Chemistry A Study Of Matter
Chemistry is the study of matter,
its composition and the changes
it undergoes. During this
semester, you will be introduced

to the scientific method used to study matter and will be given the mathematical tools you will need for the remainder of the course. You will learn how matter is classified according to its properties and composition.

Chemistry: A Study of Matter | Georgia Public Broadcasting Chemistry: A Study of Matter teachers resources are free for Georgia educators. If you are a Georgia educator, please email education@gpb.org to request the teacher resources. You may be asked to verify your Georgia educator status.

Chemistry is the study of matter—what it consists of, what its properties are, and how it changes. Matter is anything that has mass and takes up space—that is, anything that is physically real. Some things are

easily identified as matter—the screen on which you are reading this book, for example. Others are not so obvious.
