Data Runner is Johnny Mnemonic plus Speed; a world where data is physically downloaded into a person, and then that person delivers it at breakneck speeds without ever stopping. It is like a Tom Cruise chase scene from beginning to end; arms and legs pump at a furious rate,

it's full of intensity, and you have a smile on your face the whole time.

Data Runner (Data Runner #1) by Sam A. Patel

Data Runner is an interesting and novel prediction of the future of data. The premise that no electronic data is secure on the web sets up a society in which to secure privacy is to physically control storage and transport. From that backdrop the characters are well developed and the story-line is well written.

Data Runner is a battlefield located

on Endor. Stray transmissions from both sides of the galactic civil war have been picked up in this region. This is a variation on a traditional capture the flag map. Once both teams have members in the pvp zone, one player will be randomly selected to receive a data packet.

Today I want to show you a watch
modification that I've been working
on. I'm calling it the Data Runner,
and it's another F91W mod, this
time going the extra mile to make
something functional and nice

looking. Like the previous mods that you may have seen me do, this is based on the Casio F91W, and that's down to the fact that it's THE standard for an inexpensive digital watch, striking a good balance between price, features, build quality, and worldwide availability.
