

## **Fall 2017 Phoenix**

In this issue we feature Eldorado Gold – Opens the Lamaque Mine, Rick Rule on winning strategies for mining stock investors, Exploration & Mining in Canada's Maritimes, BC's Golden Triangle Review, Greenland & Northern Europe under-explored, Base Metals Project Profiles, Climate change & mining, Russia prepares tax benefits for investors and much more. Plus coverage on Pretium Resources, Victoria Gold, Goldspot, OZ Minerals, Jaxon Mining, Steppe Gold, Newrange Gold, Centerra, Premier Gold, Euro Sun, Blue Sky Uranium and many more.

An investigation of independent video games—creative, personal, strange, and experimental—and their claims to handcrafted authenticity in a purely digital medium. Video games are often dismissed as mere entertainment products created by faceless corporations. The last twenty years, however, have seen the rise of independent, or “indie,” video games: a wave of small, cheaply developed, experimental, and personal video games that react against mainstream video game development and culture. In *Handmade Pixels*, Jesper Juul examines the paradoxical claims of developers, players, and festivals that portray independent games as unique and hand-crafted objects in a globally distributed digital medium. Juul explains that independent video games are presented not as mass market products, but as cultural works created by people, and are promoted as authentic alternatives to mainstream games. Writing as a game player, scholar, developer, and educator, Juul tells the story of how independent games—creative, personal, strange, and experimental—became a historical movement that borrowed the term “independent” from film and music while finding its own kind of independence. Juul describes how the visual style of independent games signals their authenticity—often by referring to older video games or analog visual styles. He shows how developers use strategies for creating games with financial, aesthetic, and cultural independence; discusses the aesthetic innovations of “walking simulator” games; and explains the controversies over what is and what isn't a game. Juul offers examples from independent games ranging from *Dys4ia* to *Firewatch*; the text is richly illustrated with many color images.

Over 26,000 total pages .... Background: The Fast and Furious operation was responsible for allowing approximately 2,000 firearms to illegally flow into the hands of criminals, including Mexican drug cartel associates. On December 14, 2010, Customs and Border Patrol Agent Brian Terry, a United States Marine, was killed while on patrol just miles from the Mexican border. The firearms found at the scene were semi-automatic rifles that were allowed to walk as part of Operation Fast and Furious. Congressional Republicans have investigated Fast and Furious since January 2011. Over the course of the investigation, the Justice Department has provided false information, stonewalled document requests, produced scores of blacked-out pages and duplicate documents, and refused to comply with two congressional subpoenas. In August 2012, the U.S. House of Representatives Office of General Counsel filed suit against the Justice Department. On January 19, 2016, United States District Judge Amy Berman Jackson issued her opinion and ordered DOJ release documents previously withheld under the President's executive privilege claim. On April 8, 2016, DOJ complied with the Judge's order, delivering more than 20,500 pages of documents to the Committee. CONTENTS: Statement of Michael E. Horowitz, Inspector General - Report by the Office of the Inspector General on the Review of ATF's Operation Fast and Furious and Related Matters. Grassley Josephine Terry - Mother of Late Border Patrol Agent Brian Terry Robert Heyer - Terry Family Spokesman John Dodson - Special Agent, Phoenix Field Division Witnesses - Full Committee Hearing: Operation Fast and Furious: The Other Side of the Border: Carlos Canino, ATF Acting Attaché to Mexico Darren Gil, Former ATF Attaché to Mexico Jose Wall, ATF Senior Special Agent, Tijuana, Mexico Lorren Leadmon, ATF Intelligence Operations Specialist William Newell, Former ATF Special Agent in Charge, Phoenix Field Division William McMahon, ATF Deputy Assistant Director for Field Operations RESOLUTION RECOMMENDING THAT THE HOUSE OF REPRESENTATIVES FIND ERIC H. HOLDER, JR., ATTORNEY GENERAL, U.S. DEPARTMENT OF JUSTICE, IN CONTEMPT OF CONGRESS FOR REFUSAL TO COMPLY WITH A SUBPOENA DULY ISSUED BY THE COMMITTEE ON OVERSIGHT AND GOVERNMENT REFORM R E P O R T OF THE COMMITTEE ON OVERSIGHT AND GOVERNMENT REFORM UNITED STATES HOUSE OF REPRESENTATIVES OPERATION FAST AND FURIOUS: RECKLESS DECISIONS, TRAGIC OUTCOMES HEARING BEFORE THE COMMITTEE ON OVERSIGHT AND GOVERNMENT REFORM HOUSE OF REPRESENTATIVES ONE HUNDRED TWELFTH CONGRESS FIRST SESSION OPERATION FAST AND FURIOUS: THE OTHER SIDE OF THE BORDER HEARING BEFORE THE COMMITTEE ON OVERSIGHT AND GOVERNMENT REFORM HOUSE OF REPRESENTATIVES ONE HUNDRED TWELFTH CONGRESS FIRST SESSION Knowledge management principles, strategies, models, tools, and techniques have been proven in government, business, and industry. More recently, knowledge management has emerged as an essential enabler for the successful pursuit of scholarly activities in higher education. Knowledge management has significant contributions to make in capturing, storing, processing, and disseminating knowledge between and across these stakeholder entities and their processes to better support these interrelated processes and activities. Given the impetus provided by the United Nations Global Knowledge Economy Policy, institutions worldwide are actively pursuing the use of knowledge management in all facets of social and economic development. The importance of knowledge management research and application in academia is a critical element of this multifaceted endeavor. The Handbook of Research on Knowledge Management Tools in Higher Education is a compendium of cutting-edge research on the use of knowledge management in higher education and provides original, theoretical, and application-oriented research within this domain. The book will also provide insights on the management of expertise, knowledge, information, and organizational development in different types of work communities and environments. By including research on global perspectives, the implementation of knowledge management at universities, current trends in the field, and the results, this book is a valuable reference work for professionals and researchers working in the field of information and knowledge management in various disciplines, and academics, analysts, developers, students, technologists, education consultants, higher education administrators, academicians, stakeholders, and practitioners seeking to learn, improve, and expand their theoretical and applied knowledge of knowledge management tools and techniques, models, processes, and systems in higher education.

Higher Education's Past, Present, and Uncertain Future

What to do with the "Final Quarter" of your life, presumably post-retirement. Everything that those approaching (or in) retirement need to know but often are uncomfortable discussing or asking about. The author treats serious subjects with wit and from his own experiences, but he does not shy away from expressing opinions that may offend some readers, even as they encourage fresh thinking.

Find out how your county or city measures up with others across the United States!

Updated annually to guarantee convenient access to current statistical information, County and City Extra is a single-volume source of data for every U.S. state, county, metropolitan area, Congressional district, and all cities with populations above 25,000.

1979-2010: Contains data similar to that found in the County and City Databook, but on the state and MSA (Metropolitan Statistical Areas) levels.

The world's most comprehensive, well documented, and well illustrated book on this subject. With extensive subject and geographical index. 253 photographs and illustrations - mostly color, Free of charge.

Trauma- and Resilience-Informed Policy Development

Nadia Ferrara explores the elements of evidence-informed policy development and calls for a cultural shift within both the research and policy worlds in order to best embed these dynamic principles in practice.

With The Contemporary Piano, Shockley provides a comprehensive resource for composers writing music that uses extended techniques for the piano and for pianists interested in playing repertoire that makes use of techniques and/or implements unfamiliar to them.

Over the past two centuries, the world's socio-economic progression has gone through profound paradigm changes unfolding along four major development stages. Higher education has been an important part of this process. The accelerated pace of technological, socio-economic, and business innovations as well as ongoing fundamental changes in the real world call for progress in pedagogy. While modern universities have adapted in various degrees through information platforms such as Blackboard or Brightspace, video conferencing, and other technological innovations, they still commonly rely on pedagogical ideas and concepts rooted in a thoroughly pre-modern era rooted in medieval times. *Global Trends, Dynamics, and Imperatives for Strategic Development in Business Education in an Age of Disruption* explores the genesis of higher education and its contemporary structure and profile in major global regions and discusses key trends, dynamics, drivers, and developmental imperatives currently shaping business education. Covering topics such as business education, online education, and strategic development, this book is essential for teachers, managers, trainers, faculty, administrators, policymakers, researchers, academicians, and students involved in studies that include industrial, economic, social, urban, innovation, legal, and policy development.

In 1927 Cuban national Ignacio S. Molinet was recruited to play with the Frankford Yellow Jackets of the old NFL for a single season. Mexican national Jose Martinez-Zorrilla achieved 1932 All-American honors. These are the beginnings of the Latino experience in American Football, which continues amidst a remarkable and diversified setting of Hispanic nationalities and ethnic groups. This history of Latinos in American Football dispels the myths that baseball, boxing, and soccer are the chosen and competent sports for Spanish-surname athletes. The book documents their fascination for the sport that initially denied their participation but that could not discourage their determination to master the game.

Millennium transcends boundaries – between epochs and regions, and between disciplines. Like the Millennium-Jahrbuch, the journal Millennium-Studien pursues an international, interdisciplinary approach that cuts across historical eras. Composed of scholars from various disciplines, the editorial and advisory boards welcome submissions from a range of fields, including history, literary studies, art history, theology, and philosophy. Millennium-Studien also accepts manuscripts on Latin, Greek, and Oriental cultures. In addition to offering a forum for monographs and edited collections on diverse topics, Millennium-Studien publishes commentaries and editions. The journal primarily accepts publications in German and English, but also considers submissions in French, Italian, and Spanish. If you want to submit a manuscript please send it to the editor from the most

- Best Selling Book in English Edition for ICICI Bank PO Exam with objective-type questions as per the latest syllabus.
- Compare your performance with other students using Smart Answer Sheets in EduGorilla's ICICI Bank PO Exam Practice Kit.
- ICICI Bank PO Exam Preparation Kit comes with 17 Tests (8 Mock Tests + 9 Sectional Tests) with the best quality content.
- Increase your chances of selection by 14 times.
- ICICI Bank PO Exam Sample Kit is created as per the latest syllabus given by ICICI Bank.
- ICICI Bank PO Exam Prep Kit comes with well-structured and detailed Solutions of each and every question. Easily Understand the concepts.
- Clear exam with good grades using thoroughly Researched Content by experts.
- Get Free Access to Unlimited Online Preparation for One Month by reviewing the product.
- Raise a query regarding a solution and get it resolved within 24 Hours. Why EduGorilla?
- The Trust of 2 Crore+ Students and Teachers.
- Covers 1300+ Exams.
- Awarded by Youth4Work, Silicon India, LBS Group, etc.
- Featured in: The Hindu, India Today, Financial Express, etc.
- Multidisciplinary Exam Preparation.
- Also provides Online Test Series and Mock Interviews.

The book intends to bring under one roof research work of leading groups from across the globe working on advanced applications of emerging memory technology nanodevices. The applications dealt in the text will be beyond conventional storage application of semiconductor memory devices. The text will deal with material and device physical principles that give rise to interesting characteristics and phenomena in the emerging memory device that can be exploited for a wide variety of applications. Applications covered will include system-centric cases such as – caches, NVSRAM, NVTAM, Hybrid CMOS-RRAM circuits for: Machine Learning, In-Memory Computing, Hardware Security - RNG/PUF, Biosensing and other misc beyond storage applications. The book is envisioned for multi-purpose use as a textbook in advanced UG/PG courses and a research text for scientists working in the domain.

This book is one of the deepest and most up-to-date treatments of the subject of sexual violence, with a focus on rape in Classical Myth and its reception from Antiquity to our days.

Politics and Religion in Zimbabwe

Handbook of Research on Knowledge Management Tools in Higher Education

Pathbreakers on the Gridiron, 1927 to the Present

The Disintegration of Our Institutions

***This book illustrates how religion and ideology were used by Robert Mugabe to ward off opposition within his own party,***

*in Zimbabwe and from the West. An interdisciplinary line up of contributors argue that Mugabe used a calculated narrative of deification – presenting himself as a divine figure who had the task of delivering land, freedom and confidence to black people across the world – to remain in power in Zimbabwe. The chapters highlight the appropriation and deployment of religious themes in Mugabe’s domestic and international politics, reflect on the contestation around the deification of Mugabe in Zimbabwean politics across different forms of religious expression, including African Traditional Religions and various strands of Christianity and initiate further reflections on the interface between religion and politics in Africa and globally. Politics and Religion in Zimbabwe will be of interest to scholar of religion and politics, Southern Africa and African politics.*

*"According to the Office of the Auditor General of Canada (OAG), in 2009, "the Government of Canada began to transform the way it processed pay for its 290,000 employees. Public Services and Procurement Canada [PSPC] was responsible for this Transformation of Pay Administration Initiative. The initiative had two projects: one to centralize pay services for 46 departments and agencies that employed about 70 percent of all federal employees, and the other to replace the 40-year-old pay system used by 101 departments and agencies."<sup>1</sup> This initiative took seven years to complete, and cost \$310 million. Additionally, the government "expected the initiative to save it about \$70 million a year, starting in the 2016-17 fiscal year""--Intro., p. [1].*

*Prairie Fairies draws upon a wealth of oral, archival, and cultural histories to recover the experiences of queer urban and rural people in the prairies. Focusing on five major urban centres, Winnipeg, Saskatoon, Regina, Edmonton, and Calgary, Prairie Fairies explores the regional experiences and activism of queer men and women by looking at the community centres, newsletters, magazines, and organizations that they created from 1930 to 1985. Challenging the preconceived narratives of queer history, Valerie J. Korinek argues that the LGBTTQ community has a long history in the prairie west, and that its history, previously marginalized or omitted, deserves attention. Korinek pays tribute to the prairie activists and actors who were responsible for creating spaces for socializing, politicizing, and organizing this community, both in cities and rural areas. Far from the stereotype of the isolated, insular Canadian prairies of small towns and farming communities populated by faithful farm families, Prairie Fairies historicizes the transformation of prairie cities, and ultimately the region itself, into a predominantly urban and diverse place.*

*This book is the first volume of a comprehensive assemblage of contemporary knowledge relevant to genomics and other omics in date palm. Volume 1 consists of 11 chapters arranged in 3 parts grouped according to subject. Part I, Biology and Phylogeny, focuses on date palm biology, evolution and origin. Part II, Biodiversity and Molecular Identification, covers conformity of in vitro derived plants, molecular markers, barcoding, pollinizer genetics and gender determination. Part III, Genome Mapping and Bioinformatics, addresses genome mapping of nuclear, chloroplast and mitochondrial DNA, in addition to a chapter on progress made in date palm bioinformatics. This volume represents the*

Slavery, capitalism, and colonialism were understood as racially justified through false olfactory perceptions of African bodies throughout the Atlantic World.

This book examines the impact of several decades of public sector reform in four Westminster systems – Australia, Canada, New Zealand and the United Kingdom. Political and managerial change has re-defined roles and relationships and how their public sectors function. Often this occurs in comparable ways because of a common administrative tradition, but choices made in different country contexts also produce divergent outcomes. In analysing the results and implications of reform, fundamental issues of and tensions in public administration and management are addressed.

Knowing Native Arts brings Nancy Marie Mithlo ' s Native insider perspective to understanding the significance of Indigenous arts in national and global milieus. These musings, written from the perspective of a senior academic and curator traversing a dynamic and at turns fraught era of Native self-determination, are a critical appraisal of a system that is often broken for Native peoples seeking equity in the arts. Mithlo addresses crucial issues, such as the professionalization of Native arts scholarship, disparities in philanthropy and training, ethnic fraud, and the receptive scope of Native arts in new global and digital realms. This contribution to the field of fine arts broadens the scope of discussions and offers insights that are often excluded from contemporary appraisals.

Canada's representative democracy is confronting important challenges. At the top of the list is the growing inability of the national government to perform its most important roles: namely mapping out collective actions that resonate in all regions as well as enforcing these measures. Others include Parliament's failure to carry out important responsibilities, an activist judiciary, incessant calls for greater transparency, the media's rapidly changing role, and a federal government bureaucracy that has lost both its way and its standing. Arguing that Canadians must reconsider the origins of their country in order to understand why change is difficult and why they continue to embrace regional identities, Democracy in Canada explains how Canada's national institutions were shaped by British historical experiences, and why there was little effort to bring Canadian realities into the mix. As a result, the scope and size of government and Canadian federalism have taken on new forms largely outside the Constitution. Parliament and now even Cabinet have been pushed aside so that policy makers can design and manage the modern state. This also accounts for the average citizen's belief that national institutions cater to economic elites, to their own members, and to interest groups at their own expense. A masterwork analysis, Democracy in Canada investigates the forces shaping the workings of Canadian federalism and the country's national political and bureaucratic institutions.

Extensively annotated Bibliography and Sourcebook  
Teacher Transition into Innovative Learning Environments  
The Contemporary Piano  
Catalog of Copyright Entries  
Parliamentary Papers  
Olfactory Racism and the Atlantic World

A year-by-year complete history of videogames from the late '50s through 2016.

This open access book focuses on how the design and use of innovative learning environments can evolve as teaching practices and education policies change. It addresses how these new environments are used, how teachers are adapting their practices, the challenges that these changes pose, and the effective evaluation of these changes. The book reports on emerging research in learning environments, with a particular emphasis on how teachers are transitioning from traditional classrooms to innovative learning environments. It offers a significant evidence-based global assessment of current research in this field by designers, architects, educators and policy makers. It presents twenty-five cutting-edge projects from researchers in fifteen countries. Thanks to the book's comprehensive international perspective, which combines theory and practice in a single publication, readers will gain a wealth of new insights.

Baseball and law have intersected since the primordial days. In 1791, a Pittsfield, Massachusetts, ordinance prohibited ball playing near the town's meeting house. Ball games on Sundays were barred by a Pennsylvania statute in 1794. In 2015, a federal court held that baseball's exemption from antitrust laws applied to franchise relocations. Another court overturned the conviction of Barry Bonds for obstruction of justice. A third denied a request by rooftop entrepreneurs to enjoin the construction of a massive video screen at Wrigley Field. This exhaustive chronology traces the effects the law has had on the national pastime, both pro and con, on and off the field, from the use of copyright to protect not only equipment but also "Take Me Out to the Ball Game" to frequent litigation between players and owners over contracts and the reserve clause. The stories of lawyers like Kenesaw Mountain Landis and Branch Rickey are entertainingly instructive.

As digital transformation becomes increasingly central to effective corporate strategy, today's students must understand information systems' role as the backbone to all organizations. Known for its rich Canadian content and focus on active learning, Introduction to Information Systems, Fifth Canadian Edition shows students how they can use IS to help their employers increase profitability, improve customer service, manage daily operations, and drive impact in their markets. The popular What's in IT for Me framework empowers students in accounting, finance, marketing, human resources, production/operations management, and management information systems (MIS) to connect their majors to specific IT topics and demonstrate value in the organizations they join.

*Falls and fall-related injuries among older adults have emerged as serious global health concerns, which place a burden on individuals, their families, and greater society. As fall incidence rates increase alongside our globally aging population, fall-related mortality, hospitalizations, and costs are reaching never seen before heights. Because falls occur in clinical and community settings, additional efforts are needed to understand the intrinsic and extrinsic factors that cause falls among older adults; effective strategies to reduce fall-related risk; and the role of various professionals in interventions and efforts to prevent falls (e.g., nurses, physicians, physical therapists, occupational therapists, health educators, social workers, economists, policy makers). As such, this Research Topic sought articles that described interventions at the clinical, community, and/or policy level to prevent falls and related risk factors. Preference was given to articles related to multi-factorial, evidence-based interventions in clinical (e.g., hospitals, long-term care facilities, skilled nursing facilities, residential facilities) and community (e.g., senior centers, recreation facilities, faith-based organizations) settings. However, articles related to public health indicators and social determinants related to falls were also included based on their direct implications for evidence-based interventions and best practices.*

*In the last decade, over half of the EU countries in the euro area or with currencies pegged to the euro were hit by large risk premium shocks. Previous papers have focused on the impact of these shocks on demand. This paper, by contrast, focuses on the impact on supply. We show that risk premium shocks reduce the output level that maximizes profit. They also lead to unemployment surges, as firms are forced to cut costs when financing becomes expensive or is no longer available. As a result, all countries with risk premium shocks saw unemployment surge, even as euro area core countries managed to contain unemployment as firms hoarded labor during the downturn. Most striking, wage bills in euro area crisis countries and the Baltics declined even faster than GDP, whereas in core euro area countries wage shares actually increased.*

***This 2019 Article IV Consultation highlights that the Lithuanian economy has continued to enjoy a strong macroeconomic and fiscal performance, but long-term challenges remain largely unaddressed. The continued strong economic performance suggests that a neutral fiscal stance would have been preferable in the year 2019. The report discusses that Lithuania needs sustained productivity gains to ensure higher living standards and convergence with Western Europe. Macroeconomic and financial stability is a prerequisite for sustained growth and has been achieved through prudent policies and labor market flexibility. Nevertheless, significant and well-identified structural challenges have yet to be addressed with ambitiously designed and decisively implemented productivity-enhancing reforms. The current expansionary cyclical environment and strong fiscal and external positions provide an ideal opportunity to address these challenges. Fintech provides big opportunities to improve financial services and produce high-skill jobs; however, it also brings challenges, particularly related to antimoney laundering. The authorities' efforts to promote fintech are already delivering results.***
