If you're involved in any form of Celtic Wicca or Witchcraft, or if you just want to know more about the ancient Celtic Priests, the Druids, you need *The Lost Books of Merlyn* by Douglas Monroe. But you're not the only one who wanted this book. After his first book appeared, he received over 20,000 letters asking for more! That's the purpose of this book. *The Lost Books of Merlyn* is a series of writings which have come down to us as attributed through the pen of Merlyn, or ? more precisely ? as having originally been in his keeping. Merlyn (upon whom the mythical Merlin was based) was a Druid, and the Druids were the priest-priest-initiators of their people. So this book is a reconstruction of the ancient philosophy, beliefs, and methods for personal transformation you can use today. The book is composed of three parts, each one based on old Celtic legends, in the form of a story. Why was it written that way? "Because that is the way the Druids, the Celts, would have done it ? that is the way they taught." The three sections are "The Battle of the Trees," "The Book of Pheryllt," and "The Gorchan of Maeldrew." When these stories were originally told, the people knew the meanings of their symbolism. Not so, today. Therefore, at the end of each section is a grimoire explaining the meanings and, at the same time, sharing rituals, oracles, and magical methods. You'll learn about tree oracles, Celtic signs of power, and the Druidic pantheon of deities. You'll discover how to contact Faery folk, the power of words, and charms of protection. Revealed, too, is how to make and use dowsing rods to find ley lines, and the secrets of magical dance and music. Also, you'll find out the secrets of the "Charm of Making" and the proof that it was ancient before it was popularized in a movie. This just barely scratches the surface of the book. You'll find that the wisdom here will touch you and help you on your path. Read it and learn.

Awakening to Wholeness describes a two-fold path of awakening that combines psychological and spiritual development. Psychology is concerned with the personal aspects of our being (i.e. body, emotions, mind and ego-self) and spirituality is concerned with the transpersonal aspects of our being (i.e. soul and true-Self. *Awakening to Wholeness* clearly and comprehensively describes the dynamics of human consciousness, ego-formation, psychological healing, personal development and spiritual growth. It also includes a range of powerful transformational tools, techniques and practices that can help us to: Understand why we think and behave the way we do. Heal and re-integrate the wounded parts of our psyche. Manifest our full potential. Let go of the things that are holding us back. Lead a happier, richer and more fulfilling life. Know and express our true-Self. Realise that what we have been searching for has always been here - inside of us. Recognise that the opportunity to awaken is always right here and now.

Law of the New Thought: A Study of Fundamental Principles and Their Application is the study of "new thought," or the oldest school of thought that teaches spiritual and psychic truth concerning the planes of the mind, telepathy, the celestial and clairvoyant. In it, Atkinson instructs on the definition of "New Thought," the nature of thought in general, the law of attraction, the nature and planes of mind and body, the soul, and the absolute-God and the Universe. He shows how students of New Thought can apply its principles to their everyday lives, while students of philosophy and psychology will find his theories an interesting read. American writer WILLIAM WALKER ATKINSON (1862-1932) was editor of the popular magazine New Thought from 1901 to 1905, and editor of the journal Advanced Thought from 1916 to 1919. He authored dozens of New Thought books under numerous pseudonyms, including "Yogi," some of which are likely still unknown today.

Explains the relevance of ancient myths to the awakening to higher states of consciousness and enlivened experience of the world • Shows how higher consciousness can arise within each of us by following the guidance found in ancient myths • Reveals how myths influence our personal development without our awareness through their influence on our core values and culture • Examines ancient Sumerian, Egyptian, Babylonian, and Hebrew myths, such as the Epic of Gilgamesh and the story of Osiris and Isis In this study of ancient Sumerian, Egyptian, Babylonian, and Hebrew myths, authors Lloyd M. Dickie and Paul R. Boudreau show that many classic myths contain instructions for awakening higher consciousness, allowing access to enlivened experience of the world and awareness of the divine within and around us. Inspired by the work of R. A. Schwaller de Lubicz, the authors deeply examine creation myths and well-known ancient myths from Mesopotamia and Egypt, such as the Epic of Gilgamesh and the story of Osiris and Isis. They reveal that these myths are not behavioral morality tales but actual delineations of how a higher order can arise within each of us. The authors explain how these stories teach us to distinguish the heaven within from the earth within us, to find the essential part of our being that provides a link with our higher powers. Spending more than a year onsite in Egypt to personally connect with the myths, the authors explain how ancient storytellers intentionally chose myths as a vehicle for teachings because story has a seed-like capacity to implant itself in the unconscious and influence development without the individual being aware of it. By crafting these sacred narratives, the ancient Sumerians and Egyptians provide tools to awaken to the presence of higher consciousness as well as a road map for the individual to come into conscious alignment with the perpetual unfolding of the universe.

Superconsciousness Through Meditation: During a superconscious state the individual is flooded with an intense radiance, ten thousand times brighter than the brightest sun. Time seems to stand still; there is a feeling of power and a sense of possessing infinite wisdom and understanding at the moment of union. Subjectively there is an intense feeling of ecstasy or bliss which makes the orgasm of sexual union seem as nothing compared to it. To attain this state it is necessary to undertake certain disciplines that lead to non-attachment; the author provides eight progressive Yoga routines for this purpose. Clear and precise instructions are given to aid the earnest seeker. They are designed to eliminate mental, emotional, and physical disturbances from one's life. The final stages outlined in this work consist of Dharana, (concentration) and Dhyana, (sustained concentration) which lead ultimately to the attainment of Samadhi or Cosmic Consciousness.

Awakening Your Soul's Truth

If, as Buddhism claims, the potential for awakening exists in all human beings, we should be able to map the phenomenon with the same science we apply to other forms of consciousness. A student of cognitive social science and a Zen practitioner for more than forty years, Richard P. Boyle brings his sophisticated perspective to bear on the development of a theoretical model for both ordinary and awakened consciousness. Boyle conducts probing interviews with eleven prominent Western Buddhist teachers (Shinzen Young, John Tarrant, Ken McLeod, Ajahn Amaro, Martine Batchelor, Shaila Catherine, Gil Fronsdal, Stephen Batchelor, Pat Enkyo O'Hara, Bernie Glassman, and Joseph Goldstein) and one scientist (James Austin) who have experienced awakening. From the paths they traveled to enlightenment and their descriptions of the experience, he derives three fundamental properties of awakened consciousness. He then constructs an overarching model that explains how Buddhist practices help free the mind from attachments to reality and the self and make possible the three properties of awakening. Specifically, these teachers describe how they worked to control attention and quiet the mind, detach from ideas and habits, and open themselves to compassion. Boyle's account incorporates current theories of consciousness, sociological insights, and research in neuroscience to advance the study of awakened consciousness and help an even greater number of people to realize it.

It is an outstanding book from both the scientific and spiritual points of view. It is the unique record of the pioneering experiments which presents clear, electrophysiological evidence of the existence of the network of chakras and nadis which form the infrastructure of the subtle energies existing in the pranic and psychic dimensions, which underlie and activate the physical, material body of man. The experiments in the book successfully integrate the subjective and objective dimensions of knowledge and will serve as guideposts and blueprints for experiments in the years ahead. The chakras and other components of the human energy field were largely brought to the attention of the Western world by clairvoyant Charles W. Leadbeater. His pioneering work is discussed in detail in this fascinating exploration of the subtle body, along with that of other respected seers and yogis. "This book represents a monumental effort to review and correlate much of the accumulated knowledge of the subtle energy systems...Such a book could only be written by a person who has had the life-long personal experiences which Dr Motoyama so generously shares with the reader. These experiences provide a step-by-step illustration of unfolding and expanding consciousness. The book is necessary reading for all serious students of the subject of consciousness." - George W. Meek

We are a fortunate generation and it just keeps getting better as we stand on shoulders of giants. The only mistake we can make with all our information is to think that we control our lives. Belief can blind a man to explore the depths of human psyche which is only been studied by psychologist in its periphery and leaves a lot of questions unanswered of the depths of our psyche and sub conscious mind. While we can learn from past masters, true wisdom is in understanding our learning with intuition of life, which is the highest intelligence of man as imagination is more important than knowledge and is evolution. Are we masters of our life or playing out pre-destined parts in existence ruled by inherited traits and cosmic forces? An inquiry with Hindu and Greek Philosophy, Behaviorist Psychology and Contemporary Science that will leave you baffled on who we are and how to approach the ever hallucinating mind, which is just an eternal passing experience.

From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, The Power of Now is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better.

A Guide to Spiritual Enlightenment

Taking clear and empowered steps, spiritual teacher Dirk Hessel guides us along the path to new Life. With concise examples, compelling awareness exercises and profound wisdom, Awaken to Life reveals that the true source of our anxiety and dissatisfaction is not the surrounding circumstances but our belief in our thoughts and emotions. Internal barriers are dissolved and many fallacies exposed. We attain a joyful and serene existence, awaken to our true nature and are free. (Hardcover edition with bound bookmark)

What image do you conjure up when you think of 'awakening'? Who comes to your mind when you think of 'enlightenment'? Tantra opens up our minds to the possibility of intellectual existence beyond the God level (Ancient Indian mythology is full of humans cavorting with Gods). And Kundalini Tantra does more: it opens up levels of consciousness several degrees beyond God. It gives us techniques to exercise our imagination and leads us to heaven within ourselves. The quest for higher consciousness is manifested through the physical body (bigger, better and beautiful) or the subtle body (smarter, kinder and spiritual). Tantra Yoga highlights practices to achieve this bliss. Awakening is possible and enlightenment is available to all who seek it.

What if you could, like a diamond forged through heat and pressure, transform every painful, scary, and stressful experience in your life into one that is meaningful, courageous, and inspiring? What if you were provided with the tools that allow you to tap and manifest the true power that exists within you—the power to shine? Are you ready to discover your path to peace?
