Macleod’s Clinical Diagnosis is an innovative new book complementing its companion sister textbook, the internationally-respected Macleod’s Clinical Examination. It is a practical manual of clinical assessment that describes how common problems are diagnosed in modern clinical practice. This book will be an invaluable resource for senior medical students and junior doctors as they attempt to make the difficult transition from mastering basic clinical skills to assessing patients in the real world. The book is as follows: Part 1: The principles of clinical assessment: in addition to defining the scope and remit of the book this initial group of chapters invites readers to reconsider the overall aims of clinical assessment, the contribution that the doctor makes to these aims and how the approach must be adapted to fit the clinical context. It also touches on diagnostic theory and explains some different approaches to diagnosis. Part 2: How to assess common presenting problems: this section provides a series of ‘diagnostic guides’ covering the major presenting problems in medicine and surgery; these provide the reader with a system for how to use the tools of history-taking, physical examination and routine tests to arrive at a logical diagnosis. Part 3: Some limited ‘post-diagnosis information’ in the form of severity/prognostic indicators. A unique book allowing a reader to apply the skills of clinical examination in the formulation of a differential diagnosis and placing a patient’s symptoms in the context of a differential diagnosis. Part 4: A new approach to diagnostic reasoning, reflecting both modern medical and current educational practices. Builds on the clinical skills outlined in the companion Macleod’s Clinical Examination textbook.

From the bestselling author of SPQR: A History of Ancient Rome, the fascinating story of how images of Roman autocrats have influenced art, culture, and the representation of power for more than 2,000 years What does the face of power look like and why? And how do we react to statues of politicians we deplore? In this book—against a background of today’s “sculpture wars”—Mary Beard tells the story of how for more than two millennia portraits of the rich, powerful, and famous have shaped the image of Roman emperors, especially the “Twelve Caesars,” from the ruthless Julius Caesar to the fly-torturing Domitian. Twelve Caesars asks why these murderous autocrats have loomed so large in art from antiquity and the Renaissance to the present, caricatured as Neros fiddling while Rome burns. Beginning with the importance of imperial portraits in Roman politics, this richly illustrated book offers a tour through 2,000 years of art and cultural history, presenting a fresh look at works by the nineteenth-century American sculptor Edmonia Lewis, as well as by generations of weavers, cabinetmakers, silversmiths, printers, and ceramicists. Rather than a story of a simple repetition of stable, blandly conservative images of imperial power, this unexpected tale of changing identities, clueless or deliberate misidentifications, fakes, and often ambivalent representations of authority. From Beard’s reconstruction of Titian’s extraordinary lost Room of the Emperors to her reinterpretation of tapestries, Twelve Caesars includes fascinating detective work and offers a gripping story of some of the most challenging and disturbing portraits of power ever created. Published in association with the Center for Advanced Study in the Behavioral Sciences, Washington, DC

Pete Greig, the acclaimed author of Red Moon Rising, has written his most intensely personal and honest account yet in God on Mute, a book born out of his wife Samie’s fight for her life and diagnosis of a debilitating brain tumor. Greig asks the timeless questions of what it means to suffer and to pray and to suffer through the silence because your prayers seem unanswered. This silence, Greig relates, is the hardest thing. The world collapses. Then all goes quiet. Words can’t explain, don’t fit, won’t work. People avoid you and don’t know what to say. So you turn to Him and you pray. You need Him more than ever before. But somehow . . . even God Himself seems on mute. In this heart-searching, honest, and deeply profound book, Pete Greig looks at the hard side of prayer, how to respond when there seem to be no answers, and how to cope with those who seek to interpret our experience for us. Here is a story of faith, hope, and love beyond all understanding.

Keeping your faith burning bright when all you want to do is burn out In Faith in the Fog, bestselling author Jeff Lucas explores the pain and fear that many Christians feel when walking through a spiritual fog, when doubts about faith undermine the joy of belief. After the Resurrection—when the disciples found themselves on the fog bank of unresolved shame, failure, and confusion—what Jesus did to help them and what he didn’t do is both enlightening and inspirational. Here, you will focus on the person of Jesus and the way he approaches those who are worn out when life is tough. Who Jesus really is—rather than the way we instinctively perceive him emotionally and theologically—is what will make the difference and help clear the fog. Through a broad approach, Faith in the Fog tackles the feelings of failure, uselessness, and shame, which are often the underlying causes of depression and burnout among Christians.

ECPA BESTSELLER • A compelling emotional and spiritual case against hurry and in favor of a slower, simpler way of life “As someone all too familiar with ‘hurry sickness,’ I desperately needed this book.”—Scott Harrison, New York Times best-selling author of Thirst “Who am I becoming?!” That was the question nagging pastor and author John Mark Comer. Outwardly, he appeared successful. But inwardly, things weren’t pretty. So he turned to a trusted mentor for guidance and heard these words: “Ruthlessly eliminate hurry from your life. Hurry is the great enemy of the spiritual life.” It wasn’t the response he expected, but it was—and continues to be—the answer he needs. Too often we treat the symptoms of toxicity in our modern world instead of trying to pinpoint the cause. A growing number of voices are pointing at hurry, or busyness, as a root of much evil. Within the pages of this book, you’ll find a fascinating roadmap to staying emotionally healthy and spiritually alive in the chaos of the modern world.

What is life like on this island? With a tent and a rusty bike, J.D. Taylor set off to find out. No other subject has split so much ink as Britain today. But whilst assuming a monopoly on national identity, a London-based elite has proven a poor forecaster of the political weather and the course of events. Taylor instead cycled all round Britain, interviewing and staying with strangers from all walks of life. Without a map and travelling with the most basic of gear, the journey revels in serendipity and schadenfreude. Island Story weaves histories, experiences and ideas to tell another story of the island. Parks, migration and inertia, pessimism and disappearing ways of life, and a fiery, unrealised desire for collective belonging and power. Think you know the island? Island Story will have you think again.

Though he achieved literary acclaim as a dramatist, most notably with the timeless children’s classic Peter Pan, author J. M. Barrie tackled many subjects over the course of his career, often grappling with philosophical and psychological topics. The breadth of his intellect is on full display in Courage, which is the text of a stirring and inspirational speech he delivered to a group of graduating college students in the early 1920s.

Shortlisted for the Edward Stanford Travel Writing Awards In The Hidden Ways, Alistair Moffat traverses the lost paths of Scotland. Down Roman roads tramped by armies, warpaths and pilgrim routes, drove roads and rail roads, turnpikes and sea roads, he traces the arteries through which our nation’s lifeblood has flowed in a bid to understand how our history has left its mark upon our landscape. Moffat’s travels along the hidden ways reveal not only the searing beauty and magic of the Scottish landscape, but open up a different sort of history, a new way of understanding our past by walking in the footsteps of our ancestors. In retracing the forgotten paths, he charts a powerful, surprising and moving history of Scotland through the unremembered lives who have moved through it.

Studying a rural village in northern Syria during a period of tremendous social and political change (1940s to 1970s), this book offers a unique perspective on how agrarian transformations in land distribution and its use deeply affected social and political relations among a rural community. Embedding the personal with the local and the global, this work traces the seeds of social, political and economic struggles that are still important and unfolding in Syria forty years on: changes in social relations brought about by land policy and technological modernization, divisions and connections between urban and rural locations, shifts in education and immigration. Thematically, the study is divided into two parts: the first concerns the historical, socio-economic and political changes occurring in Syria from the beginning of the twentieth century, and the second concerns the life histories of particular actors and their perspectives on social changes. This book is the edited and updated version of Khalaf’s original work, including an ‘updating chapter’ which brings invaluable insight about the village and its people at the aftermath of ISIS and the destruction of the war in Syria. Focusing on the village community of Hawi Al-Hawa, this intensely knowledgeable and personal account — a rare combination — brings village life in Syria strikingly close. The volume is an important contribution to the fields of anthropology, social sciences, Syrian and Middle East studies.

'Hidden St Andrews' takes the reader on a journey through St Andrews like no other, revealing the forgotten and abandoned past that lies on our doorstep and under our feet, bringing to life St Andrews' unique charm and personality.

Cosmological narratives like the creation story in the book of Genesis or the modern Big Bang are popularly understood to be descriptions of how the universe was created. However, cosmologies also say a great deal more. Indeed, the majority of cosmologies, ancient and modern, explore not simply how the world was made but how humans relate to their surrounding environment and the often thin line which separates humans from gods and animals. Combining approaches from classical studies, anthropology, and philosophy, this book studies three compelling cosmologies of the early Greek world: Hesiod’s Theogony; the Orphic Derveni theogony; and Protagoras’ creation myth in Plato’s eponymous dialogue. Although all three cosmologies are part of a single mythic tradition and feature a number of similar events and characters, Olaf Almqvist argues they offer very different answers to an ongoing debate on what it is to be human. Engaging closely with the ontological turn in anthropology and in particular with the work of Philippe Descola, this book outlines three key sets of ontological assumptions – analogism, pantheism, and naturalism – found in early Greek literature and explores how these competing ontological assumptions result in contrasting attitudes to rituals such as prayer and sacrifice.

Andrew Forman was born in 1465 to Nicholas Forman of Hutton and Janet Blackadder. He grew up as a protégé of Archibald Douglas, 5th Earl of Angus, and Alexander Lord Home. No wife is identified, probably because he planned a career in the church. His children were illegitimate but they all married prominent persons. Andrew left the University of St Andrews in 1483 and started working for James IV in 1489. He became a firm favourite of James IV and of the Spanish ambassador, Pedro de Ayala. He was appointed prior of Pittenweem in 1495 and ambassador to Henry VII in 1497. In 1510, he left Scotland for Europe where he carried out important duties as ambassador for the Pope and Louis XII, returning to Scotland in 1512, and back to France and Rome in 1513. Louis XII granted Bourges to Andrew. Late in 1514, the Pope appointed Andrew Archbishop of St Andrews, but the governor, Albany, did not agree to his admission until 1516. Andrew died in 1521.

In 1893 a newspaper report gave details of a discovery so remarkable it stopped the breath of a nation. The most famous and prolific ghost in St Andrews is the 'White Lady. Anyone familiar with the town is more than likely aware of her, but how much does anyone really know about her? Following research spanning five decades, this is the most comprehensive investigation there has been into a fascinating St Andrews mystery involving a ghost and a chamber of corpses that sparked a wave of national correspondence. All the articles, interviews and letters published between 1860 and 1925 have been brought together here for the first time, alongside many previously unpublished reports of sightings and associated experiences of the White Lady.

Collectively, what they reveal is far more intriguing and complex than any have realised. Welcome to a St Andrews Mystery.

Join two of the internet's favourite dogs and their owner, Sports Broadcaster Andrew Cotter, on a journey through a year unlike any other. Are you sitting nicely? Good. Let's discover exactly what happened after two superstar Labradors chewed up the lockdown internet and found it really quite tasty. He's not kept a diary for decades but here, in DOG DAYS, Andrew Cotter draws inspiration from the great Samuel Pepys; like him, he bears witness to the extraordinary everyday as the world tilts on its axis in our own unsettling era. And so, with Olive and Mabel at his side - actually, dawdling in the long grass or sleeping upside down - Andrew takes a clear-eyed, often hilarious walk through a year that encompasses all of life from the crushingly mundane to the decidedly odd. Followed by whispers of 'Is that really Olive and Mabel?' - not to mention the occasional Hollywood approach - the three of them pad around literary festivals, breakfast TV, live radio and even an appearance on Good Morning America. Slightly bemused by their fame, Andrew not only pitches up in the iconic Mastermind chair, but makes a return to sports broadcasting to find that it has become rather strange as well. But, always, his pair of utterly endearing, endlessly optimistic and eternally hungry canine companions show just how precious our time is. Especially our time spent in the devoted company of dogs. For fans new and old, this witty, insightful account of a year like no other is an unmissable treat. A hilarious and poignant memoir of a Harvard student who comes of age as a caddie on St. Andrews's fabled Old Course. In the middle of Oliver Horovitz's high school graduation ceremony, his cell phone rang: It was Harvard. He'd been accepted, but he couldn't start for another year. A caddie since he was twelve and a golfer sporting a 1.8 handicap, Ollie decides to spend his gap year in St. Andrews, Scotland—a town with the U.K.'s highest number of pubs per capita, and home to the Old Course, golf's most famous eighteen holes—where he enrolls in the St. Andrews Links Trust caddie trainee program. Initially, the notoriously brusque veteran caddies treat Ollie like a bug. But after a year of waking up at 4:30 A.M. every morning and looping two rounds a day, Ollie earns their grudging respect— only to have to pack up and leave for Harvard. There, Ollie's new classmates are the sons of Albania's UN ambassador, the owner of Heineken, and the CEO of Goldman Sachs. Surrounded by sixth generation legacies, he feels like a fish out of water all over again and can't wait to get back to St. Andrews. Even after graduation, when his college friends rush to Wall Street, Horovitz continues to return each summer to caddie on the Old Course. A hilarious, irresistible, behind-the-scenes peek at the world's most celebrated golf course—and its equally famous caddie shack—An American Caddie in St. Andrews is certain to not only entertain golfers and fans of St. Andrews but also anyone who dares to remember stumbling into adulthood and finding one's place in the world.
