Stay current with ophthalmology's definitive source of clinical information that is reviewed by 100 ophthalmologists every year. Order the Academy's Basic and Clinical Science Course JavaScript seems to be disabled in your browser.

Order the Academy's Basic and Clinical Science Course  
The American Academy of Ophthalmology recommends that adults get a complete eye examination at age 40. This is when early signs of disease or changes in vision may first appear. It is important to find eye diseases early. Early treatment can help preserve vision. Not everyone should wait until age 40 for an eye exam
