Learn how cannabis can help spark your creativity! Cannabis has long been used and revered for its many benefits, from its widely acknowledged medical applications to its commonly accepted ability to help people relax. And now, with the list of states and countries legalizing marijuana usage for all purposes growing rapidly, we've finally reached a tipping point where cannabis is achieving a level of mainstream acceptance and usage, especially among artists. Many established and aspiring artists are looking to cannabis use to aid in their creativity—whether that's to expand the imagination, connect disparate ideas, take artistic risks, or myriad other ways to create and generate work. In Cannabis for Creatives, photographer and cannabis advocate Jordana Wright provides what you need to know to take full advantage of cannabis's potential in your creative work. She begins with the basics—how cannabis grows, how it is ingested, and the nuances of variety—then works through both the history of cannabis usage and all the pertinent details of the plant itself—lineage, strains, appearance, flavor, terpenes, and the types of high you can experience. Jordana also discusses the neuroscience of cannabis use, including how it affects the brain and how science measures creativity. Then, Jordana reveals her findings after conducting more than 30 interviews with artists, including photographers, writers, sculptors, painters, actors, comedians, and musicians as she investigates how these artists use cannabis in their work—including what strains work best for them—and how it has helped them become more creative, increase their artistic output, and have creative breakthroughs. The book also features a series of creative prompts that you can use as guided creative experiences in your own creative work. Welcome to War of 1812 tidewater country. Here, in the waters and on the shores of the Chesapeake Bay, Americans fought to preserve their recently won independence from the British. Detailing sites from Maryland to Virginia to the District of Columbia, this portable guidebook points readers to the war's most important battlefields and historic places. The book is organized into eighteen tours. Five Historic Route Tours guide enthusiasts down the same roads and past the same buildings that proved critical in the struggle. Thirteen Historic City, Town, and Regional Tours feature key sites in Maryland, Virginia, and the District of Columbia. Visitors can pick a tour and follow the President and First Lady as they fled Washington, D.C., or British troops as they landed at North Point, or the Declaration of Independence as patriots saved it from the invaders. The tours are organized geographically to make trip planning easy. All are accessible by car or on foot; bike and water excursions are also suggested where appropriate. Each tour includes a brief history and information every visitor will need to know, such as the address, phone number, website, parking availability, days and hours of operation, and entrance fees. The guide is richly illustrated throughout, showing many structures that no longer exist and numerous historic sites not visible from public roads. Detailed maps direct visitors to each site. Tourists can step back in time as they travel the same roads and waterways that American and British troops did two centuries ago.

This new, thoroughly updated edition of Yorkshire Dales, part of Bradt's series of distinctive 'Slow' guides to the local UK regions, remains the most comprehensive guide to the area and covers the whole of the recently extended Yorkshire Dales National Park and Nidderdale Area of Outstanding Natural Beauty as well as some 'slow' and historic towns and villages just outside the boundaries. Dale by dale, each chapter covers wildlife, folklore, history and local food and drink, and suggests routes to follow to see the best of it all. Walking and cycling are included, as well as all the attractions and advice needed for a memorable visit. Written by an expert who has lived and worked in the area for over 30 years, the guide draws from his personal experiences as an outdoor enthusiast, naturalist and beer connoisseur. The Yorkshire Dales is famous internationally for its caves, scenic rivers, waterfalls and limestone flora but the lives and culture of the Dales folk that live there are just as fascinating. These days the area is also known for the Tour de Yorkshire, now firmly established as a hugely popular annual cycling event. Ease the pace and discover the delights of the north Pennines, where rivers from the limestone uplands have forged the dales that give the region its name. Drop in to the Tan Hill Inn, the highest pub in Briain, where sheep regularly find their way in to warm themselves by the roaring fire; journey into the depths of Gaping Gill, one of the largest underground chambers in Britain; or take a scenic rail trip on the famous Settle-Carlisle line, crossing the longest railway viaduct in the country at Ribbleshead en route. The Yorkshire Dales offer hundreds of square miles of open-access land to explore, popular long-distance footpaths including the Pennine Way and Coast to Coast Walk, renowned medieval castles such as Skipton and Richmond, quaint stone villages and an exceptionally rich wildlife particularly associated with clean rivers and limestone-pavement flora. Discover all this and more with Bradt's Slow Travel Yorkshire Dales, the perfect companion for a successful trip.

Sandwiched between the South China, Sulu and Celebes Seas, Borneo is the third biggest island in the world and also the only island which is home to three nations: Malaysia, Indonesia and Brunei. Its biodiversity is also one of the greatest in the world, with tropical rainforest and rivers covering over 70 percent of Malaysian Borneo and hundreds of unique flora and fauna species. Despite extensive destruction of its rainforests over the past couple of decades, Borneo remains a floating natural paradise of tropical rainforest, jungle and wild animals. Its past is one of highlands, islands, head-hunters, sultanates and sea-going myths and therefore offers a rich cultural experience for adventure travelers, divers and sunbathers alike.

Neil Peart's travel memoir of thoughts, observations, and experiences as he cycles through West Africa, reveals the subtle, yet powerful writing style that has made him one of rock's greatest lyricists. As he describes his extraordinary journey and his experiences — from the pains of dysentery, to a confrontation with an armed soldier, to navigating dirt roads off the beaten path — he reveals his own emotional landscape, and along the way, the different “masks” that he discovers he wears. “Cycling is a good way to travel anywhere, but especially in Africa. You are independent and mobile, and yet travel at people speed — fast enough to travel on to another town in the cooler morning hours, but slow enough to meet people: the old farmer at the roadside who raises his hand and says, ‘You are welcome,’ the tireless woman who offer a smile to a passing cyclist, the children whose laughter transcends the humblest home.”

There are many people who are enthusiastic about food—the cooking of it, the preparation of it, the serving of it, and let's not forget the eating of it. But Andrew Delaplaine is the ultimate Food Enthusiast. This is another of his books with spot-on reviews of the most exciting restaurants in town. Some will merit only a line or two, just to bring them to your attention. Others deserve

a half page or more. "Exciting" does not necessarily mean expensive. The area's top spots get the recognition they so richly deserve (and that they so loudly demand), but there are plenty of "sensible alternatives" for those looking for good food handsomely prepared by cooks and chefs who really care what they "plate up" in the kitchen. For those with a touch of Guy Fieri, Delaplaine

ferrets out the best food for those on a budget. That dingy looking dive bar around the corner may serve up one of the juiciest burgers in town, perfect to wash down with a locally brewed craft beer. Whatever your predilection or taste, cuisine of choice or your budget, you may rely on Andrew Delaplaine not to disappoint. Delaplaine dines anonymously at the Publisher's expense. No

restaurant listed in this series has paid a penny or given so much as a free meal to be included. Bon Appétit!

The R-Series BMW MINI had a lot to live up to. Launched in 2001, it was riding in the wake of the classic 1959-2000 Mini. At the time, BMW were going to have to create something as special and innovative as its longstanding predecessor in order to silence the naysayers. And they did. Since its launch in 2001, BMW's modern MINI has become the pinnacle of small yet funky family cars in the

premium small (and sometimes not so mall) car segment. Now in its third generation, having unveiled the new F-Series in 2014, BMW MINI offers 3- and 5-door hatchback models and convertibles, the estate Clubman, the five-door Countryman, the Coupe, the Roadster and the three-door crossover Paceman. MINI enthusiast and motoring journalist Sophie Williamson-Stothert explores the journey

from 1959 to the present day, covering design and development of the new MINI, launch and reception by the press, its many model variations and special editions, and an owner's and buyer's guide. Superbly illustrated with 170 colour photographs.
