Our guidance and advice to help manage common infections and tackle antimicrobial resistance. We've been asked by the Department of Health and Social Care to develop evidence-based, clinical syndrome specific guidance and advice to help slow the development of antimicrobial resistances. Existing Public Health England guidance on management and treatment of common infections will be replaced over the next few years by new NICE/PHE antimicrobial prescribing guidelines.

**Antimicrobial prescribing guidelines | NICE guidance | Our...**

Reduce the emergence of antimicrobial resistance Minimise adverse effects Make the Trust compliant with the Health and Social Care Act. This guideline is not all encompassing. It aims to include the common infections seen at Kingston Hospital. This guideline is adapted from the Blue Book Guideline for the Management of Common
