Italian Socialist Party, she actively contributed to the late-nineteenth-century flourishing of the Socialist International and the emergence of Italian socialism. For the last decades of her life, Kuliscioff's public militancy revolved around the "woman question." She viewed feminism through the lens of class struggle, addressing the double exploitation of women--in the workplace and at home. Kuliscioff fought a twofold battle: as a socialist, she unmasked the sexism of her colleagues; as a feminist, she criticized liberal-bourgeois feminism. In this key text, she makes her case for a socialist feminism. Originating as a lecture Kuliscioff delivered in April 1890 at a meeting of the the Milan Philological Circle (which denied membership to women), *The Monopoly of Man* explicitly links feminism to labor. Kuliscioff argues that labor frees women from the prison of the household and potentially fosters their emancipation; she advances the principle of equal pay for equal work. She declares that woman is enslaved by both her husband and by capital, calls marriage a form of women's servitude, and demands that motherhood be better appreciated as work. It is only when woman is economically independent and resists capitalism, she argues, that she will achieve freedom, dignity, and the respect of man.

For more than fifty years, Giacomo Debenedetti's October 16, 1943 has been considered one of the best and most accurate accounts of the shockingly brief and efficient roundup of more than one thousand Roman Jews from the oldest Jewish community in

Europe for the gas chambers of Auschwitz. Completed a year after the event, Debenedetti's intimate details and vivid glimpses into the lives of the victims are especially poignant because Debenedetti himself was there to witness the event, which forced him and his entire family into hiding. *Eight Jews*, the companion piece to *October 16, 1943*, was written in response to testimony about the Ardeatine Cave Massacres of March 24, 1944. In this essay, Debenedetti offers insights into that grisly horror and into assumptions about racial equality. Both of these stunning works are appearing together, along with Alberto Moravia's preface to *October 16, 1943*, for the first time in an American translation. *October 16, 1943/Eight Jews* gives American readers a first glimpse into the extraordinary mind of the man who was Italy's foremost critic of twentieth-century literature. In addition to probing the deeper, haunting questions of the Holocaust, Debenedetti briefly describes the seizure of the Roman Jewish community's library of early manuscripts and incunables, the most valuable Jewish library in all of Italy. Following the roundup, this library was never seen again. Award-winning translator Estelle Gilson offers an additional essay on the history of the library and modern-day attempts to locate it. *October 16, 1943/Eight Jews* is a moving work that will continue to challenge readers long after they have closed its pages.

Bambi's, *Thumper's*, and *Flower's* joy in playing in the snow comes to an abrupt end when *Bambi* falls through some thin ice. Have you ever lain awake at night fretting over how we can be sure of the reality of the external world? Perhaps we are in fact disembodied brains, floating in vats at the whim of some deranged puppet-master? If so, you are not alone - and what's more, you are in exalted company. For this question and others like it have been the stuff of philosophical rumination for centuries, from Plato to Popper. In a series of accessible and engaging essays, *50 Philosophy Ideas You Really Need to Know* introduces and explains the problems of knowledge, consciousness, identity, ethics, belief, justice and aesthetics that have troubled the minds of great thinkers for centuries, from the ancient Greeks to the present day. Contents include: The brain in a vat, Plato's cave, Cogito ergo sum, The mind-body problem, The boo/hurrah theory, Ends and means, The categorical imperative, Acts and omissions, The rights of animals, The gambler's fallacy, Paradigm shifts, Occam's razor, Positive and negative freedom, Theories of punishment and Just war.

Dr. Pawel Kohoutek, veterinarian and womanizer, looks out the window one morning to see his mistress approaching his house. Farce ensues as Kohoutek attempts to hide the woman from his eccentric family, the family's lodgers, and various offbeat visitors. The woman, expecting love and children and a future, does not make things easy. As he frantically runs around trying to keep her a secret, Kohoutek's memories -- mostly involuntary and (in true postmodern fashion) of questionable accuracy -- reveal in hilarious detail the life and crises of a hapless libertine and the forces that created him.

In this story, Barbapapa arrives and finds his place in the world. Will Tom ever have a story of his own? Tom Trueheart's six older brothers are famous. They go on exciting quests in the Land of Stories to complete tales the Story Bureau assigns them. Tom stays at home with his mother. But when his brothers fail to return from their latest adventures in time for Tom's twelfth birthday, a letter from the Story Bureau arrives . . . addressed to Tom. Only he can venture into the Land of Stories to find out why his brothers haven't completed their missions. Tom packs his bags and kisses his mother good-bye. He's about to discover a tale of his own. . . . How will it end?

In 1848, Europe was engulfed in a firestorm of revolution. The streets of cities from Paris to Bucharest and from Berlin to Palermo were barricaded and flooded by armed insurgents proclaiming political liberties and national freedom. The conservative order which had held sway since the fall of Napoleon in 1815 crumbled beneath the revolutionary assault. This book narrates the breathtaking events which overtook Europe in 1848, tracing brilliantly their course from the exhilaration of the liberal triumph, through the fear of social chaos to the final despair of defeat and disillusionment. The failures of 1848 would scar European history with the contradictions of

authoritarianism and revolution until deep into the twentieth century.

A treasure-trove of illuminating and entertaining quotations from beloved physicist Richard P. Feynman "Some people say, 'How can you live without knowing?' I do not know what they mean. I always live without knowing. That is easy. How you get to know is what I want to know."—Richard P. Feynman Nobel Prize-winning physicist Richard P. Feynman (1918–88) was that rarest of creatures—a towering scientific genius who could make himself understood by anyone and who became as famous for the wit and wisdom of his popular lectures and writings as for his fundamental contributions to science. The Quotable Feynman is a treasure-trove of this revered and beloved scientist's most profound, provocative, humorous, and memorable quotations on a wide range of subjects. Carefully selected by Richard Feynman's daughter, Michelle Feynman, from his spoken and written legacy, including interviews, lectures, letters, articles, and books, the quotations are arranged under two dozen topics—from art, childhood, discovery, family, imagination, and humor to mathematics, politics, science, religion, and uncertainty. These brief passages—about 500 in all—vividly demonstrate Feynman's astonishing yet playful intelligence, and his almost constitutional inability to be anything other than unconventional, engaging, and inspiring. The result is a unique, illuminating, and enjoyable portrait of Feynman's life and thought that will be cherished by his fans at the same time that it provides an ideal introduction to Feynman for readers new to this intriguing and important thinker. The book features a foreword in which physicist Brian Cox pays tribute to Feynman and describes how his words reveal his particular genius, a piece in which cellist Yo-Yo Ma shares his memories of Feynman and reflects on his enduring appeal, and a personal preface by Michelle Feynman. It also includes some previously

unpublished quotations, a chronology of Richard Feynman's life, some twenty photos of Feynman, and a section of memorable quotations about Feynman from other notable figures. Features: Approximately 500 quotations, some of them previously unpublished, arranged by topic A foreword by Brian Cox, reflections by Yo-Yo Ma, and a preface by Michelle Feynman A chronology of Feynman's life Some twenty photos of Feynman A section of quotations about Feynman from other notable figures Some notable quotations of Richard P. Feynman: "The thing that doesn't fit is the most interesting." "Thinking is nothing but talking to yourself inside." "It is wonderful if you can find something you love to do in your youth which is big enough to sustain your interest through all your adult life. Because, whatever it is, if you do it well enough (and you will, if you truly love it), people will pay you to do what you want to do anyway." "I'd hate to die twice. It's so boring."
