Assessment Choose your qualification. General qualifications AS and A Level, Core Maths, Entry Level Certificate, FSMQ, GCSE and Projects. Cambridge Nationals. Cambridge Technicals. CPC Certificates of Professional Competence. Functional Skills. Other vocational qualifications.

~~Assessment—OCR~~

Many of your Science units will require you to write a formal laboratory report. The purpose is to report on what you did, what you learned from an experiment and why the findings matter. The marker is looking for evidence that you: understand what happened, why it happened and what it signifies in relation to the experimental aims

The project assessment review is a flexible assurance review. It's a bespoke approach to reviews that the Infrastructure and Projects Authority ( IPA ) uses to meet the specific assurance needs ...

~~Project assessment review guidance and templates—GOV.UK~~

To do a project risk assessment you have to perform its four key elements: identifying risks, analyzing risks, determining risk response and documenting risks. Then there are factors to consider, such as making risk assessment as part of your project management, getting all stakeholders involved and clarifying task ownership.

Welcome to the assessment department of the WikiProject Biology. This department focuses on assessing the quality of Wikipedia's Biology articles. While much of the work is done in conjunction with the WP:1.0 program, the article ratings are also used within the project itself to aid in recognizing excellent contributions and identifying topics in need of further work.
