A New Development Database. Deposit Insurance around the World

Downloadable! This paper updates the Demirgüç-Kunt and Sobaci (2001) cross-country deposit insurance database and extends it in several important dimensions. This new data set identifies both recent adopters and the ones that were not covered earlier due to a lack of data. Moreover, for the first time, it provides historical time series for several variables and adds new ones.

Deposit insurance around the world : a comprehensive database

Of these policies, explicit deposit insurance has been gaining popularity in recent years. Since the 1980s the number of countries with explicit deposit insurance schemes almost tripled, with most OECD countries and an increasing number of developing economies adopting some form of explicit depositor protection. In 1994 deposit insurance became the standard for the newly created single banking market of the European Union.
