Department Power Electronics
The Department of EEE has been a pioneer in
the field of Electrical and Electronics
Engineering, with core Research and
Development in Power Apparatus and Systems
for many decades.

Department of Electrical and Electronics
Engineering

Power electronics Our research on power electronics is underpinning developments across all areas of consumer gadgets, industrial systems, renewable generation, low-carbon transport and power networks.

Power electronics - Department of Electrical and ...

The Electrical and Electronic Power Engineering Group is actively engaged in research into power electronic systems, novel electrical machines, and drives.

Electrical Machines and Power Electronics – University of ...

The Division of Power Electronics and Drives was started in the year 1988 as a regular programme, currently offers a Post-Graduate course in M.E - Power Electronics and Drives.

Department of Electrical and Electronics Engineering ...

Power Electronics, Lighting Technology, Smart Grid Technologies: Prof. TSE Michael C K: Analog Circuits, Power Electronics, Smart Grid, Networks and Nonlinear Systems: Dr. CHAN W S: High-Power RF and Microwave, Amplifiers, RF and Microwave Engineering: Dr. TSANG K F

Power Electronics and Systems | Department of Electrical ...

With the exception of Electronics and Computer Engineering, all our degrees follow a common syllabus in the first two years of study. This provides you with the option to transfer between specialisms at the end of Stage 2. Electrical and Electronic Engineering. This is a broad degree. It covers everything from the operation of nanoelectronic devices to national-scale electricity networks, from ...

Electrical & Electronic Engineering: Undergraduate ...

The Solid State Electronics and Nanoscale Science group conducts research in large area electronic materials and high-power semiconductor devices, carbon nanotubes, and semiconducting nanowires. The Electrical Power and Energy Conversion group focuses on power electronic devices and integrated circuits, and their uses in various applications.

Electrical Engineering | Department of Engineering

Department of Electrical Engineering and

Electronics Taught by world-renowned experts Undergraduate courses based on the latest research, emerging technologies and industry trends.

Department of Electrical Engineering and Electronics ...

Founded by the 'father of electronics', Professor Sir John Ambrose Fleming in 1885. Our globally pioneering research is still at the forefront of innovation. The Department of Electronic and Electrical Engineering (EEE) was established in 1885 as the first department of electrical technology in England.

UCL Department of Electronic and Electrical Engineering ...

The department was established in 1960 with a UG programme in Electrical Engineering. The postgraduate programme in 'Integrated Power System' was started in 1968. Later, another postgraduate program in 'Power Electronics and Drives' was introduced.

Department of Electrical Engineering - South Ambazari Road ...

The Department of Electrical and Electronic Engineering has educated electrical and

***electronic engineers for over a century -
might you be next?***

***Department of Electrical and Electronic
Engineering - The ...***

***CURRENT is an Engineering Research Center
(ERC) jointly supported by the National
Science Foundation and the Department of
Energy. Led by UT, CURRENT enjoys broad
industry support from more than forty
companies, including electric power utilities,
manufacturers, consulting firms, and national
laboratories including Oak Ridge National
Laboratory.***

Welcome to the Department of Electronic
Engineering, a department dedicated to world-
leading research and teaching in Electronic
Engineering. Our research groups play
significant roles on the national and
international stage, collaborating with major***

industries and securing funding from research councils.

Electronic Engineering - Electronic Engineering, The ...

Electronic & Electrical Engineering We're ranked No. 1 in Scotland The Department has been rated top in Scotland and in the UK Top 5 for Electrical Engineering (Times and Sunday Times Good University Guide 2020). Combining research excellence, global industry engagement and first-rate teaching, we deliver an outstanding student experience.

Electronic & Electrical Engineering | University of ...

At the Department of Electric Power Engineering (IEL), the mission is to contribute to the fundamental and applied knowledge of electric power engineering, and to develop technology and systems for the planning, operation and maintenance of efficient, sustainable energy systems.

Department of Electric Power Engineering - NTNU

Our research: We are the highest ranked Electrical and Electronic Engineering department in the UK. Read our REF results

2014. Read our REF results 2014. Explore some of the highlights from our past, and meet some of the individuals whose achievements have helped us become one of the world's leading centres for Electrical and Electronic Engineering.

Department of Electrical and Electronic Engineering ...

The department offers B. Tech in Electrical and Electronics Engineering, two M. Tech programs (1. Communication System Engineering, 2. VLSI and Embedded Systems) and Ph.D. program in various specialized areas of Electrical Engineering.

Electrical Engineering - Indian Institute of Technology Patna

Join the department's research groups that, working closely with industry, stay at the forefront of electrical engineering trends worldwide. Our research projects cover a wide range of subjects, including the investigation of novel computer systems, the simulation of electricity networks, the use of computer control and instrumentation to optimise process performance, ecologically ...
