As a current record of all of C. G. Jung’s publications in German and in English, this volume will replace the general bibliography published in 1979 as Volume 19 of the Collected Works of C. G. Jung. In the form of a checklist, this new volume records through 1990 the initial publication of each original work by Jung, each translation into English, and all significant new editions, including paperbacks and publications in periodicals. The contents of the respective volumes of the Collected Works of C. G. Jung and the Gesammelte Werke (published in Switzerland) are listed in parallel to show the interrelation of the two editions. Jung’s seminars are dealt with in detail. Where possible, information is provided about the origin of works that were first conceived as lectures. There are indexes of all publications, personal names, organizations and societies, and periodicals.

Volumes 27 through 37 are collected columns from The Illustrated London NewsThis volume contains all of G.K. Chesterton’s columns in The Illustrated London News from 1935 to 1936. The breadth and depth of his knowledge - from history to politics to English fads and conventions - never fail to impress, and his wit is as refreshing as when these pieces were first written.This book is the last of The Illustrated London News volumes. It includes a subject index which covers all the The Illustrated London News volumes (27-37).

Part of an exhaustive series which provides English translations of a representative proportion of Johann Wolfgang von Goethe’s vast body of work, this volume contains such essays as "On Gothic Architecture", "On the Laocoon" and "Shakespeare: a Tribute".

Edgar Allan Poe mastered a variety of literary forms over the course of his brief and turbulent career. As a storyteller, Poe defied convention by creating Gothic tales of mystery, horror and suspense that remain widely popular today. This collection demonstrates how Poe's experience of early nineteenth-century American life fueled his iconoclasm and shaped his literary legacy. Rather than provide critical explications of his writings, each essay explores one aspect of Poe's immediate environment, using pertinent writings - verse, fiction, reviews and essays - to suit. Examining his geographical, social and literary contexts, as well as those created by the publishing industry and advances in science and technology, the essays paint an unprecedented portrait of Poe's life and times. Written for a wide audience, the collection will offer scholars and students of American literature, historians and general readers new insight into Poe's rich and complex work.

Kurt Gödel (1906 - 1978) was the most outstanding logician of the twentieth century, famous for his hallmark works on the completeness of logic, the incompleteness of number theory, and the consistency of the axiom of choice and the continuum hypothesis. He is also noted for his work on constructivity, the decision problem, and the foundations of computability theory, as well as for the strong individuality of his writings on the philosophy of mathematics. He is less well known for his discovery of unusual cosmological models for Einstein's equations, in theory permitting time travel into the past. The Collected Works is a landmark resource that draws together a lifetime of creative thought and accomplishment. The first two volumes were devoted to Gödel's publications in full (both in original and translation), and the third volume featured a wide selection of unpublished articles and lecture texts found in Gödel's Nachlass. These long-awaited final two volumes contain Gödel's correspondence of logical, philosophical, and scientific interest. Volume IV covers A to G, with H to Z in volume V; in addition, Volume V contains a full inventory of Gödel's Nachlass. L All volumes include introductory notes that provide extensive explanatory and historical commentary on each body of work, English translations of material originally written in German (some transcribed from the Gabelsberger shorthand), and a complete bibliography of all works cited. Kurt Gödel: Collected Works is designed to be useful and accessible to as wide an audience as possible without sacrificing scientific or historical accuracy. The only comprehensive edition of Gödel's work available, it will be an essential part of the working library of professionals and students in logic, mathematics, philosophy, history of science, and computer science and all others who wish to be acquainted with one of the great minds of the twentieth century.

Autobiographies consists of six autobiographical works that William Butler Yeats published together in the mid-1930s to form a single, extraordinary memoir of the first fifty-eight years of his life, from his earliest memories of childhood to winning the Nobel Prize for Literature. This volume provides a vivid series of personal accounts of a wide range of figures, and it describes Yeats's work as poet and playwright, as a founder of Dublin's famed Abbey Theatre, his involvement with Irish nationalism, and his fascination with occultism and visions. This book is most compelling as Yeats's own account of the growth of his poetic imagination. Yeats thought that a poet leads a life of allegory, and that his works are comments upon it. Autobiographies enacts his ruling belief in the connections and coherence between the life that he led and the works that he wrote. It is a vision of personal history as art, and so it is the one truly essential companion to his poems and plays. Edited by William H. O'Donnell and Douglas N. Archibald, this volume is available for the first time with invaluable explanatory notes and includes previously unpublished passages from candidly explicit first drafts.

The Question for Twentieth-Century China has been the integration of tradition and modernity. In this collection of essays written over a period of some twenty years (1987–2006), Chen Lai reflects on the question in an informative and original way. He reads behind the political slogans and engages with the thought both of Max Weber, Talcott Parsons and Western sociology, and representative Chinese thinkers, notably Feng Youlan and Liang Shuming. While the focus is on China, the book also appeals to anyone interested in this fascinating question of how to modernise whilst retaining the positive values of tradition. Chen Lai s unique and balanced grasp of society marks him out as the foremost thinker in China on this topic today.

"In 1621, nearly fifteen years after the establishment of the Jamestown colony, the Virginia Company funded another voyage of colonists to the New World. This time, however, their ships carried fifty-six young women. Their ages ranged from sixteen to twenty-eight, they were of good character and proven skills, and each had a bride price of 150lbs of tobacco set by the Company.

Though the women had all agreed to journey to Jamestown of their own free will, they were also unquestionably there to be sold into marriage, thereby generating a profit for investors and increasing the colony’s long-term viability. These were the aims of the Virginia Company at least; the aims of the women themselves are less clear. Without letters or journals (young women from middling classes had not generally been taught to write), Jennifer Potter’s research has turned to the Virginia Company’s merchant lists, which were used as a kind of sales catalog for prospective husbands, as well as censuses, court records, the minutes of Virginia’s General Assemblies, letters to England from their male counterparts, and other such accounts of the everyday life of the early colonists. The first part of her book explores the women’s lives before their departure, but the true heft of the work lies in the second part, which documents the women’s lives in Jamestown. In telling the story of these "Maids for Virginia," Potter at once sheds light on life for women in early modern England and in the New World."--Provided by poublisher.

General Bibliography - Revised Edition

This book views the Neo-Sensation mode of writing as a traveling genre, or style, that originated in France, moved on to Japan, and then to China. The author contends that modernity is possible only on "the transcultural site"—transcultural in the sense of breaking the divide between past and present, elite and popular, national and regional, male and female, literary and non-literary, inside and outside. To illustrate the concept of transcultural modernity, three icons are highlighted on the transcultural site: the dandy, the flaneur, and the translator. Mere flaneurs and flaneuses simply float with the tide of heterogeneous information on the transcultural site, whereas the dandy/flaneur and the cultural translator, propellers of modernity, manage to bring about transformative creation. Their performance marks the essence of transcultural modernity: the self-consciousness of working on the threshold, always testing the limits of boundaries and tempted to go beyond them. To develop the concept of dandyism—the quintessence of transcultural modernity—the Neo-Sensation gender triad formed by the dandy, the modern girl, and the modern boy is laid out. Writers discussed include Liu Na’ou, a Shanghai dandy par excellence from Taiwan, Paul Morand, who looked upon Coco Chanel the female dandy as his perfect other self, and Yokomitsu Riichi, who developed the theory of Neo-Sensation from Kant’s the-thing-in-itself.

This first volume in Rosa Luxemburg's Complete Works, entitled Economic Writings 1, contains some of Luxemburg's most important statements on the globalization of capital, wage labor, imperialism, and pre-capitalist economic formations. In addition to a new translation of her doctoral dissertation, “The Industrial Development of Poland,” Volume I includes the first complete English-language publication of her “Introduction to Political Economy,” which explores (among other issues) the impact of capitalist commodity production and industrialization on noncapitalist social strata in the developing world. Also appearing here are ten recently discovered manuscripts, none of which has ever before been published in English.

Roger Penrose: Collected Works

Rosa Luxemburg’s theoretical masterpiece This collection is the first of three volumes of the Complete Works devoted to the central theme of Rosa Luxemburg’s life and work—revolution. Spanning the years 1897 to the end of 1905, they contain speeches, articles, and essays on the strikes, protests, and political debates that culminated in the 1905 Russian Revolution—one of the most important social upheavals of modern times. Luxemburg’s near-daily articles and reports during 1905 on the ongoing revolution (which comprises the bulk of this volume) shed new light on such issues as the relation of spontaneity and organization, the role of national minorities in social revolution, and the inseparability ofthe struggle for socialism from revolutionary democracy. We become witness to Luxemburg’s effort to respond to the impulses, challenges, and ideas arising from a living revolutionary process, which in turn becomes the source of much of her subsequent political theory—such as her writings on the mass strike, her strident internationalism, and her insistence that revolutionary struggle never take its eyes off of the need to transform the human personality. Virtually all of these writings appear in English for the first time (translated from both German and Polish) and many have only recently been identified as having been written by Luxemburg.

The most important works from 1917–1944 of Jean Prouvé, one of this century’s most significant designers and constructors, have been gathered together in a low-priced softcover edition.

Taking The Path with the Result, or Lamdre, is the most important tantric system of theory and meditation practice in the Sakya school. Yet its writings have never been published in any European language until now. This book contains 11 vital works from the tradition including the basic text by the great Indian adept Virupa. Here too are sacred writings from Jamyang Khyentse Wangchuk and an instruction manual by the Fifth Dalai Lama. This collection was personally approved by His Holiness Sakya Trizin, head of the Sakya tradition.

This book not only tells the story of the establishment of her monasteries but, characteristic of Teresa, digresses into counsels on prayer, love, melancholy, virtuous living and dying, plus other teachings of the Mother Foundress. This book also has an excellent introduction, chronology, and map of Teresa's foundations and journeys. Five of her brief works, including her poetry, complete ICS Publications' third volume of her Collected Works. Includes general and biblical index.

This book asserts that Oscar Wilde (1854 – 1900) was a major precursor of W.B. Yeats (1865 – 1939), and shows how Wilde’s image and intellect set in train a powerful influence within Yeats’s creative imagination that remained active throughout the poet’s life. The intellectual concepts, metaphysical speculations and artistic symbols and images which Yeats appropriated from Wilde changed the poet’s perspective and informed the imaginative system of beliefs that Yeats formulated as the basis of his dramatic and poetic work. Section One, 'Influence and Identity' (1888 – 1895), explores the personal relationship of these two writers, their nationality and historical context as factors in influence. Section Two, 'Mask and Image' (1888 – 1917), traces the creative process leading to Yeats’s construction of the antithetical mask, and his ideas on image, in relation to the role of Wilde as his precursor. Finally, 'Salomé: Symbolism, Dance and Theories of Being' (1891 – 1939) concentrates on the immense influence that Wilde’s symbolist play, Salomé, wrought on Yeats’s imaginative work and creative sensibility.

Kurt Gödel was the greatest logician of this century. This third volume of his collected works consists of previously unpublished material, both essays and lectures.

The present work is a new perspective on the Bhagavad-Gita, supported by thorough research, for it focuses attention on the social relevance of this famous Hindu scripture. Part I provides a penetrating analysis of how new interpretations of the Gita palyed a significant role in the social history of India during the nineteenth and twentieth centuries. The illustrative material consists of five case studies relating to : Raja Rammohun Roy, Swami

Vivekananda, Bal Gangadhar Tilak, Aurobindo Ghose and Mahatma Gandhi. Part II expalins how the social applications of the Gita are linked with its most important teaching for the modern age, viz.,Loksamgraha- the good of the society. Lokasamgraha is a sanskrit term occurring in the Gita but not in Upanishads and a modern interpretation of the lokasamgraha-approach is the inculcation of social values and a sense of social responsibility in each individual.
