Cost Studies of Buildings - WordPress.com  
Cost control in building design and construction. A development  
budget study is undertaken to determine the total costs and  
returns expected from the project. A cost plan is prepared to  
include all construction costs, all other items of project cost  
including professional fees and contingency . All costs included  
in the cost plan will also be included in the development budget  
in addition to the developer's returns and other extraneous  
items such as project insurance, surveys and agent's ...

Cost Studies of Buildings - ResearchGate

Costs are all at Q3 2016 prices, exclude fees, VAT, project contingency and furniture, fixtures and equipment/AV allowances etc. and are based on construction in Central London to enable direct comparison with Building 2. The study recognises the importance of considering all elements of the total building cost, not simply the cost of the structure as some elements are affected more by the choice of structural frame than others.

Cost Studies of Buildings - Allan Ashworth - Google Books

The replacement cost of sixties buildings in English universities alone is estimated to be £11bn. Because there are significant backlog repair and maintenance issues associated with many of these buildings, universities may shortly find themselves forced to make difficult replace-or-refurbish decisions in connection with a large number of their buildings.
