

Eric Flint 1636 The Ottoman Onslaught Format

The assassinated Shah Jahan lies entombed beside his beloved wife in the Taj Mahal, while their progeny drag the Mughal Empire into a three-sided struggle over the succession to the Peacock Throne. The diplomatic and trade mission from the United States of Europe is openly siding with Princess Jahanara and her brother Dara Shikoh. The mission, made up largely of Americans transplanted in time by the Ring of Fire, is providing the siblings with technical assistance as they prepare to fight their rivals for the throne, Aurangzeb and Shah Shuja. Meanwhile, the Afghan adventurer Salim Gadh Yilmaz, confidant of two emperors—Shah Jahan and now his son Dara Shikoh—has been elevated to the position of general. He has great challenges to face, not the least of which is resisting the fierce and forbidden mutual attraction between himself and Princess Jahanara. As the conflict deepens, the junior members of the mission are sent east to buy opium needed by the USE's doctors. Their guide, merchant Jadu Das, has an agenda of his own, one entrusted to him by Jahanara: seek out her great uncle, Asaf Khan, and promise whatever is needed to bring his army over to Dara's side. The USE's mission was sent to India in search of goods needed in Europe. But now they find that straightforward task has become enmeshed in a great civil war—for control of the Peacock Throne. Book #18 in the multiple New York Times best-selling Ring of Fire series, and the team behind national bestseller 1635: The Kremlin Games. When Grantville, West Virginia was transported back to the year 1631 -- in the middle of the Thirty Years' War, no less -- many things happened. Many opportunities arose. It's said that a rising tide lifts all boats. Perhaps not quite as high as the Barbie Consortium rose, however. A cabal of ten- to twelve-year-old girls? They aren't twelve anymore. And they gave up playing with dolls some years ago, when they sold them all and started an investment consortium. A consortium that did quite well. The Barbie Consortium hits Vienna. In several different ways. The princes and princesses, dukes and duchesses, the common men and women on the street have no idea what's about to happen. Neither do the girls, but they're determined it'll happen their way. At the publisher's request, this title is sold without DRM (Digital Rights Management). NEW ENTRY IN THE NEW YORK TIMES BEST-SELLING, GENRE-DEFINING ALTERNATE HISTORY SERIES. It's been five years since a cosmic incident known as The Ring of Fire transported the modern day town of Grantville, West Virginia, through time and space to 17th century Europe. The course of world history has been forever altered. And Mother Russia is no exception. Inspired by the American up-timers' radical notion that all people are created equal, Russian serfs are rebelling. The entire village of Poltz, led by blacksmith Stefan Andreevich, pulls up stakes to make a run for freedom. Meanwhile, Czar Mikhail has escaped house arrest, with the aid of up-time car mechanic Bernie Zeppi, his Russian associates—and a zeppelin. The czar makes his way to the village of Ufa. There he intends to set up a government-in-exile. It is to Ufa that the serfs of Poltz are heading, as well. The path is dangerous—for the serfs as well as the czar. They face great distances and highwaymen. But the worst threat are those in the aristocracy who seek to crush the serfs and execute the czar in a bid to drive any hope for Russian freedom under their Parisian-crafted boot heels. But the Russians of 1637 have taken inspiration from their up-timer counterparts. And it could be that a new wind of liberty is about to blow three centuries early—and change Mother Russia forever. Book #24 in the multiple New York Times best-selling Ring of Fire series. SEVEN DAYS IN MAY, 1636 It's spring in Burgundy. The flowers are out and so are the cardinals—of Pope Urban's renegade papacy, now on the run from the Vatican's would-be usurper Borja. Most of the Church's senior leaders have converged upon the city of Besancon, where the Pope plans to offer an ecumenical olive branch to the other Christian denominations with which Rome has been at war. Fortunately, Urban has up-time help. He can rely upon Cardinal-Protector Larry Mazzare's theological savvy, Sharon Nichols' medical skills, and her husband Ruy Sanchez's keen-eyed experience as a body-guard-in-chief. And even though Urban has a new Papal Guard in the form of Owen Rowe O'Neill's Wild Geese, Mike Stearns has loaned the Pope a small contingent of the Hibernian Battalion—just in case. Which is prudent, since Urban and his peace initiative are not merely at risk from Borja's assassins. There is another, more deadly, team of professional killers in town, directed by the man who almost killed the Pope before: lethal Spanish mastermind Pedro Dolor. Dolor hasn't come to confess murder—he's come to commit it. The latest entry in the multiple New York Times best-selling Ring of Fire series created by Eric Flint. After carving a free state for itself in war-torn 17th century Europe, citizens of the modern town of Grantville, West Virginia go on a quest for the makings of medicines that have yet to be invented in 17th century Europe. The United States of Europe, the new nation formed by an alliance between the Swedish king Gustavus Adolphus and the West Virginians hurled back in time by a cosmic accident—the Ring of Fire—is beset by enemies on all sides. The U.S.E. needs a reliable source of opiates for those wounded in action, as well as other goods not available in Europe. The Prime Minister of the U.S.E., Mike Stearns, sends a mission to the Mughal Empire of India with the aim of securing a trade deal with the Mughal emperor, Shah Jahan. The mission consists of a mixed group of up-timers and down-timers, including paramedics, a squad of soldiers with railroad-building experience, a spy and a pair of swindlers. On reaching India the mission finds a grieving emperor obsessed with building the Taj Mahal, harem-bound princesses, warrior princes, and an Afghan adventurer embroiled in the many plots of the Mughal court. The emperor's sons are plotting against each other and war is brewing with the newly risen Sikh faith. But in the midst of these intrigues, the U.S.E. mission finds an ally: the brilliant and beautiful Jahanara Begum, the eldest daughter of Shah Jahan. She is the mistress of her father's harem and a power in her own right, who wishes to learn more of these women who are free in a way she can scarcely comprehend. When the Emperor learns of what befalls his empire and children in the time that was, he makes every effort to change their fate. But emperors, princesses, and princes are no more immune to the inexorable waves of change created by the Ring of Fire than are the Americans themselves. There was no food. Disease was rampant. For over a decade religious war had ravaged the land and the people. Catholic and Protestant armies marched and countermarched across the northern plains, laying waste the cities and slaughtering everywhere. In many rural areas population plummeted toward zero. Only the aristocrats remained relatively unscathed; for the peasants, death was a mercy. 2000 Things are going OK in Grantville, West Virginia. The mines are working, the buck are plentiful (it's deer season) and everybody attending the wedding of Mike Stearn's sister (including the entire membership of the local chapter of the United Mine Workers of America, which Mike leads) is having a good time. THEN, EVERYTHING CHANGED.... When the dust settles, Mike leads a small group of armed miners to find out what's going on. Out past the edge of town Grantville's asphalt road is cut, as with a sword. On the other side, a scene out of Hell; a man nailed to a farmhouse door, his wife and daughter lying screaming in muck at the center of a ring of attentive men in steel vests. Faced with this, Mike and his friends don't have to ask who to shoot. At that moment Freedom and Justice, American style, are introduced to the middle of The Thirty Years War. Book #21 in the multiple New York Times best-selling Ring of Fire series. The uptimers and their allies take on the Ottoman Empire at its height of power. The modern West Virginia town of Grantville has been displaced in time to continental Europe in 1632. Now four years have passed. The long-feared attack on Austria by the Ottoman Empire has begun. Armed with new weapons inspired by the time-displaced Americans of Grantville, the Turks are determined to do what they were unable to do in the universe the Americans came from: capture Vienna. The Ottomans have the advantage of being able to study the failings and errors of their own campaigns in a future they can now avoid. They are led by the young, dynamic, and ruthless Murad IV, the most capable emperor the Ottomans have produced in a century. They are equipped

with weapons that would have seemed fantastical to the Turks of that other universe: airships, breech-loading rifles, rockets—even primitive tanks. And this time they won't have to face massive reinforcements from Austria's allies. In fact, the only force Emperor Gustav Adolf can think of sending to Austria is the United States of Europe Third Division under the command of Mike Stearns. It's an army currently engaged in a desperate struggle for Bavaria. The emperors of the USE and Austria share the same problem. They have one too many enemies, one too few allies, and only one general to cover the gaps. Fortunately, that general is Mike Stearns, also known as the Prince of Germany. A sparkling addition to the multiple New York Times best-selling Ring of Fire alternate history series created by Eric Flint. An alchemist of the 17th century confronts modern science with often amusing results. Phillip Theophrastus Gribbleflotz, the world's greatest alchemist and a great-grandson of Paracelsus—and a Bombast on his mother's side—was a man history had forgotten. But when the town of Grantville was transported by a cosmic accident from modern West Virginia to central Germany in the early seventeenth century, he got a second chance at fame and fortune. The world's greatest alchemist does not make household goods. But with suitable enticements Gribbleflotz is persuaded to make baking soda and then baking powder so that the time-displaced Americans can continue to enjoy such culinary classics as biscuits and gravy. Applying his superb grasp of the principles of alchemy to the muddled and confused notions the Americans have concerning what they call "chemistry," Gribbleflotz leaves obscurity behind. In his relentless search for a way to invigorate the quinta essential of the human humors, Gribbleflotz plays a central role in jump-starting the seventeenth century's new chemical and marital aids industries—and pioneering such critical fields of human knowledge as pyramidology and aura imaging. These are his chronicles. At the publisher's request, this title is sold without DRM (Digital Rights Management). A NEW NOVEL IN ERIC FLINT'S LANDMARK RING OF FIRE SERIES CONTINUING THE EASTERN EUROPE STORYLINE EXPLORED BY FLINT IN 1637: THE POLISH MAELSTROM. Up-timer Morris Roth and his Grand Army of the Sunrise stand at a crossroads. Military success against the Polish-Lithuanian magnates has all but guaranteed a continued push east into Ruthenian lands. There, Roth hopes to further his Anaconda Project so that tens of thousands of Jews are not slaughtered in what's to become known as the Chmielnicki Pogrom of 1648. An envoy from Transylvania arrives with a promising offer from its prince, who wishes to form an alliance with Bohemia, but the land shrouded in the fog of the Carpathian mountains and known only to most up-timers as the playground of Count Dracula is a vassal state of the Ottoman Empire. Such an alliance would surely draw the ire of Sultan Murad IV. The United States of Europe agrees to assist the Bohemian forces, and sends in the Silesian Guard, under the command of Brigadier Jeff Higgins. They also send in Gretchen Richter to organize and lead the political struggle. Transylvania is thrown into political, social, and religious turmoil as battle lines are drawn. Whatever happens and whoever wins the fight, one thing is certain: the history of Eastern Europe will change radically. In fact, it already has. The Gods of Sagittarius

The Grantville Gazette**Ring of Fire****1637: The Transylvanian Decision**

As the Thirty Years War continues to devastate Europe, the inhabitants of the American town mysteriously transported from the twentieth century to the seventeenth century confront a new foe, Cardinal Richelieu of France, who will do anything to stop a threat to his power, while working in Venice to prevent a plague and dealing with a Venetian artisan determined to rescue Galileo from a heresy charge.

The Ring of Fire Series Continues! The United States of Europe finds itself embroiled in international intrigue, as the uptimers attempt to establish an embassy in Ming Dynasty era China. The newly formed United States of Europe, created by an alliance between the time-displaced Americans from the town of Grantville and the Swedish king Gustavus Adolphus, decides to send an embassy to the Chinese empire. One of the main purposes of the embassy is to establish trade in order to gain access to critical resources. The mission is a gamble—some might say, a long shot. The Ming dynasty is on the verge of collapse and China's rulers are suspicious of foreigners. The mission experiences one setback after another, but presses on. And they gain an important ally along the way: Zheng Zhilong, a former pirate now an admiral for the Ming navy and the head of an extremely wealthy Fujian province trading family. He knows through his Jesuit missionary connections that according to Grantville's history books, the Ming dynasty is in danger, from famines, bandit armies and barbarian invaders. And he is determined that, one way or another, he and his family will survive and even prosper. The embassy is joined as well by a young scholar, who helps them make inroads into China's complex and often dangerous society. Can the up-timers and their friends persuade the imperial dynasty and its mandarins to establish trade and diplomatic relations with the USE? They have one great asset: their knowledge may be the key to saving China from decades of mass suffering and civil war. At the publisher's request, this title is sold without DRM (Digital Rights Management). An exciting addition to the multiple New York Times best-selling Ring of Fire alternate history series created by Eric Flint. Time travelers from our modern age are thrown into the deadly straits of the Thirty Years War in Europe of the 1600s. In the year 1635, the Rhineland is in turmoil. The impact of the Ring of Fire, the cosmic accident which transported the small modern West Virginia town of Grantville to Europe in the early seventeenth century, has only aggravated a situation that was already chaotic. Perhaps nowhere in central Europe did the Thirty Years War produce so much upheaval as it did in the borderlands between France and Germany. Archbishop Ferdinand of Cologne shares the religious fanaticism of his older brother, Duke Maximilian of Bavaria. He is determined to restore the power of the Catholic Church over the middle Rhine, the so-called "Bishop's Alley," and has unleashed a plot for that purpose. But that same middle Rhine is territory which Landgrave William V of Hesse-Kassel is determined to seize for himself, under the guise of expanding the influence of the United States of Europe. Add to the witch's brew the deaths in battle of Duke Wolfgang of Jülich-Berg and his son, which leaves his young widow Katharina Charlotte as the heir to those much-prized territories. She is now on the run, in disguise—and pregnant. Add the unexpected arrival of Austria's most capable general, Melchior von Hatzfeldt, along with the most ruthless spy and torturer in the Rhineland, Felix Gruyard. The wars for the Rhine have erupted, and only the devil knows how they will end. At the publisher's request, this title is sold without DRM (Digital Rights Management). Lt. Jack Reilly's luck ran out just before the war did. Released on a medical discharge shortly after the end of the war with the Serkens, he went out into the galaxy looking for a job. Signing onto the Glacier Runner 17, an old and rundown cargo ship, Reilly finds himself working for a clueless Captain, mixed up in an intergalactic conspiracy, on the run from assassins and involved with two women in relationships that he could only call "complicated." Fans of Matthew O. Duncan will recognize the universe as the same as from the New Terra Sagas, but this is not a sequel. This is a stand-alone, spin-off with new characters, new worlds and in a different format. Told in the first person from Reilly's perspective, this is a fast moving, non-stop sci-fi adventure.

The battle between democracy and tyranny is joined, and the American Revolution has begun over a century ahead of schedule. A cosmic accident has shifted a modern West Virginia town back through time and space to land it and its twentieth century technology in Germany in the middle of the Thirty Years War. History must take a new course as American freedom and democracy battle against the squabbling despots of seventeenth-century Europe. Continuing the story begun in the hit novels 1632 and 1633, the New York Times best-selling creator of Honor Harrington, David Weber, the best-selling fantasy star Mercedes Lackey, best-selling SF and fantasy author Jane Lindskold, space adventure author K. D. Wentworth, Dave Freer, co-author of the hit novels Rats, Bats & Vats and Pyramid Scheme (both Baen), and Eric Flint himself combine their considerable talents in a shared-universe volume that will be a "must-have" for every reader of 1632 and 1633.

As the Thirty Years War continues to ravage seventeenth-century Europe, the West Virginians from twentieth-century America enter into an alliance with Gustavus Adolphus, King of Sweden, to promote a revolution among the peasants who seek freedom from the tyrannical nobility of the period.

A new addition to the four-time New York Times best-selling Ring of Fire series. After carving a place for itself among the struggling powers of 17th century Western Europe, the "out-of-time" modern town of Grantville, West Virginia must fight for its life against Dark Age domination. Alternate history master Eric Flint returns in top form with an epic addition to the multiple New York Times best selling Ring of Fire series. A cosmic accident sets the modern town of Grantville, West Virginia, down in war-torn seventeenth century Europe and a new nation is forged. Now when United States of Europe ally King Gustavas of Sweden invades Poland, the U.S. of E. is dragged into a full-scale European war against ruthless opponents. Meanwhile Mike Stearns, wily and courageous leader of the up-time West Virginians, has been turned out of office in an election. But, like Churchill (before and after him) Stearns is not done yet. He's determined to stoke the fires of democratic rebellion in Saxony near the main front, and thus keep the young nation he founded, and once led, out of the hands of medieval tyrants-tyrants who would like nothing better than to wipe those troublesome upstarts from the future off the timeline and go back to the bad old days of oppression and serfdom. NEW ENTRY IN THE DRAGON AWARD-WINNING ARCANE AMERICA SERIES from New York Times best-selling alternate history master Eric Flint. The passage of Halley's Comet in 1759 is catastrophic. The comet appears to strike the Earth, sundering the New World from the Old. A chain of mountains rises in the Mid-Atlantic. No ship from the Old World arrives in America. No ship from the New World can find a passage to the Old—and most who try simply disappear. The comet has also unleashed magic forces, which soon spread everywhere. Slaves begin using powers derived from African witchcraft, bringing monsters from that continent into the New World. The native tribes begin doing the same. Some European settlers devise ways to couple Old World technology with sorcery. Kraken in the Atlantic, revenants in Jamaica, Dry Hands and Floating Heads in the Hudson valley, African ogres and worse set loose in the streets of New York. Magic of all kinds, emerging everywhere, most of it poorly if at all controlled. The powerful Iroquois Confederacy disintegrates. The Onondaga Council Fire is extinguished; the Seneca and Cayuga follow their own shaman and war leader, and the Mohawks ally with the English. For their part, the English and the French in North America, who had been on the brink of war when the Sundering came, now have to contemplate what would once have been unthinkable. They must not simply forge a military alliance against the rising dark powers but may even have to unite politically behind the young English prince Edward, now the only person of royal blood left in the terrifying world created by the Sundering. This hardy adventure establishes a world ripe for many more rousing stories."—Publishers Weekly "With a light and brisk narrative that propels its heroes through a number of increasingly dangerous situations, this combination of alternate history and fantasy should appeal to fans of Eric Flint, Harry Turtledove, and historical fantasy in general."—Booklist "While delivering plenty of action that approximates the best of cinematic fantasy, Hoyt and Anderson also strive for—and achieve—a kind of gravitas that suitably reflects the majesty of an untrammelled continent. Their descriptions of raw nature and its emotional repercussions on the humans are subtly poetic without being overblown. The native tribes are depicted in authentic ways, especially the people of Sacagawea. . . .The characterization of all the cast members is deep and revelatory of human nature. . . . There is also humor amidst the seriousness . . . [Anderson and Hoyt's] prose is a clear-eyed, sturdy naturalism meshed with flights of vivid unreality . . . filled with not only slambang adventures but also a kind of rational optimism that has become rare in genre works these days. . . THE DEADLIEST PREDATORS OF THREE SEPARATE EONS Captain Andy Blacklock was overseeing the change of shifts at the state of Illinois' maximum-security prison when the world outside was suddenly ripped. They thought it was an earthquake until they found that the Mississippi River had disappeared, along with all signs of civilization. Then the sun came up^{3/4}in the wrong direction. And a dinosaur came by and scratched its hide against the wall of the prison ... Something had thrown the prison back in time millions of years. And they were not alone. Other humans from periods centuries, even millennia, apart had also been dropped into the same time. Including a band of murderous conquistadores. But the prison had its own large population of murderers. They couldn't be turned loose, but what else could be done with them. Death walked outside the walls, human savagery was planning to break loose inside, and Stephens and the other men and women of the prison's staff were trapped in the middle. NEW TIME TRAVEL ALT. HISTORY FROM A MASTER: Flint's Ring of Fire and Boundary series have proved him to be a master of time travel alternate history. Here then, a new tale of persons displaced in time, fighting for their lives. Twice before, mysterious cosmic catastrophes have sent portions of the Earth across space and back in time—first, with the Grantville Disaster in West Virginia, and then again with a maximum security prison in southern Illinois. Now, the planet is struck with yet another such cataclysm, whose direct impact falls upon the Queen of the Sea, a cruise ship in the Caribbean. When the convulsions subside, the crew and passengers of the ship discover that they have arrived in a new and frightening world. They are in the Mediterranean now, not the Caribbean. Still worse, they discover that the disaster has sent them more than two thousand years back in time. Following the advice of an historian among the passengers, Marie Easley, they sail to Egypt—or, at least, where they hope Egypt will be. Sure enough, Egypt is there—ruled over by Ptolemy, the founder of the Ptolemaic dynasty and one of Alexander the Great's chief generals. Alexander the Great, it turns out, died just two years ago. The western world has just entered what would become known as the Hellenistic Period of history, during which time Greek civilization would spread around the Mediterranean and beyond. But the first fifty years of the Hellenistic Period was the Age of Diadochi—the Time of the Successors—when Alexander's empire would collapse into chaos. By the time the Successors finished their strife, every single member of Alexander's dynasty would

be murdered and only three of the generals who began that civil war would still be alive. That is the new world in which the Queen of the Sea finds itself. Can Marie Easley and Captain Lars Flodden guide the crew and passengers through this cataclysm? Fortunately, they have some help: a young Norwegian ship's officer who forms an attachment to Alexander's widow; a French officer who is a champion pistol marksman; a canny Congressman from Utah—and, most of all, many people of the time who are drawn to a vision of the better world of the future. In 1517, the Ottoman Sultan Selim "the Grim" conquered Egypt and brought his empire for the first time in history into direct contact with the trading world of the Indian Ocean. During the decades that followed, the Ottomans became progressively more engaged in the affairs of this vast and previously unfamiliar region, eventually to the point of launching a systematic ideological, military and commercial challenge to the Portuguese Empire, their main rival for control of the lucrative trade routes of maritime Asia. The Ottoman Age of Exploration is the first comprehensive historical account of this century-long struggle for global dominance, a struggle that raged from the shores of the Mediterranean to the Straits of Malacca, and from the interior of Africa to the steppes of Central Asia. Based on extensive research in the archives of Turkey and Portugal, as well as materials written on three continents and in a half dozen languages, it presents an unprecedented picture of the global reach of the Ottoman state during the sixteenth century. It does so through a dramatic recounting of the lives of sultans and viziers, spies, corsairs, soldiers-of-fortune, and women from the imperial harem. Challenging traditional narratives of Western dominance, it argues that the Ottomans were not only active participants in the Age of Exploration, but ultimately bested the Portuguese in the game of global politics by using sea power, dynastic prestige, and commercial savoir faire to create their own imperial dominion throughout the Indian Ocean.

A continuation of the saga that began in 1632 and 1633 describes life for the inhabitants of Grantville, an American town from West Virginia that finds itself hurtled back in time and into the middle of the Thirty Years War, as they struggle to bring their advanced technology to the seventeenth century. NEW ENTRY IN THE WITCHES OF KARRES SERIES BY NEW YORK TIMES BEST-SELLING AUTHOR ERIC FLINT & DAVE FREER Captain Pausert just can't catch a break! First, he became the mortal enemy of his fiancée, his home planet, the Empire—and even the Worm World, the darkest threat to mankind in all of space. All because he helped rescue three slave children from their masters. Of course, these three young women were the universally feared Witches of Karres—but how was he to know that?! And after he defeated the Worm World (with the help of the witches, of course), the Empress herself had sent him on a secret mission to stop a nanite plague that was raging across the galaxy. But an enemy had somehow convinced the Imperial Fleet that he was actually a wanted criminal, so after a battle leaving his ship in urgent need of repairs, Pausert and the witches of Karres joined an interstellar traveling circus in order to save the galaxy. Now Pausert and the witches of Karres roam the spaceways again, this time dealing with a slaver-culture that somehow makes slaves happy to be in servitude, and a quest for a long-lost alien pet, during which the youngest witch, The Leewit, begins to come to her full powers as a healer—and of course generates chaos in her wake. For Pausert, it's all in a day's work. But would it be too much to ask for a vacation? At the publisher's request, this title is sold without DRM (Digital Rights Management). THE BEST-SELLING RING OF FIRE SERIES CONQUERS THE NEW WORLD! It has taken almost five years for the United States of Europe to stabilize its position in 17th-century Europe. Now it turns its attention to the New World, where the English have ceded their colonial claims to France. There are vast lands and rich resources across the Atlantic for any nations powerful enough to rule and control them—and equal incentive for other nations to block their path. The time-displaced Americans know about the future path that led to their own United States in North America, in the other universe they came from. But do they want to repeat that history as it was? Yes, they had democracy—but they are helping to create that in Europe. And they have learned the bitter prices paid for chattel slavery and the near-extermination of the native populations. Knowledge is power. Perhaps a new course can be taken. Accordingly, an expedition is sent to the New World to see just what might be happening there and what might be done. They are armed with their technology, among which are a radio and an airship. More importantly, they are armed with the knowledge of future history and their determination not to repeat the errors of their past. What could possibly go wrong? NEW SOLO NOVEL BY ERIC FLINT IN THE BEST-SELLING RING OF FIRE SERIES! The Ottoman Empire has captured Vienna and is now laying siege to the Austrian government-in-exile established in the city of Linz. Both the United States of Europe and the Kingdom of Bohemia have come to Austria's assistance, but everyone knows this is going to be a long and brutal struggle. In order to relieve the pressure on the Austrians, General Mike Stearns proposes to open a second front in the Levant. The USE's emperor Gustavus Adolphus gives his approval to the plan, and Mike sets it in motion, with the very capable assistance of his wife Rebecca Abrabanel, now the USE's Secretary of State. Meanwhile, Poland is coming to a boil. Gretchen Richter, the newly elected chancellor of Saxony, has seized control of Lower Silesia. Her small army is now approached to form an alliance with the Polish revolutionaries who have seized power in the Ruthenian province of Galicia—which, in the universe the time-displaced Americans of Grantville came from, would have constituted the western Ukraine.

Now, the Bohemians send an army led by Morris Roth into Poland, ostensibly to aid the revolutionaries but also with the goal of expanding King Albrecht Wallenstein's growing empire in eastern Europe. And—the icing on the cake—Mike Stearns sends the Hangman Regiment of his Third Division under the command of Jeff Higgins to reinforce Jeff's wife Gretchen in Silesia. The maelstrom in Poland grows . . . and grows . . . and grows . . . Will it drag all its displaced Americans and their allies down with it? TWO SHORT NOVELS SET IN ERIC FLINT'S BESTSELLING RING OF FIRE SERIES from David Carrico, co-author of 1636: The Devil's Opera, and The Span of Empire. Time waits for no one, but for the residents of 17th-century Europe, the future comes calling—ahead of time! Due to a temporal disturbance known as the Ring of Fire, the 20th-century town of Grantville, West Virginia, finds itself transported through time and space to Central Europe in the year 1632. The turmoil resulting from the event has massive repercussions for the up-time citizens of Grantville, the down-time citizens of Europe—and the world at large. Massive political and social upheavals take place. But change happens on a smaller, human scale, too. In The Flight of the Nightingale, down-timer Francesca Caccini is inspired by the arrival of Grantville to seek a different destiny from what would have been her lot otherwise. And in Bach to the Future, Johann and his brothers commit themselves to preserve, protect, and promote their family's heritage from the future. Two short novels, set in Eric Flint's bestselling Ring of Fire series, that shine a light on the overlooked corners of the Ring of Fire universe, where small actions can have life-altering consequences. At the publisher's request, this title is sold without DRM (Digital Rights Management).

NEW ENTRY IN THE BEST-SELLING RING OF FIRE SERIES FROM NEBULA AND DRAGON AWARD NOMINEE CHARLES E. GANNON AND ROBERT WATERS Domingos Fernandes Calabar started out as a military advisor for the Portuguese in Brazil. But to his superiors, he was still nothing more than a mameluco, a man of mixed blood. Until, that is, the Dutch arrived and he switched sides. Then the Portuguese had a new label for him: "traitorous dog." But when Dutch admiral Maarten Tromp arrives, having barely survived the disastrous Battle of Dunkirk, Calabar's job changes again. Now he has to help engineer a swift Dutch exodus to a safer place before word of Tromp's defeat reaches Spanish ears. Partnered with the Sephardic pirate Moses Cohen Henriques, the two aid the battered Dutch fleet by striking at the Portuguese and Spanish, both on land and sea. Until, that is, Calabar learns that bitter personal enemies have grabbed his family, put them in chains, and sold them to a slaveship bound for the Spanish Main. Calabar must now choose: continue to help the Dutch, or save his wife and children? Tromp and other strong allies want to put an end to slavery, too, but their strategies and timetable are measured in months and years. Calabar doesn't have that kind of time and can't rely on their methods. The struggle to recover his family, and to free the millions more suffering in shackles, is one he must win in his own way and on his own terms. Because ultimately, this is not just Calabar's fight. AMERICAN FREEDOM AND JUSTICE VS. THE TYRANNIES OF THE SEVENTEENTH CENTURY The new government in central Europe, called the Confederated Principalities of Europe, was formed by an alliance between Gustavus Adolphus, King of Sweden, and the West Virginians led by Mike Stearns who were transplanted into 17th-century Germany by a mysterious cosmic accident. The new regime is shaky. Outside its borders, the Thirty Years War continues to rage. Within, it is beset by financial crisis as well as the political and social tensions between the democratic ideals of the 20th-century Americans and the aristocracy which continues to rule the roost in the CPE as everywhere in Europe. Worst of all, the CPE has aroused the implacable hostility of Cardinal Richelieu, the effective ruler of France. Richelieu has created the League of Ostend in order to strike at the weakest link in the CPE's armor^{3/4}its dependence on the Baltic as the lifeline between Gustav Adolf's Sweden and the rest of his realm. The greatest naval war in European history is about to erupt. Like it or not, Gustavus Adolphus will have to rely on Mike Stearns and the technical wizardry of his obstreperous Americans to save the King of Sweden from ruin. Caught in the conflagration are two American diplomatic missions abroaRebecca Stearns' mission to France and Holland, and the embassy which Mike Stearns sent to King Charles of England headed by his sister Rita and Melissa Mailey. Rebecca finds herself trapped in war-torn Amsterdam; Rita and Melissa, imprisoned in the Tower of London. And much as Mike wants to transport 20th-century values into war-torn 17th-century Europe by Sweet Reason, still he finds comfort in the fact that Julie, who once trained to be an Olympic marksman, still has her rifle . . . THE NEW WORLD FALLS INTO THE RING OF FIRE. All new stories set in the Ring of Fire series, edited by New York Times best-selling series creator Eric Flint. Europe, 1632. It is a time of upheaval and great change. But none so great as when an unexplained temporal and spatial phenomenon known as the Ring of Fire transports the blue collar town of Grantville, West Virginia, smack dab in the middle of the Thirty Years War. When the dust settles, it becomes clear that the town of Grantville isn't going anywhere, and the can-do Americans of the twenty-first century begin altering the course of history forever. It is now five years later, and the effects of the Ring of Fire reach from the Old World to the New. But the course of exploration and colonization will look much different than it did in our timeline. The French bought the English possessions in North America way back in 1633, but have never done much with the uncivilized backwater. Until the new king of France, Gaston I, decides that it's time to seize the territory and establish French control over it. The Alexander Inheritance

A grand alternate history, science fiction adventure from multiple New York Times best-selling author Eric Flint, creator of the Ring of Fire alternate history series, the Jao Empire series, and the Boundary series, and multiple Hugo award winner and science fiction legend Mike Resnick. Russ Tabor is one of the top security specialists in the galaxy. Much against his will, he finds himself assigned to provide protection for Rupert Medawar Narayan Shenoy—"Lord Shenoy," as he likes to style himself—who is probably the human race's most brilliant savant. Shenoy has become convinced that the race of ancient aliens known as the Old Ones possessed powers unknown to any modern intelligent species. He believes they had harnessed forces which may well have been actual magic, giving the Old Ones the stature of gods. Off Russ and Shenoy go to find the secret. Meanwhile, Occo, a member of the alien race known as the Nac Zhe Anglan, returns to her religious creed's home cloister to find that it has been completely destroyed—and by means which suggest that the Old Ones were the perpetrators. Yet the Old Ones, those ancient and inimical gods of the galaxy, were thought to have perished eons before. Occo is not a savant of any kind. She is a shaman castigant, a warrior of her creed. Her purpose now is to seek revenge, not to uncover the secrets of the Old Ones. But she cannot do the one without first doing the other. So, she and her familiar Bresk set ought to track down those long-gone deities. Now human adventures and an alien shaman are on a collision course with the truth: despite their many differences, only if they unite their forces do they stand any chance of surviving the coming encounter with the gods of Sagittarius. THE BATTLE FOR THE NEW WORLD IS A FIGHT TO THE FINISH! A NEW RING OF FIRE NOVEL BY BEST-

SELLING WRITING TEAM ERIC FLINT AND CHARLES E. GANNON A New Day in the New World It's 1637 in the Caribbean. Commander Eddie Cantrell and his ally and friend Admiral Martin Tromp start it off with some nasty surprises for Spain, whose centuries-long exploitation and rapine of the New World has run unchecked. Until now. Yet life goes on in the Caribbean. Relationships among the allied Dutch, Swedes, Germans, up-timers, and even Irish mercenaries continue to evolve and deepen. New friendships must be forged with the native peoples, who will not only shape the colonists' future in the Caribbean, but will also decide whether they will be given access to a Louisiana oilfield that could change the balance of power. But for now, the only oil Imperial Spain knows about is the crude pouring out of the Allies' pumps on Trinidad—which threatens its interests in both the New and the Old Worlds. So, following in the footsteps of the conquistadors, the empire's commanders are resolved to show that they do not take threats lightly or lying down. Indeed, their historical reaction is to respond with overwhelming—and often genocidal—force. The battle for the New World has not merely begun; it is a fight to the finish.

Fight for Freedom in a Dark and Bloody Age! After a cosmic accident sets the modern West Virginia town of Grantsville down in war-torn seventeenth century Europe, the United States of Europe is forged in the fire of battle. The Baltic War reaches a climax as France, Spain, England, and Denmark besiege the U.S.E. in the Prussian stronghold of Lubeck. Book #20 in the multiple New York Times_ best-selling Ring of Fire series. When the diplomatic embassy from the United States of Europe was freed from the Tower of London during the Baltic War, most of its members returned to the continent. But some remained behind in Britain: Oliver Cromwell and a few companions, including the sharpshooter Julie Sims, her Scot husband Alex Mackay, and Cromwell's Irish-American self-appointed watchdog Darryl McCarthy. Soon, the hunt is on for the most notorious rebel in English history, with King Charles himself demanding Cromwell's head. The new chief minister Richard Boyle, Earl of Cork, brings over from Ireland a notorious crew of cutthroats led by the man called Finnegan to track down and capture the escapees from the Tower. The hunt passes through England and into Scotland, where the conflict between Cromwell and his companions and their would-be captors becomes embroiled in Scotland's politics, which are every bit as savage and ruthless as Finnegan and his men. To make things still more conflicted and confused, the time Darryl McCarthy spends fighting alongside Cromwell forces him against his will to admire and respect—and even like—the man, despite Cromwell's demonic reputation among all self-respecting Irish nationalist families like Darryl's own. It's a Gordian knot anywhere you look—until Julie Sims brings out her rifle. Now it's the turn of Scot partisans and English lords and Irish toughs to learn the lesson already learned on the continent: A safe distance isn't what you think it is. Not after the American angel of death spreads her wings. At the publisher's request, this title is sold without DRM (Digital Rights Management). TIME TRAVEL ALTERNATE HISTORY FROM A MASTER. A new tale of time-displaced persons fighting for their lives in the ancient world, from 1632 and Boundary series creator Eric Flint. It's been more than a year since the cruise ship Queen of the Sea was transported in time and space to the ancient Mediterranean not long after the death of Alexander the Great. Captain Lars Floden and the other "Ship People" are trying to plant the seeds of modern civilization. It's not an easy task, to put it mildly, even if they have a tacit alliance with the co-regents of Alexander's empire, his widow Roxane, and Eurydice, the wife of his half-brother. For they have plenty of enemies, too. Cassander is using every foul means available to turn Macedonia and Greece into his own empire. The brutal general Antigonus One-Eye is doing the same in Mesopotamia. And Ptolemy, the cleverest of them all, is expanding his Egyptian realm to the Red Sea. Things aren't any easier in the

colony that passengers from the cruise ship founded on the Caribbean island of Trinidad. President Allen Wiley is trying to build a twenty-first century democratic nation, but the people he has to work with aren't the most suitable for the task: oldsters from the future, local tribesmen, and third-century BCE immigrants from Europe and Africa. War, religious strife, assassinations, espionage, poisonings and other murders—and a fair amount of love, too—all mix together with the Ship People's knowledge from the 21st century to form a new weaving of the fates. Hopefully, that will lead to a bright new future. If it doesn't kill everyone first. At the publisher's request, this title is sold without DRM (Digital Rights Management).
