In particular, $\text{Rot}(\text{Rot})$ is, in general, not computable at the boundary of $\text{Rot}(\text{Rot})$. Send article to Kindle To send this article to your Kindle, first ensure no-reply@cambridge.org is added to your Approved Personal Document E-mail List under your Personal Document Settings on the Manage Your Content and Devices page of your Amazon account.

~~On the computability of rotation sets and their entropies ...~~

In mathematics and computer science, computable analysis is the study of mathematical analysis from the perspective of computability theory. It is concerned with the parts of real analysis and functional analysis that can be carried out in a computable manner. The field is closely related to constructive analysis and numerical analysis
