"The House of Forster is built on bubbles; watching each wealth-added generation try not to blow the family fortune and/or disgrace its name provides not only excellent Southern Gothic fun but a panoramic tour of the American Century."— Jonathan Dee, author of the Pulitzer Prize finalist The Privileges The story of a family. The story of an empire. The story of a nation. Moving from Mississippi to Paris to New York and back again, a saga of family, ambition, passion, and tragedy that brings to life one unforgettable Southern dynasty—the Forsters, founders of the world’s first major soft-drink company—against the backdrop of more than a century of American cultural history. The child of immigrants, Houghton Forster has always wanted more—from his time as a young boy in Mississippi, working twelve-hour days at his father’s drugstore; to the moment he first laid eyes on his future wife, Annabelle Teague, a true Southern belle of aristocratic lineage; to his invention of the delicious fizzy drink that would transform him from tiller boy into the founder of an empire, the Panola Cola Company, and entice a youthful, enterprising nation entering a hopeful new age. Now the heads of a preeminent American family spoken about in the same breath as the Hearsts and the Rockefellers, Houghton and Annabelle raise their four children with the expectation they’ll one day become world leaders. The burden of greatness falls early on eldest son Montgomery, a handsome and successful politician who has never recovered from the horrors and heartbreak of the Great War. His younger siblings Ramsey and Lance, known as the “infernal twins,” are rivals not only in wit and beauty, but in their utter carelessness with the lives and hearts of others. Their brother Harold, as gentle and caring as the twins can be cruel, is slowed by a mental disability—and later generations seem equally plagued by misfortune, forcing Houghton to seriously consider who should control the company after he’s gone. An irresistible tour de force of original storytelling, American Pop blends fact and fiction, the mundane and the mythical, and utilizes techniques of historical reportage to capture how, in Nathaniel Hawthorne’s words, “families are always rising and falling in America,” and to explore the many ways in which nostalgia can manipulate cultural memory—and the stories we choose to tell about ourselves.

"That rare person who looked like Marlene Dietrich and wrote like Virginia Woolf," Clarice Lispector is one of the most popular but least understood of Latin American writers. Now, after years of research on three continents, drawing on previously unknown manuscripts and dozens of interviews, Benjamin Moser demonstrates how Lispector's development as a writer was directly connected to the story of her turbulent life. Born in the nightmarish landscape of post-World War I Ukraine, Clarice became, virtually from adolescence, a person whose beauty, genius, and eccentricity intrigued Brazil. Why This World tells how this precocious girl, through long exile abroad and difficult personal struggles, matured into a great writer. It also asserts, for the first time, the deep roots in the Jewish mystical tradition that make her the true heir to Kafka as well as the unlikely author of "perhaps the greatest spiritual autobiography of the twentieth century." From Chechelnik to Recife, from Naples and Berne to Washington and Rio de Janeiro, Why This World strips away the mythology surrounding this extraordinary figure and shows how Clarice Lispector transformed one woman's struggles into a universally resonant art.

This book is luminous, feisty, heart breaking, and fiercely honest, often all in the space of a single poem. Her voice has the vigour and industrial strength grit of Grace Paley’s, and there is genuine wisdom here, an intelligence born of direct experience. These poems are a breath of fresh air in contrast to the fetid self obsession of so much contemporary verse... a real pleasure...a must read for anyone who has ever experienced the deep joys, agonies, and mysteries of the mother, daughter bond.

First paperback edition of this classic, cross-cultural history of women and their relationship to music through the centuries.

Gramatica de meseta presents itself as the imperfect result of a whole: it confirms the importance of an account and the impossibility of a linear construction. From a de-centred viewpoint (which is a subterfuge used to cover up the impossibility of grasping the different registers involved) a universalising account is evoked: a story of stories or an interrupted flow. Different genres overlap. On the one hand we encounter the futile intent to catalogue originals stored in archives, both those of large companies and those in the private collections of amateur photographers. On the other, we find the chance result of an itinerant, updated approximation to those same places through the medium of the camera. Meta-history, or the exhibition as antithesis.

The Story of Women in Their Relation to Music

A History

This book displays at their height the wit, sensibility and psychological penetration that distinguish Miss Stafford's work. There are nine stories and a novella. They range in mood from the title story, a comic portrait of a resourceful child-criminal named Lottie Jump, to "The End of a Career," an elegiac and ironic tale of the declining years of a great beauty. In "A Reasonable Facsimile" Dr. Bohrmann, a retired professor philosophy, is unexpectedly rescued from an aggressively boring young house guest. "Cops and Robbers" is a chilling story of childhood horror and lovelessness that revolves around a father's trip to the barber with his five-year-old daughter. Several of the stories have as their common setting Miss Stafford's fiction town of Adams, Colorado—including an amusing saga of a girl's frustrated attempts to find a quiet spot to read ("A Reading Problem"), and two stories of failure ("In the Zoo") and success ("The Liberation") in the effort to escape from one's family. "Caveat Emptor" is a satire on the academic life and sub-life at the Alma Hettrick College for Girls; and in "The Captain's Gift" the sheltered and lavender-scented existence of old Mrs. Ramsey is violated by the reality of war. The major piece in Bad Characters is "A Winter's Tale," a haunting and evocative novella set in Heidelberg just before the outbreak of the war. It is dominated by the diabolic character of Frau Professor Persis Galt. This portrait of a former Bostonian who poses as an excessively devout convert is one of Miss Stafford's most brilliant fictional creations. This collection by Jean Stafford will be warmly welcomed by the many and devoted admirers of her novels and stories. To new readers the work of one of the best writers of our time will come as a joyful discovery.

This is the first English-language translation of the culmination of the life work of Darcy Ribeiro, one of Brazil's leading twentieth-century intellectuals, known internationally both for his work in Indian affairs and for his political activism. First published as O Povo Brasileiro in 1995, two years before Ribeiro's death, it quickly became a controversial best-seller. Offering a sweeping overview of the ethnic, racial, and social forces that shape Brazilian culture and society, the book presents no less than an aesthetic of the Brazilian people as a whole. While Ribeiro dwells on the paradox of Brazil as a country of immense potential hindered by racial and class prejudice, he also says it is "the most beautiful and luminous province on earth". Elegantly translated by the acclaimed Gregory Rabassa, this work does justice to Ribeiro's original Portuguese text, with all its idiosyncrasies, intrinsic poetry, epic hyperbole, and departures from contemporary U.S. norms of political correctness. It will be of immense significance to all those interested in Latin American culture, anthropology, sociology, and history as well as in the theory of culture.

The story of one of the most revolutionary books in history: the Encyclopedie and the young men who risked everything to write it. In 1777 a group of young men produced a book that aimed to tear the world apart and rebuild it. It filled 27 volumes and contained 72,000 articles, 16,500 pages and 17 million words. The Encyclopedie was so dangerous and subversive that it was banned by the Pope and was seen as one of the causes of the French Revolution. The writers included some of the greatest minds of the age: Denis Diderot, the editor, who had come to Paris to become a Jesuit but found the joys of the city too enticing; d'Alembert, one of the leading mathematician of the 18th century; Rousseau, the father of Romanticism and Voltaire, the author of CANDIDE. During the 16 years it took to write, compile and produce all 27 volumes, the writers had to defy the authorities and faced exile, jail and censorship, as well as numerous internal falling outs and philosophical differences.
