The Ultimate Shark Book for Kidshas over 100 amazing shark facts that kids will love, as well as a fun wordsearch. This book is a must-have for any young shark enthusiastic. The book is brought to life with plenty of amazing dozen beautiful shark pictures. Shark facts Did you know.... - The first recorded shark attack was in 1749; - Sharks never run out of teeth; or - When attacking their prey, Great White sharks' eyes roll into the back of their heads to prevent their eyes being damaged? Find these shark facts and many more in The Ultimate Shark Book for Kids, the latest in a series of animal fact books for kids by author Jenny Kellett.

Down at the bottom of the deep, dark sea, something big, mean and terribly greedy is stirring... It's the shark in the dark! The poor fish in the sea live in fear of the nasty shark. They don't want to be his dinner! Just as the shark is closing in, the fish meet a clever squid, who hatches a plan to teach the shark a lesson once and for all. It involves a shadowy head, a shadowy tail, and a huge amount of teamwork! Can the flustered fish pull it off? The Shark in the Dark is a tremendously funny book written by Peter Bentley and illustrated by Ben Cort - with a biting twist!

Sharks swim in the sea long before dinosaurs roamed the earth. Today there are more than five hundred kinds of sharks in the world. They range in size from the tiny dwarf shark to the huge whale shark. Some of them have thousands of teeth. And some sharks even glow in the dark! In SHARKS! TIME For Kids® takes you under the seas to discover the exciting world of these super fish.

Sharks and dolphins both have torpedo-shaped bodies with fins on their backs. They slice through the water to grab their prey with sharp teeth. But despite their similarities, sharks and dolphins belong to different animal classes: one is a fish and gets oxygen from the water and the other is a mammal and gets oxygen from the air. Marine educator Kevin Kurtz guides early readers to compare and contrast these ocean predators through stunning photographs and simple, nonfiction text.

It's an underwater adventure that your child wouldn't want to miss! Trace your fingers on a shark image. Learn about their might, their strength and their intelligence, too. Read about what they eat, along with a handful of interesting facts. Encourage your child to learn about sharks today!

There are many different types of sharks including the great white shark, hammerhead shark, bull shark, tiger shark and mako. Similarly, there are also different types of whales. Both these big creatures dominate the underwater realm. This book will let the kids explore the world of whales and sharks. It is a good educational tool for teachers to help them in discussing thoroughly the fun facts about sharks.

The best-selling Hello, World! board book series expands into picture books. Kids who loved the popular board book Oceans will be ready for this next step. With over 1.5 million board books sold, the Hello, World! series has become a trusted toddler and preschool book program. Parents have praised its easy but stimulating facts, conversational tone, and bright, cheerful art. But what about when the Hello, World! child is older and ready for picture books? Now there's Hello, World! Kids! Facts, which picks up where the successful board book series leaves off, at a higher reading level and a deeper exploration into each topic. On each page of Exploring Sharks, readers will find a variety of ways to learn: * Fascinating details about favorite sharks, from whale sharks to mini sharks, paired with bright illustrations. * A panel of facts about each shark for kids who love data, with information about size, location, swimming speed, lifespan, and more. * A question on each page that asks the reader to think about sharks in relation to themselves, such as "If I you were a shark, what kind of tail would you want?" and "What ways can you think of to help protect sharks?" Loyal Hello, World! readers who have aged up and kids who love science or ocean creatures will find many captivating hours of learning and inspiration in the launch of this exciting new spin-off.

SCROLL to the top and select the Add to Cart button to have the STRANGE FACTS ABOUT HAMMERHEAD SHARKS

A healthy ocean is home to many different kinds of animals. They can be big, like a whale, tiny, like a shrimp, and even scary, like a shark. Even though sharks can be scary, we need them to keep the oceans healthy. Unfortunately, due to overfishing, many shark species are in danger of extinction, and that can cause big problems in the oceans and even on land. What would happen if this continued and sharks disappeared completely? Artist Lily Williams explores how the disappearance would affect other animals across the whole planet in this clever book about the importance of keeping sharks, and our oceans, healthy.

Four-and-a-half-year-old Liam loves all Marine Creatures, but particularly SHARKS. Liam's fantasy is to be able to embark on underwater ocean adventures and talk to Sharks. One sunny day, when he goes fishing with his Dad, he meets Dearborn, a Great Whale Shark. To Liam's great surprise his eyes begin to shine with amazing magical beams, which enables him to talk to Dearborn! The Big Shark tells him he is a special Shark Boy and they have been waiting for him to come to their world. Together with his Granddad, Liam embarks on a Marvellous Adventure full of fun in the Deep Sea, with Goutom! the Japanese Stingray, Maximillian Forbes, the very poth Lion Fish and Pufferbe the little Prickle Puffer-fish! An exciting, adventure bedtime story book for children ages 4 to 8 who love marine life. This beautifully illustrated book about a Shark is the first in the series of Liam Shark Boy's adventures. The pictures of fish and the ocean animals teach curious children about the habits of the sea animals in a fun way. Brian Read Healthy Mum's Magazine 5-star rating 30/10/19 Liam Shark Boy Review by Brian R. on 30 Oct 2019 Book Style: Toddler and Kids Story book Reading Level: 3 (Reading Alone due to: Length of book and some descriptive vocabulary) Reading Length: 10-15 minutes (FYI - we never account for toddler questions)

Illustration: Fun, cartoonish, cute Age Target: 1-8 Years of Age When reviewing this book, I was concerned about the sheer length of the story. However, as I got into the story, I found that the author had presented the story in beautifully constructed stand-alone segments. Those segments make it incredibly easy to read this book with a toddler, as it's just like a new story (with the same character) every couple of pages. What's more, the book appears long (with 48 pages), but the font is large, and the illustrations provide interesting pauses for the young reader. What you're left with is a book that's really well written for toddlers and children alike. Brian Read - Children's Books There are several things to be impressed with in Liam Shark Boy. One of my favorite things about the book was the fact that...it was filled with facts! There are easy 2-3 facts per page that I, as a parent, learned during the story. What's more, I know my child was learning 5-6 things per page and enjoying the in-depth knowledge he was gaining about the ocean and sea life in general. Another thing that I loved about the book was just how specific everything was. For example, it wasn't just a boat that Liam went on with his father. No, it was a Kingfisher Offshore boat. We weren't just talking about a Porcupine Puffer Fish (and his family), we were talking about Pufferbe and Pufferbe's grandfather, Grandpuff. It's this specificity that really helps with retention in toddlers, and I loved how this story was so intentional in its inclusion of specifics. I think it's obvious from my review (above) that I really enjoyed Liam Shark Boy. Not only that, but my little boy enjoyed it just as much as I did, and isn't that what's important? He loved the magical story, the fact that Liam had super powers, and he loved all of the facts about the oceans and sea life. What's more, the story has been awarded a 2016 eLit Award in the Children's Books section, which should tell you all you need to know.

Starring the Cat in the Hat, this rhymed Dr. Seuss Discovers non-fiction board book about sharks is perfect for nurturing a love of science in babies and toddlers too young for The Cat in the Hat's Learning Library series! Learn all about sharks with The Cat in the Hat and Thing One and Thing Two in this sturdy rhymed board book that's perfect for introducing babies and toddlers to these magnificent ocean creatures. Featuring more than ten different species of sharks (from whale sharks and tiger sharks to hammerheads and great whites), and reviewed for scientific accuracy by a noted expert, there's no better way to introduce informational texts or the natural world to pre-Dr. Seuss Discovers: Sharks
