YOU ARE A BADASS IS THE SELF-HELP BOOK FOR PEOPLE WHO DESPERATELY WANT TO IMPROVE THEIR LIVES BUT DON'T WANT TO GET BUSTED DOING IT. In this refreshingly entertaining how-to guide, bestselling author and world-traveling success coach, Jen Sincero, serves up 27 bitesized chapters full of hilariously inspiring stories, sage advice, easy exercises, and the occasional swear word, helping you to: - Identify and change the self-sabotaging beliefs and behaviours that stop you from getting what you want. - Create a life you totally love. And create it NOW! - Make some damn money already. The kind you've never made before. By the end of *You Are a Badass*, you'll understand why you are how you are, how to love what you can't change, how to change what you don't love, and how to use *The Force* to kick some serious ass.

The badasses populating the pages of *Badass* are the most savagely awesome historical figures to ever strap on a pair of chain mail gauntlets and run screaming into battle. Author Ben Thompson—considered by many to be the Internet's foremost expert on badassitude—has gathered together a rogues' gallery of butt-stomping rogues, from Julius Caesar and Genghis Khan to Blackbeard, George S. Patton, and Bruce Lee. Their bone-breaking exploits are illustrated by top artist from the fields of gaming, comics, and cards—DC Comics illustrator Matt Haley and Thomas Denmark, illustrator for the collectible card game *Magic: The Gathering*. This is not your boring high school history—this is tough,

manly, unrelentingly Badass!

#1 international bestseller Publishers Weekly bestseller The Globe and Mail (Toronto) The Toronto Star bestseller The Vancouver Sun bestseller From Neil Pasricha—New York Times, million-copy bestselling author of The Book of Awesome series and The Happiness Equation, thought leader for the next generation, and one of the most popular TED speakers in the world—comes a revelatory and inspiring book that will change the way we view failure and help us build resilience. We are lucky. For most of us, famine, plague, economic depression, and other life-threatening catastrophes are the stuff of history books. We're living in an era with the highest-ever rates of longevity, education, and wealth. Cars drive us home as our phones entertain us before we arrive to food delivered to the front door. We have it all! But there's just one side effect. We no longer have the tools to handle failure...or even perceived failure. When we fall, we lie on the sidewalk crying. When we spill, we splatter. When we crack, we shatter. We are turning into an army of porcelain dolls. A rude email from the boss means calling in sick. Only two likes on our post means we don't have friends. Cell phones show us we're never good enough. Yesterday's butterflies are tomorrow's panic attacks. Record numbers of students have clinical anxiety. And what about depression, loneliness, and suicide? All rising! What do we desperately need to learn?

RESILIENCE. And we need to learn it fast. Read You Are Awesome to learn: • The single word that keeps your options open after failure • What every commencement speech gets wrong • 3 ways to dramatically accelerate your ability to learn and adapt • The 2-minute morning practice that helps eliminate worry • Why you need an Untouchable Day (and how to get one) • and much, much more... Because the truth is, you really are awesome.

In the US, food banks and pantries provide billions of meals a year to people in need. And yet hunger still affects one in nine Americans. What are we doing wrong? In Reinventing Food Banks and Pantries, Katie Martin presents a new model for charitable food, one where success is measured not by pounds of food distributed but by lives changed. The key is shifting our focus from a lack of food to strategies that build empathy, equity, and political will. Martin shares solutions in a warm, engaging style, with simple steps that anyone working or volunteering at a food bank or

pantry can take today. Solutions range from providing client choice, where individuals select their own food with dignity, to offering job training programs and joining the fight for a living wage. As Martin writes, it takes more than food to end hunger. Picking up this insightful, lively book is a great first step.

For David Goggins, childhood was a nightmare - poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring Outside magazine to name him The Fittest (Real) Man in America. In this curse-word-free edition of Can't Hurt Me, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this The 40% Rule, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

A beautifully emotional and unforgettably steamy new contemporary romance from New York Times and USA Today bestseller Roni Loren. The world can be a scary place. At least, that's what Andi Lockley's anxiety wants her to believe. It doesn't help that she narrowly escaped a dangerous man years ago, or that every relationship since has been colored with that lingering fear. But things are better now—she's channeling everything into her career as a horror novelist and true crime podcaster, and her next book may be the breakthrough she needs. If only her grumpy new neighbor would stop stomping around at all hours of the night. Former firefighter Hill Dawson can't sleep. After losing part of his leg in a rescue gone wrong, he's now stuck in limbo. He needs to figure out what he's supposed to do with his life, and he can't let himself get distracted by the pretty redhead next door. But when someone breaks into Andi's place, Hill can't stop himself from rushing in to play the hero. Soon, a tentative bond forms between the unlikely pair. But what starts out as a neighborly exchange quickly turns into the chance for so much more...if Andi can learn to put aside her fear and trust in herself—and love—again. Note for ebook customers: The design and layout of this book play a key role in conveying the author's message.

When creating the ebooks, we've tried to keep the look and feel of the print edition, but this means that not all e-reading devices will support the files. The EPUB format is optimized for iPad. The Mobi files are optimized for Kindle Fire tablets and phones and for Kindle reading apps. Imagine you're in a game with one objective: a bestselling product or service. The rules? No marketing budget, no PR stunts, and it must be sustainably successful. No short-term fads. This is not a game of chance. It is a game of skill and strategy. And it begins with a single question: given competing products of equal pricing, promotion, and perceived quality, why does one outsell the others? The answer doesn't live in the sustainably successful products or services. The answer lives in those who use them. Our goal is to craft a strategy for creating successful users. And that strategy is full of surprising, counter-intuitive, and astonishingly simple techniques that don't depend on a massive marketing or development budget. Techniques typically overlooked by even the most well-funded, well-staffed product teams. Every role is a key player in this game. Product development, engineering, marketing, user experience, support—everyone on the team. Even if that team is a start-up of one. Armed with a surprisingly overlooked science and a unique POV, we can reduce the role of luck. We can build sustainably successful products and services that rely not on unethical persuasive marketing tricks but on helping our users have deeper, richer experiences. Not just in the moments while they're using our product but, more importantly, in the moments when they aren't. Product management has become a critical connective role for modern organizations, from small technology startups to global corporate enterprises. And yet the day-

to-day work of product management remains largely misunderstood. In theory, product management is about building products that people love. The real-world practice of product management is often about difficult conversations, practical compromises, and hard-won incremental gains. In this book, author Matt LeMay focuses on the CORE connective skills—communication, organization, research, execution—that can build a successful product management practice across industries, organizations, teams, and toolsets. For current and would-be product managers, this book explores: Real-world tactics for facilitating collaboration and communication How to talk to users and work with executives The importance of setting clear and actionable goals Using roadmaps to connect and align your team A values-first approach to implementing Agile practices Stories that convey realities of product management in the field Common behavioral traps that turn good product managers bad

In the aftermath of the VILTRUMITE WAR, Invincible returns home to find things on Earth are very different.

The ultimate guide to naming your product or business has been updated throughout with twice as many resources as before, new stories (of both hits and flops), and an entirely new chapter on the power of names in the workplace. Too many new companies and products have names that look like the results of a drunken Scrabble game (Xobni, Svbtile, Doostang). In this entertaining and engaging book, ace-naming consultant Alexandra Watkins explains how anyone—even noncreative types—can create memorable and effective brand names. No degree in linguistics required. The heart of the book is Watkins's proven SMILE and SCRATCH Test. A great name makes you SMILE because it is Suggestive—evokes something about your brand; is Memorable—makes an association with the

familiar; uses Imagery—aids memory through evocative visuals; has Legs—lends itself to a theme for extended mileage; and is Emotional—moves people. A bad name, on the other hand, makes you SCRATCH your head because it is Spelling challenged—looks like a typo; is a Copycat—similar to competitors' names; is Restrictive—limits future growth; is Annoying—seems forced and frustrates customers; is Tame—feels flat, merely descriptive, and uninspired; suffers from the Curse of Knowledge—speaks only to insiders; and is Hard to pronounce—confuses and distances customers. This 50 percent-new second edition has double the number of brainstorming tools and techniques, even more secrets and strategies to nab an available domain name, a brand-new chapter on how companies are using creative names around the office to add personality to everything from cafeterias to conference rooms, and much more.

This funny cryptogram puzzle book is the perfect way for you to get smarter and improve your mental faculties. This puzzle book includes 200 large-print puzzles. Positive Affirmations for a Badass Fans of Rachel Hollis and Girl, Wash Your Face will love Becca Anderson's Badass Affirmations Even a badass needs daily affirmations: We all need reminders. You don't leap out of bed knowing you are amazing and about to have an incredible day. All of us have a lot of demands, pressures, to-do's and responsibilities. We find ourselves rushing around, working hard to please others. Often we find ourselves at the back of our own bus, having made everyone else happy but our own damn self. Then you go and beat yourself up about it. Let's stop that, shall we? The incredible art of self-affirmation: Positive living and affirmation queen Becca Anderson reminds you that you are pretty darn great. I had to learn to remind myself, but you know what? It feels pretty darn good. It is even kind of addictive in the best way. There are reasons we need esteem boosters. We pick up scars and get bumps and bruises in daily life. If you had a bad childhood, you have old "tapes" from poor parenting looping through your unconscious brain. "You'll never amount to anything. You're not good at sports. Your sister has a

better singing voice than you, so we're sending her to music camp and you can stay behind and babysit." Even nice moms and dads perpetrate these parenting errors that leave marks on our souls. But, we can overcome with the right mix of badass affirmations. Every day and in every way, you can learn the art of self-affirmation. Self-affirmation adjustment: If you find yourself feeling overwhelmed and drained by life's busyness and demands, stop in your tracks and do an attitude adjustment, or more specifically a "gratitude adjustment." You have need for some "me TLC" and a dose of radical self-affirmation. In **Badass Affirmations** you will:

- Learn the habit of affirming yourself daily
- Experience a life filled with love, joy, fulfillment and satisfaction
- Take control of your destiny
- Strengthen your self-esteem

From Caliphs to Green Berets, some of civilization's toughest warriors are profiled in *Badass: Ultimate Deathmatch*, including Cyrus the Great, St. Moses the Black, and The Rani of Jhansi, as well as in-depth analyses of how they battled their way to victory. Featuring original artworks by top graphic artists and comic book illustrators, and Ben Thompson's signature wry, side-splitting commentary, *Badass: Ultimate Deathmatch* is the history of badasses, the only way it should be written: covered in blood!

We are more mature with all the experiences and knowledge that we have acquired. The problem is, we focus on what we lack rather than what we are perfect and complete. There is nothing wrong with analyzing our weak points and working on them but what we overlook in the areas where we are best, perfect, and complete. There's a story about eagles, eagles live to be sixty to eighty years old. After reaching his forties, he goes into exile for nearly 100 days until the climax where he begins to pluck all his feathers and break his claws, the beak hitting the rocks. It starves for the next 100 days without any food until new feathers, beaks, and claws sprout. He resuscitates himself, lives newborns for the next 20 to 40 years. We, humans, are social animals who

Let's not be demoralized by age ... Age is just a number. Let's work on the positive side of improving and upgrading our skills. *Stay Hungry Stay Foolish* Let's live every moment of our life and have fun like this is going to be the last day of our lives, but keep learning every moment as if we are going to live like an immortal forever. Remember that reaching quarantine is not a curse but a blessing in disguise. Did you know that lions only succeed in a quarter of their hunting attempts - which means they fail 75% of their attempts and only succeed 25% of them? Despite this small percentage shared by most predators, they do not despair in their pursuit and hunting attempts. The main reason for this is not because of hunger as some might think, but it is the understanding of the "law of wasted effort" which was instinctively incorporated into animals, a law in which nature is ruled. Half of the fish eggs are eaten ... half of the baby bears die before puberty ... most of the world's rains fall in the oceans ... and most tree seeds are eaten by birds. Scientists have found that animals, trees, and other forces of nature are more receptive to the law of "wasted effort". Only humans think

that the lack of success in a few attempts is a failure ... but the truth is: we only fail when we "stop trying". Success is not about having a life without pitfalls and falls ... but success is about overcoming your mistakes and going beyond every step where your efforts have been wasted waiting for the next step. If there is one word that sums up this world, it will simply be: start over. Always be inspired.

Badass Habits

Offers humorous advice for fathers of daughters including such topics as restroom trips and properly participating in a tea party.

A NEW BEGINNING! It's the ultimate jumping on point for new readers and a bold new beginning as Malcolm Dragon takes over the title role from his famous father.

Malcolm Dragon is not your typical teenager. He lives in an apartment by himself in downtown Chicago, he's a junior who's just transferred to a new high school, and he's trying his best to fill the shoes of his father, the Savage Dragon, fighting the forces of evil in the Windy City! New dangers! New adventures! Get in on the ground level of a whole new SAVAGE DRAGON!

New York Times best-selling author Jen Sincero gets to the core of transformation: habits - breaking, making, understanding, and sticking with them like you've never stuck before. Badass Habits is a eureka-sparking, easy-to-digest look at how our habits make us who we are, from the measly moments that happen in private to the resolutions we loudly broadcast (and, erm, often don't keep) on social media. Habit busting and building goes way beyond becoming a dedicated flosser or never showing up late again--our habits reveal our unmet desires, the gaps in our boundaries, our level of self-awareness, and our unconscious beliefs and fears.

Badass Habits features Jen's trademark hilarious voice and offers a much-needed fresh take on the conventional

wisdom and science that shape the optimism (or pessimism?) around the age-old topic of habits. The book includes enlightening interviews with people who've successfully strengthened their discipline backbones, new perspective on how to train our brains to become our best selves, and offers a simple, 21 day, step-by-step guide for ditching habits that don't serve us and developing the habits we deem most important. Habits shouldn't be impossible to reset--and with healthy boundaries, knowledge of--and permission to go after--our desires, and an easy to implement plan of action, we can make any new goal a joyful habit.
