Mapping a World of Cities - Leventhal Map & Education Center

This book offers an important antidote to the continuing focus of urban studies on cities in 'the  
Global North'. Urban Theory Beyond the West contains twenty chapters from leading scholars  
raising important theoretical issues about cities throughout the world. Past and current  
conceptual developments are reviewed and organized into four parts: 'De-centring the City'  
offers critical perspectives on re-imagining urban theoretical debates through consideration of  
the diversity and ...

Urban Theory Beyond the West: A World of Cities - 1st ...

Cities exist in a world of cities and thus routinely invite a comparative gesture in urban  
theorizing. However, for some decades urban studies have analytically divided the world of  
cities into, for example, wealthier and poorer, capitalist and socialist, or into different regional  
groupings of cities, with subsequently very little comparative research across these divides.

Cities in a World of Cities: The Comparative Gesture ...

Mapping A World of Cities is a digital collaboration between ten map libraries and collections  
the United States. Covering four centuries, these maps show how world cities changed  
alongside the changing art and science of cartography. Explore the maps and images, and

From Wikipedia, the free encyclopedia This is a list of lists on the cities of present-day nation states and dependencies. Countries are listed in bold under their respective pages, whereas territories and dependencies are not. Disputed and unrecognized countries are italicized.

Lists of cities by country - Wikipedia

What are termed 'world' cities or 'global' cities command and control the world economy, and are centres for transnational corporations (TNCs). They are mostly among the world's wealthy cities; if not, they are at least among the wealthiest in their nation. But the cities from where TNCs produce their goods are often not wealthy.

The global geography of world cities | International ...

Introduction. The World Cities Report 2020 shows that the intrinsic value of sustainable urbanization can and should be harnessed for the wellbeing of all. The Report provides evidence and policy analysis of the value of urbanization from an economic, social and environmental perspective, including the unquantifiable value that gives cities their unique character; and also explores the role of innovation and technology, local governments, targeted investments and the effective implementation ...

World Cities Report 2020

A global city, also called a power city, world city, alpha city or world center, is a city which is a primary node in the global economic network. The concept comes from geography and urban studies, and the idea that globalization is created and furthered in strategic geographic locales according to a hierarchy of importance to the operation of the global system of finance and trade. The most complex node is the "global city", with links binding it to other cities having a direct and tangible ef
