

The Art Of War (Coterie Classics)

There is no such thing as an ordinary life. But Kenneth Brill's is more extraordinary than most. By the time he is arrested for espionage towards the end of the Second World War he has an incredible story to tell. Under interrogation he describes his unusual childhood, shares the decadent details of his training as a painter at the prestigious Slade School of Art in the 1930s and explains just why he was so very friendly with the prostitutes of London's Soho underworld; he narrates his heroic actions as a camouflage officer before El Alamein, when he helped pull off one of the greatest acts of deception in the history of warfare, and accounts for his part in a night-time break-in of the royal residence of Buckingham Palace. This is a life lived to the full, whether as son, friend, lover, teacher or pupil. The only question is: whose side is he really on? 'A huge, complex novel, at turns both blackly funny and bleakly moving, driven by truly original characters' Daily Mail 'Clever, subtle, and rewarding' Times Literary Supplement

'Engrossing... A remarkable story' Sunday Times 'Above all a story of inherited resilience, strength of character and self-determination' Observer Chinese dissident. Ground-breaking artist. Global icon. Here, through the sweeping, extraordinary story of his own and his father's lives, Ai Weiwei tells an epic tale of China over the last 100 years. He recounts a childhood in exile in a desolate place known as 'Little Siberia', his move to America as a young man and eventual return home, then his rise from unknown to art-world superstar and international human rights activist - and how his work has been shaped by living under a totalitarian regime. 1000 Years of Joys and Sorrows is a story of exceptional creativity and passionate political beliefs, and a timely reminder of the urgent need to protect freedom of expression. *A GUARDIAN AND OBSERVER BOOK OF THE YEAR 2021* 'Intimate, unflinching ... an instant classic' Evan Osnos, author of Age of Ambition

Informed by firsthand experience on the battlefronts of Iraq and Syria, Abdoh captures the horror, confusion, and absurdity of combat from a seldom-glimpsed perspective that expands our understanding of the war novel. "Abdoh's powerful novel follows an Iranian war reporter who is torn between his wearying job on the front lines and a civilian existence that he finds increasingly alienating. The book is as much a reflection on memory and art as it is a war story, and Abdoh's writing captures beautifully the absurdity of both the battlefield and modern life." --New York Times Book Review, Editors' Choice "One of a handful of great modern war novels...These wars will not end until we look at what we are doing and what we have done. Abdoh's novel lifts the veil on the murderous insanity." --Pulitzer Prize-winning journalist Chris Hedges, for ScheerPost "As much a meditation on time and memory as it is a book about war...Abdoh skillfully captures combat's intrinsic absurdity...For many Americans, the conflicts in Syria and Iraq have become abstractions, separated from our lives by geographic as well as psychic boundaries. Abdoh collapses these boundaries, presenting a disjointed reality in which war and everyday life are inextricably entwined...[The novel shines] a brilliant, feverish light on the nature of not only modern war but all war, and even of life itself." --New York Times Book Review "Transcendent." --The Daily Beast "A masterful, stylish novel told from the perspective of a disaffected Iranian writer who is drawn to the militias fighting in Syria and Iraq. Abdoh beautifully illustrates the paradoxes of war in the field and on the home front, alternating moments of brutality and comradeship and showing war's pointless heroisms, its random accidents, its absurdities, and its ongoing human costs. This is at once a probing look at the disaster in Syria and Iraq, and an affectionate yet gimlet-eyed view of masculinity, art, and cultural politics." --The Millions, One of the Most-Anticipated Books of 2020 "Abdoh explores the lives behind the war-torn headlines

in a way that captures the full humanity of the participants. Channeling a bit of Tim O'Brien and a good deal of Joseph Heller, he has written the best novel to date on the Middle East's ceaseless wars." --Library Journal, STARRED review Saleh, the narrator of *Out of Mesopotamia*, is a middle-aged Iranian journalist who moonlights as a writer for one of Iran's most popular TV shows but cannot keep himself away from the front lines in neighboring Iraq and Syria. There, the fight against the Islamic State is a proxy war, an existential battle, a declaration of faith, and, for some, a passing weekend affair. After weeks spent dodging RPGs, witnessing acts of savagery and stupidity, Saleh returns to civilian life in Tehran but finds it to be an unbearably dislocating experience. Pursued by his official handler from state security, opportunistic colleagues, and the woman who broke his heart, Saleh has reason to again flee from everyday life. Surrounded by men whose willingness to achieve martyrdom both fascinates and appalls him, Saleh struggles to make sense of himself and the turmoil in his midst. An unprecedented glimpse into "endless war" from a Middle Eastern perspective, *Out of Mesopotamia* follows in the tradition of the Western canon of martial writers--from Hemingway and Orwell to Tim O'Brien and Philip Caputo--but then subverts and expands upon the genre before completely blowing it apart. Drawing from his firsthand experience of being embedded with Shia militias on the ground in Iraq and Syria, Abdoh gives agency to the voiceless while offering a meditation on war that is moving, humane, darkly funny, and resonantly true.

A survey of antiwar art features the works of over one hundred artists from many countries, including Breughel, Goya, Manet, Kandinsky, Munch, Sloan, and Searle

An immersive visual anthology on home decorating and entertaining from cult interiors magazine Cabana Each copy is bound in one of four Cabana fabrics created in collaboration with Schumacher--Sasha Diamond Ikat, Daria Paisley, Floral Sisal, or Saz Paisley. Orders will be fulfilled with one of the fabrics available, selected at random. This sumptuous volume of stunning photographs, personal essays, and Italian recipes shows readers how to achieve the look made famous in interior-design circles by the groundbreaking and effortlessly cool Cabana magazine. Casa Cabana presents the publication's distinctive aesthetic, drawing on some of the world's most stylish interiors as the backdrop for the Casa Cabana Accessories collections, with iconic Renzo Mongiardino fabrics featured throughout. Revel in the details and accents capable of transforming any home into a Cabana-worthy abode, including tablecloths, china, glasses, cushions, and more, as author and Cabana founder Martina Mondadori introduces us to her coterie of tastemakers who share their secrets on entertaining, lifestyle, and design. Discover Vogue polymath Patrick Kinmonth's thoughts on country

living, design gallerist Jamie Creel's tricks for creating an unusual table setting, and acclaimed cook Skye McAlpine's mouthwatering recipe for peach and saffron crostata, as you step behind the glossy pages and immerse yourself in Cabana's singular joie de vivre.

Longlisted for the 2021 National Book Award for Nonfiction *The Cold War* was not just a contest of power. It was also about ideas, in the broadest sense - economic and political, artistic and personal. In this stimulating and innovative synthesis of New York's artistic and literary worlds, Lytle Shaw uses the social and philosophical problems involved in "reading" a coterie to propose a new language for understanding the poet, art critic, and Museum of Modern Art curator Frank O'Hara (1926-1966). O'Hara's poems are famously filled with proper names---from those of his immediate friends and colleagues in the New York writing and art worlds (John Ashbery, Kenneth Koch, Grace Hartigan, Willem de Kooning, and many musicians, dancers, and filmmakers) to a broad range of popular cultural and literary heroes (Apollinaire to Jackie O). But rather than understand O'Hara's most commonly referenced names as a fixed and insular audience, Shaw argues that he uses the ambiguities of reference associated with the names to invent a fluid and shifting kinship structure---one that opened up radical possibilities for a gay writer operating outside the structure of the family. As Shaw demonstrates, this commitment to an experimental model of association also guides O'Hara's art writing. Like his poetry, O'Hara's art writing too has been condemned as insular, coterie writing. In fact, though, he was alone among 1950s critics in his willingness to consider abstract expressionism not only within the dominant languages of existentialism and formalism but also within the cold war political and popular cultural frameworks that anticipate many of the concerns of contemporary art historians. Situating O'Hara within a range of debates about art's possible relations to its audience, Shaw demonstrates that his interest in coterie is less a symptomatic offshoot of his biography than a radical literary and artistic invention.

It began with voices--St. Michael, St. Catherine, and St. Margaret speaking to an ordinary farmer's daughter. Inspired to aid the future King Charles VII, whose right to the throne had been denied by the English in the Hundred Years War, Joan of Arc made her journey clad in male attire. Theologians testified to the veracity of her divine claims, and she was furnished with a host of troops. But how did she achieve the military feats that made her a legend? Stephen W. Richey offers a unique look at this remarkable woman. Joan of Arc rapidly matured into a true battle commander who spoke forcefully in war councils, made decisions, and gave orders that were obeyed--resulting in a stunning series of victories for her army. She achieved this feat by virtue of her unschooled but intuitive genius for war,

a charismatic personality that inspired her soldiers to heroic feats, and her ability to exploit a unique set of lucky circumstances.

The Fighter Pilot Who Changed the Art of War

Winston Churchill and the Art of Leadership

No one in history has provoked more controversy than Napoleon Bonaparte. Was he an enlightened ruler or brutal tyrant? Was he an insatiable warmonger or a defender of France against the aggression of the other great powers? Was he kind or cruel, farsighted or blinkered, a sophisticate or a philistine, a builder or a destroyer? Napoleon was at once all that his partisans laud, his enemies condemn, and much more. He remains fascinating, both because he so dramatically changed the course of history and had such a complex, paradoxical character. One thing is certain, if the art of leadership is about getting what one wants, then Napoleon was among history's greatest masters. He understood and asserted the dynamic relationship among military, economic, diplomatic, technological, cultural, psychological, and thus political power. War was the medium through which he was able to demonstrate his innate skills, leading his armies to victories across Europe. He overthrew France's corrupt republican government in a coup then asserted near dictatorial powers. Those powers were then wielded with great dexterity in transforming France from feudalism to modernity with a new law code, canals, roads, ports, schools, factories, national bank, currency, and standard weights and measures. With those successes, he convinced the Senate to proclaim him France's emperor and even got the pope to preside over his coronation. He reorganized swaths of Europe into new states and placed his brothers and sisters on the thrones. This is Napoleon as has never been seen before. No previous book has explored deeper or broader into his seething labyrinth of a mind and revealed more of its complex, fascinating, provocative, and paradoxical dimensions. Napoleon has never before spoken so thoroughly about his life and times through the pages of a book, nor has an author so deftly examined the veracity or mendacity of his words. Within are dimensions of Napoleon that may charm, appall, or perplex, many buried for two centuries and brought to light for the first time. Napoleon and the Art of Leadership is a psychologically penetrating study of the man who had such a profound effect on the world around him that the entire era still bears his name.

"The modernity of English art reconceptualises the history of English painting from 1914 to the end of the 1920s. Whereas most accounts have tended to see the period as marked by a tension between the native tradition and Modernism, this ground-breaking book rethinks the 1920s by situating both Modernist and non-Modernist painters within a wider cultural history. Established figures such as Paul Nash, Edward Wadsworth and Wyndham Lewis, as well as lesser-known artists like Charles Sims, John Armstrong and Ethelbert White, are discussed and illustrated in a series of innovative readings within this context. The modernity of English art offers a new account of painting in England after 1914 and argues for a strongly revisionist view of the significance of the modern during this important but neglected period in English art." --

Crisis and the US Avant-Garde examines the politics of poetry through the lens of crisis. A timely commentary on the role poetic culture might play in political struggle going forward into our own various contemporary crises.

Composed by two prominent statesmen-generals of classical China, this book develops the strategies of Sun Tzu's classic, The Art of War , into a

complete handbook of organization and leadership. The great leaders of ancient China who were trained in Sun Tzu's principles understood how war is waged successfully, both materially and mentally, and how victory and defeat follow clear social, psychological, and environmental laws. Drawing on episodes from the panorama of Chinese history, Mastering the Art of War presents practical summaries of these essential laws along with tales of conflict and strategy that show in concrete terms the proper use of Sun Tzu's principles. The book also examines the social and psychological aspects of organization and crisis management. The translator's introduction surveys the Chinese philosophies of war and conflict and explores in depth the parallels between The Art of War and the oldest handbook of strategic living, the I Ching (Book of Changes).

As publishers in private printing presses, as writers of dissident texts and as political campaigners against censorship and for intellectual freedom, a radical group of twentieth-century Irish women formed a female-only coterie to foster women's writing and maintain a public space for professional writers. This book documents the activities of the Women Writers' Club (1933-1958), exploring its ethos, social and political struggles, and the body of works created and celebrated by its members. Examining the period through a history of the book approach, it covers social events, reading committees, literary prizes, publishing histories, modernist printing presses, book fairs, reading practices, and the various political philosophies shared by members of the Club. It reveals how professional women writers deployed their networks and influence to carve out a space for their writing in the cultural marketplace, collaborating with other artistic groups to fight for creative freedoms and the right to earn a living by the pen. The book paints a vivid portrait of the Women Writers' Club, showcasing their achievements and challenging existing orthodoxy on the role of women in Irish literary life.

Chad Elias analyzes a generation of artists working in Lebanon who interrogate Lebanon's civil war (1975-1990), showing how their appropriation and creation of images challenge divisive political discourse, give a voice to those silenced and forgotten, and provide the means to reimagine Lebanon's future.

The acclaimed author of *Brute* recounts the life of the veteran U.S. Air Force pilot and innovative military strategist in this biography. John Boyd was arguably the greatest fighter pilot in American history. From the proving ground of the Korean War, he went on to win renown

as the instructor who defeated—in less than forty seconds—every pilot who challenged him. But what made Boyd a man for the ages was what happened after he left the cockpit. A fighter on the ground as well as in the air, Boyd was relentless, brilliant, stubborn, and virtually always right. He managed to transform almost single-handedly the way military aircraft, particularly the F-15 and F-16, were designed. He then dedicated many lonely years to a radical theory of conflict that at the time was mostly ignored but now informs military activity around the globe and is acclaimed as the most influential thinking about conflict since Sun Tzu's *The Art of War*. Praise for Boyd "Boyd could not be more welcome. . . . It should be required reading for every American citizen." —Washington Post Book World "This engrossing biography should definitely be on the bedside table of all our current military leadership." —Andrew Cockburn, Los Angeles Times Book Review "A stunning biography . . . Coram traces how Boyd's ideas percolated into key centers of civilian and military decision making and led to a swift and decisive victory in Operation Desert Storm, and how his maneuverist doctrine foretold the type of terrorist tactics used on September 11." —Martin Edwin Andersen, Insight

This second edition of *Moral Constraints on War* offers a principle-by-principle presentation of the trans-cultural roots of the ethics of war in an age defined by the increasingly international nature of military intervention. Parts one and two trace the evolution of Just War Theory, analyzing the principles of *jus ad bellum* and *jus in bello*: the principles that determine under what conditions a war may be started and then conducted. Each chapter provides a historical background of the principle under discussion, an explanation of the principle, and numerous historical examples of its application. In Part three, case studies apply the theories discussed to NATO's humanitarian mission in Kosovo, terrorism and the Iraq War. Bringing together an international coterie of philosophers and political scientists, this accessible and practical guide offers students of military ethics and international relations rich, up-to-the-minute insight into the pluralistic character of Just War Theory.

The British Establishment's Surrender to Drugs

Using the United States and Australia as examples, Collins argues that the justification for separateness weakens both the military standing and the practice of civilian control of the military on top of leading to an overall decline in morality and values in a democratic society. Did Nazi war criminals deceive the United States military during the Cold War? A new book by a Canberra-based historian tells the story of how America's most famous and influential military theorist was seduced by the lies of Hitler's defeated generals. From the author of Panzer Commander Hermann Balck and False Flags comes *The Blind Strategist: John Boyd and the American Art of War*. Colonel John Boyd, a maverick fighter pilot, revolutionized the American art of war through his ideas on conflict and the human mind. Boyd claimed that victory is won by the side which transitions through 'decision cycles' faster than the enemy and his ideas gained influential converts in the Pentagon who were seeking a new way of waging war after defeat in Vietnam. Although Boyd's theories became the basis of American military doctrine, he relied upon the fraudulent testimony of former Nazi generals who fabricated historical evidence to disassociate their reputations from their defeat and cover up their willing participation in war crimes. Boyd certainly changed the American art of war, but did he corrupt it in the process? *The Blind Strategist* separates fact from fantasy and exposes the myths of maneuver warfare through a detailed evidence-based investigation. Discover how maneuver warfare has resulted in catastrophic decisions in this must-read for anybody interested in American military history.

New York School Painters & Poets charts the collaborative milieu of New York City poets and artists in the mid-twentieth century. This unprecedented volume comprehensively reproduces rare ephemera, collecting and reprinting collaborations, paintings, drawings, poetry, letters, art reviews, photographs, dialogues, manifestos, and memories. Jenni Quilter offers a chronological survey of this milieu, which includes artists such as Willem de Kooning, Robert Motherwell, Alex Katz, Jasper Johns, Fairfield Porter, Larry Rivers, George Schneeman, and Rudy Burckhardt, plus writers John Ashbery, Bill Berkson, Ted Berrigan, Joe Brainard, Edwin Denby, Larry Fagin, Frank O'Hara, Charles North, Ron Padgett, James Schuyler, Anne Waldman, and more. "Giving us for the first time a full picture of the scene these artists and writers shared," writes Carter Ratcliff in his foreword, "this book illuminates the unities and tensions, the playfulness and glamour and startling authenticity of their collaborations. Here we not only see evidence of a modus operandi. We also feel the exuberance of a certain modus vivendi, a way of life." By Jenni Quilter, Edited by Allison Power, with Advisory Editors: Bill Berkson and Larry Fagin, and

Foreword by Carter Ratcliff.

The definitive translation of Sun-tzu's timeless classic of military strategy, Art of War Sun-tzu's Art of War is almost certainly the most famous study of strategy ever written. This treatise has been credited with influencing some of the most legendary military operations. Beyond the battlefield, people far and wide have long turned to Art of War for advice on how to succeed in various competitive situations, and companies around the world now make this book required reading for their executives. In this translation, Chinese warfare scholar Ralph D. Sawyer places Art of War in its proper historical context, outlining several battles that Sun-tzu either conducted or that may have influenced him, and offers an edition that is uniquely accurate and accessible.

Boyd

Providing a synthesis of New York's artistic and literary worlds, this book uses social and philosophical problems involved in reading a coterie to propose a language for understanding the poet, art critic, and Museum of Modern Art curator, Frank O'Hara.

America's National Gallery of Art, a 75th-anniversary history of the nation's art museum, founded by Andrew W. Mellon and opened to the public on March 17, 1941. Presenting an overview of the Gallery's first fifty years and a thematic look at the transformation the museum has undergone since 1992, the book offers extensive photographic essays that highlight the West Building, newly renovated East Building, and Sculpture Garden as well as the magnificent art collection and selected special exhibitions. The book includes accounts of the founding benefactors and four directors--David Finley, John Walker, J. Carter Brown, and now Earl A. Powell III--and discusses the Gallery's historic 2014 agreement to accept custody of the collections of the Corcoran Gallery of Art.

"István Bibó (1911-1979) was a Hungarian lawyer, political thinker, prolific essayist, and minister of state for the Hungarian national government during the Hungarian Revolution of 1956. This magisterial compendium of Bibó's essays introduces English-speaking audiences to the writings of one of the foremost theorists and psychologists of twentieth-century European politics and culture. Elegantly translated by Péter Pásztor and with a scholarly introduction by Iván Zoltán Dânes, the essays in this volume address the causes and fallout of European political crises, postwar changes in the balance of power among countries, and nation-building processes"--

Napoleon. The passage of time has not dimmed the power of his name. A century and a half after his death, Napoleon remains the greatest military genius of the modern world. Yet unlike Machiavelli, Clausewitz, or Sun Tzu, his name has not crowned any single literary work. The subject of thousands of biographies and treatises on warfare, he is the author of none. Until now. The great general and conqueror of Europe

Download Free The Art Of War (Coterie Classics)

may not have written any books, but he was a prolific writer. Thousands of his missives to subordinates survive, and these documents reflect the broad range of a fearless and incisive mind. From them, military historian Jay Luvaas has wrought a seamless whole. Luvaas has spent decades culling, editing, and arranging Napoleon's thoughts into coherent essays and arguments. In the remarkable result, Napoleon speaks without interruption in a work that will forever change the way we view him. Luvaas covers every subject Napoleon wrote about, from the need for preparation -- "Simply gathering men together does not produce real soldiers; drill, instruction, and skill is what makes real soldiers." -- to the essence of victory -- "To win is not enough: It is necessary to profit from success." On education, leadership, strategy and history, Napoleon speaks with an authority unique to those who have ruled a continent. In these pages lies the wisdom of a giant who knew life's greatest achievements and its lowest lows: triumph and conquest, exile and disgrace. Whether you are a student of military strategy or a business professional eager to learn from the greatest manager of personnel that the world has ever known, Napoleon on the Art of War has something for you. From the specifics of Napoleon's use of cavalry and unique reliance upon artillery to an all-encompassing vision of life from a man of supreme confidence and success, you'll find it here. This is the only straightforward explanation of Napoleon's campaigns and philosophy by the man himself.

The Free World: Art and Thought in the Cold War

In this groundbreaking examination of British war art during the Second World War, Brian Foss delves deeply into what art meant to Britain and its people at a time when the nation's very survival was under threat. Foss probes the impact of war art on the relations between art, state patronage, and public interest in art, and he considers how this period of duress affected the trajectory of British Modernism. Supported by some two hundred illustrations and extensive archival research, the book offers the richest and most nuanced view of mid-century art and artists in Britain yet written. The author focuses closely on Sir Kenneth Clark's interwar War Artists' Advisory Committee and explores topics ranging from censorship to artists' finances, from the depiction of women and war workers to the contributions of war art to evolving notions of national identity and Britishness. Lively and insightful, the book adds new dimensions to the study of British art and cultural history.

The Art of War

The third in Robert Greene's bestselling series is now available in a pocket sized concise edition. Following 48 Laws of Power and The Art of Seduction, here is a brilliant distillation of the strategies of war to help you wage triumphant battles everyday. Spanning world civilisations, and synthesising dozens of political, philosophical, and religious texts, The Concise 33 Strategies of War is a guide to the subtle social game of everyday life. Based on profound and timeless lessons, it is abundantly illustrated with examples of the genius and folly of everyone from Napoleon to Margaret Thatcher and Hannibal to Ulysses S. Grant, as well as diplomats, captains of industry and Samurai swordsmen.

Excerpt from Coterie Spoke a great Word that made his people reel, Until within their hearts resolve had grown, And their inconstant minds were firm as steel. Laughing, some died upon the plains of war, Laughing at death, because they once had heard That Word of promise they were fighting for In meanest flesh a soul heroic stirred. For decades now, the story of art in America has been dominated by New York. It gets the majority of attention, the stories of its schools and movements and masterpieces the stuff of pop culture legend. Chicago, on the other hand . . . well, people here just get on with the work of making art. Now that art is getting its due. Art in Chicago is a magisterial account of the long history of Chicago art, from the rupture of the Great Fire in 1871 to the present, Manierre Dawson, László Moholy-Nagy, and Ivan Albright to Chris Ware, Anne Wilson, and Theaster Gates. The first single-volume history of art and artists in Chicago, the book--in recognition of the complexity of the story it tells--doesn't follow a single continuous trajectory. Rather, it presents an overlapping sequence of interrelated narratives that together tell a full and nuanced, yet wholly accessible history of visual art in the city. From the temptingly blank canvas left by the Fire, we loop back to the 1830s and on up through the 1860s, tracing the beginnings of the city's institutional and professional art world and community. From there, we travel in chronological order through the decades to the present. Familiar developments--such as the founding of the Art Institute, the Armory Show, and the arrival of the Bauhaus--are given a fresh look, while less well-known aspects of the story, like the contributions of African American artists dating back to the 1860s or the long history of activist art, finally get suitable recognition. The six chapters, each written by an expert in the period, brilliantly mix narrative and image, weaving in oral histories from artists and critics reflecting on their work in the city, and setting new movements and key works in historical context. The final chapter, comprised of interviews and conversations with contemporary artists, brings the story up to the present, offering a look at the vibrant art being created in the city now and addressing ongoing debates about what it means to identify as--or resist identifying as--a Chicago artist today. The result is an unprecedentedly inclusive and rich tapestry, one that reveals Chicago art in all its variety and vigor--and one that will surprise and enlighten even the most dedicated fan of the city's artistic

heritage. Part of the Terra Foundation for American Art's year-long Art Design Chicago initiative, which will bring major arts events to venues throughout Chicago in 2018, Art in Chicago is a landmark publication, a book that will be the standard account of Chicago art for decades to come. No art fan--regardless of their city--will want to miss it.

Sun Tzu's The Art of War is the important book on strategy. This book is used as the basis for non-English translations around the world-even in Asia. It also includes a free download of an audio book MP3.

Casa Cabana

The Story of H.H. Asquith, Venetia Stanley, and Edwin Montagu, Based on the Life and Letters of Edwin Samuel Montagu

John Donne, Coterie Poet

Principles and Cases

Extremist Modernism and English Literature

A History from the Fire to Now

A biography of Edwin Montagu, British Secretary of State for India in 1917-22. Conservative Party opposition to his policies was accompanied by more or less openly expressed antisemitism (see the index). Ch. 23 (pp. 422-449), "Zionism: The Balfour Declaration," traces the debate among British Jewry over the government's support for a Jewish state in Palestine. Montagu, like most of the Jewish establishment, attempted to prevent adoption of the Declaration, fearing that it would lead to perceptions that Jews were not loyal citizens in the countries of their residence and thus fuel antisemitism.

Many indeed, are the biographies of Winston Churchill, one of the most influential figures of the twentieth century. But what was that influence and how did he use it in the furtherance of his and his country's ambitions? For the first time, Professor William Nestor has delved into the life and actions of Churchill to examine just how skillfully he manipulated events to placed him in positions of power. His thirst for power stirred political controversy wherever he intruded. Those who had to deal directly with him either loved or hated him. His enemies condemned him for being an egoist, publicity hound, double-dealer, and Machiavellian, accusations that his friends and even he himself could not deny. He could only serve Britain as a statesman and a reformer because he was a wily politician who won sixteen of twenty-one elections that he contested between 1899 and 1955. The House of Commons was Churchill's political temple where he exalted in the speeches and harangues on the floor and the backroom horse-trading and camaraderie. Most of his life he was a Cassandra, warning against the threats of Communism, Nazism, and nuclear Armageddon. With his ability to think beyond mental boxes and connect far-flung dots, he clearly foretold events to which virtually everyone else was oblivious. Yet he was certainly not always right and was at times spectacularly wrong. This is the first book that explores how Churchill understood and asserted the art of power, mostly through hundreds of his own insights expressed through his speeches and writings.

"The Phoenix of Sodom; or, the Vere Street Coterie" by Robert Holloway. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and

accessible to everyone in a high-quality digital format.

Again and again British politicians, commentators and celebrities intone that 'The War on Drugs has failed'. They then say that this is an argument for abandoning all attempts to reduce drug use through the criminal law. Peter Hitchens shows that in Britain there has been no serious 'war on drugs' since 1971, when a Tory government adopted a Labour plan to implement the revolutionary Wootton report. This gave cannabis, the most widely used illegal substance, a special legal status as a supposedly 'soft' drug (in fact, Hitchens argues, it is at least as dangerous as heroin and cocaine because of the threat it poses to mental health). It began a progressive reduction of penalties for possession, and effectively disarmed the police. This process still continues, behind a screen of falsely 'tough' rhetoric from politicians. Far from there being a 'war on drugs', there has been a covert surrender to drugs, concealed behind an official obeisance to international treaty obligations. To all intents and purposes, cannabis is legal in Britain, and other major drugs are not far behind. In *The War We Never Fought*, Hitchens uncovers the secret history of the government's true attitude, and the increasing recruitment of the police and courts to covert decriminalisation initiatives, and contrasts it with the rhetoric. Whatever and whoever is to blame for the undoubted mess of Britain's drug policy, it is not 'prohibition' or a 'war on drugs', for neither exists.
