

Avionics Electronic Technician I Battlespace Flight Services

Civil Avionics Systems is an in-depth study and explanation of avionics as applied to civil aircraft. Avionics covers analogue and digital electronics, sensors, signalling, and computers that transmit to and control the operations of the aircraft. Avionics includes the technology, systems development, electrical systems, sensors, communication, navigation, flight control, displays, engine and utilities control, and is also the integration of all these elements. Ian Moir and Allan
