Victim Choice Pro-arrest policies have been criticised for disempowering victims by not taking into account

Family violence and the pro-arrest policy: a literature review

The child abuse and family violence literature suggests that for some adults, the propensity for abuse may evolve from experiencing or witnessing abuse/violence within their family of origin (e.g., persons who were maltreated as children in turn abuse their own children; children who see acts of violence within their parent's relationship repeat such behaviors within their adult intimate relationships). No empirical evidence exists to either support or refute the intergenerational ...

Family Violence - an overview | ScienceDirect Topics

Interpersonal violence among adults in a family setting was once referred to in research as "domestic violence," "marital abuse" or "spouse abuse." However, a broader term was considered necessary to cover violence that occurs between current as well as former marital partners, separated marital partners, and current and former cohabiters.

Social Issues: Family Violence | Vision

To understand the effects of domestic violence on the family and children, it is first important to understand what is meant by domestic violence. Domestic violence is a situation wherein one person in a close relationship abuses the other physically, emotionally, and/or sexually. The partners do not need to be married to experience domestic violence, nor do they need to live together. A boyfriend can be just as guilty as a husband of committing domestic violence.
