With massive growth taking place in the real estate industry, how can China develop a free market and private ownership of land while still officially subscribing to Communist ideology? This study uses fieldwork interviews to establish how the Chinese real estate market operates in practice from both legal and business perspectives. It describes how the market functions, which laws are applicable and how they are applied, and how a nation can achieve dramatic economic growth so rapidly while its legal system is so unsettled. The book demonstrates how China is drawing on the world for ideas while retaining a domestic system that remains essentially Chinese, and how the recent revitalization of China's real estate market has confounded the predictions of many development economists.

Celebrating over 30 years as the market-leading series, Blackstone's Statutes have an unrivalled tradition of trust and quality. With a rock-solid reputation for accuracy, reliability, and authority, they remain first-choice for students and lecturers, providing a careful selection of all the up-to-date legislation needed for exams and course use.

Readers of Real Estate Law will gain a practical understanding, from the perspective of a real property developer or real estate executive, investor, or lender, of how to identify potential legal issues before they arise; when to involve a real estate attorney; how to select an attorney with the appropriate, relevant experience; and how to efficiently and economically engage and manage legal counsel in addressing real estate issues. Written as a graduate-level text book, Real Estate Law comes with numerous useful features including a glossary of terms, chapter summaries, discussion questions, further reading, and a companion website with instructor resources. It is a resource of great value to real estate and finance professionals, both with and without law degrees, engaged in one aspect or another of real estate development and finance, who want to become more conversant in the legal issues impacting these transactions.
