In his report on South Africa,
economist Gary S. Fields from
the U.S. University of Cornell
indicates that unemployment**

is a major economic and social issue. It causes serious economic decline as the standard of living in countries reduces. Unemployment causes social inequality since members of the public suffer from a decreased earning capacity and minimal economic activity. Corruption. Corruption is among the most serious issues that bar countries from proper economic development.

Seven Ways to Transform 21st-Century Economics – and ... Contemporary Issues in

Economics. In late 2019, the world economy teetered over an economic precipice of uncertainty. Between political sparring and ecological disasters, world markets seemed to feel every bump on the road. The volatility in world markets and political uncertainty, combined with ecological crises, all provided textbook examples of how the effects of contemporary issues such as peace and order can impact markets.
