Bill Bryson's first travel book, The Lost Continent, was unanimously acclaimed as one of the funniest books in years. In Neither Here nor There he brings his unique brand of humour to bear on Europe as he shoulders his backpack, keeps a tight hold on his wallet, and journeys from Hammerfest, the northernmost town on the continent, to Istanbul on the cusp of Asia. Fluent in, oh, at least one language, he retraces his travels as a student twenty years before. Whether braving the homicidal motorists of Paris, being robbed by gypsies in Florence, attempting not to order tripe and neoballs in a German restaurant or window-shopping in the sex shops of the Reeperbahn, Bryson takes in the sights, dissects the culture and illuminates each place and person with his hilariously caustic observations. He even goes to Liechtenstein.

The bibliography volume of the three-volume East Looks West: East European Travel Writing in Europe collates travel writing published in book form by east Europeans travelling in Europe from ca. 1550 to 2000. It is intended as a fundamental research tool, collecting together travel writings within each national/linguistic tradition, and enabling comparative analysis of such material. It fills an important gap in the existing reference literature, both in western and east European languages, and will be of use to those working in the growing fields of comparative travel writing, regional and national identities, and postcolonialism.These texts exist in surprisingly large numbers, and include writings of high literary quality as well as of historical interest, but they have been relatively little studied as a genre. Much of this material is rare and difficult to find, even in national libraries. As a result, there are few bibliographical surveys of the literature of east European travel and self-representation, and none that are region-wide or comparative in scope. This is the third volume of a three-part set of East Looks West, Vol. 1 - An Anthology of East European Travel Writing on Europe; and Vol. 2 - A Comparative Introduction to East European Travel Writing on Europe.

In this volume, the authors of many acclaimed books on style, including the Essence of Style books turn their attentions to the lands east of the Danube, and create Mittel Europa - an imaginary country with a gloriously real tradition of architecture and design. This is the heart of the old Austro-Hungarian Empire, and its major cities are Vienna, Prague and Budapest - undoubtedly among the world's most beautiful. We travel with the authors to these quintessential Old World cities and the magnificent countryside to discover in the architecture, interiors and folk arts of the region a thriving design tradition that the 20th century once threatened to extinguish, but that now promises to enrich the decorative arts throughout the World.

The Reader's Guide to Judaism is a survey of English-language translations of the most important primary texts in the Jewish tradition. The field is assessed in some 470 essays discussing individuals (Martin Buber, Gluckel of Hameln), literature (Genesis, Ladino Literature), thought and beliefs (Holiness, Bioethics), practice (Dietary Laws, Passover), history (Venice, Baghdadi Jews of India), and arts and material culture (Synagogue Architecture, Costume).

The emphasis is on Judaism, rather than on Jewish studies more broadly.

The theme of Tim Cole's Holocaust Landscapes concerns the geography of the Holocaust: the Holocaust as a place-making event for both perpetrators and victims. Through concepts such as distance and proximity, Professor Cole tells the story of the Holocaust through a number of landscapes where genocide was implemented, experienced and evaded and which have subsequently been forgotten in the post-war world. Drawing on particular survivors' narratives, Holocaust Landscapes moves between a series of ordinary and extraordinary places and the people who inhabited them throughout the years of the Second World War. Starting in Germany in the late 1930s, the book shifts chronologically and geographically westwards but ends up in Germany in the final chaotic months of the war. These landscapes range from the most iconic (synagogue, ghetto, railroad, camp, attic) to less well known sites (forest, sea and mountain, river, road, displaced persons camp). Holocaust Landscapes provides a new perspective surrounding the shifting geographies and histories of this continent-wide event.

The Great Tradition and Its Legacy

Fodor's Vienna & the Best of Austria

?This indispensable guidebook explores three fairytale capitals, peppered with domes, and spiked with spires. Vienna, Prague, and Budapest have lived through tumultuous histories but thrive today at the heart of modern Europe. It examines Art Nouveau art and architecture in Vienna, soaring Gothic churches in Prague, and Budapests stately boulevards and vistas. It gives detailed coverage of 16th-century Turkish baths in Budapest, the opera in Vienna, the romantic gardens of Praque's Mala Strana as well as the best places to eat and sleep.

The author points out the contrast between the overpowering historical remnants of each city and the everyday lives of its contemporary citizens

The Danube is the longest river in western and central Europe. Rising amidst the beautiful wooded hills of Germany's Black Forest, it touches or winds its way through ten countries and four capital cities before emptying into the Black Sea through a vast delta whose silt-filled channels spread across eastern Romania. From earliest times, the river has provided a route from Europe to Asia that was followed by armies and traders, while empires, from the Macedonian to the Habsburg, rose and fell along its length. Then, in the middle of the twentieth century, the Danube took on the role of a watery thread that unified a continent divided by the Iron Curtain. In the late 1980s the Iron Curtain lifted but the Danube valley soon became an arena for conflict during the violent break-up of the former Yugoslavia. Now, passing as it does through some of the world's youngest nations, including Slovakia, Croatia, Serbia, Moldova, and Ukraine, the river is a tangible symbol of a new, peaceful, and united Europe as well as a vital artery for commercial and leisure shipping. Andrew Beattie explores the turbulent past and vibrant present of the landscape through which the Danube flows, where the enduring legacies of historical regimes from the Romans to the Nazis have all left their mark.
